On some level, most people can feel what is coming. That is why sales of emergency food are at record levels, shows about survival are among the most popular on television, and Mark Zuckerberg is building a [“self-sustaining doomsday bunker”](#) in Hawaii. Millions of us realize that we are on the brink of an extremely chaotic chapter in human history. Of course the past several years have already been pretty wild, but I believe that the years immediately in front of us will take things to an entirely new level. [\(Read More...\)](#)

**THE SYSTEM IS FAILING. WE'RE ON OUR OWN.** THE INSTITUTIONS OF THE (SO-CALLED) SYSTEM DELIBERATELY SYSTEMATICALLY (NEGLIGENTLY) EVISCERATED.

**“WHO IS ACTUALLY IN CHARGE?** The institutions of our governing systems may have been created for the right reasons but for a long time, while we were being distracted, they have been systematically corrupted and sabotaged. If every person in power, from the US President on down, is a target of bribery, blackmail or assassination, we are operating in a system that's very different the one that has been advertised to us. The facade of effective checks and balances and equal justice for all is a fiction, there only to lull us into passive acquiescence to the covert rule of clandestine forces behind the throne. Who might those forces be? I have answered that question in an article I published during the pandemic and which I will revisit next.”
