

Albert L. PEIA, Plaintiff,

v.

UNITED STATES of America, et al., Defendants.

“...The facts are taken as alleged in the complaint^[1]. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney's Office, Donald Trump, the FBI, and fifteen John Doe defendants...” *“...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry^[2]. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.^[3] After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”*

28 U.S. CODE § 455 - DISQUALIFICATION OF JUSTICE, JUDGE, OR MAGISTRATE JUDGE

(a) Any justice, judge, or magistrate judge of the United States shall disqualify himself in any proceeding in which his impartiality might reasonably be questioned.

(b) He shall also disqualify himself in the following circumstances:

(1) Where he has a personal bias or prejudice concerning a party, or personal knowledge of disputed evidentiary facts concerning the proceeding;

(2) Where in private practice he served as lawyer in the matter in controversy, or a lawyer with whom he previously practiced law served during such association as a lawyer concerning the matter, or the judge or such lawyer has been a material witness concerning it;

(3) Where he has served in governmental employment and in such capacity participated as counsel, adviser or material

witness concerning the proceeding or expressed an opinion concerning the merits of the particular case in controversy;

(4) He knows that he, individually or as a fiduciary, or his spouse or minor child residing in his household, has a financial interest in the subject matter in controversy or in a party to the proceeding, or any other interest that could be substantially affected by the outcome of the proceeding;

(5) He or his spouse, or a person within the third degree of relationship to either of them, or the spouse of such a person:

(i) Is a party to the proceeding, or an officer, director, or trustee of a party;

(ii) Is acting as a lawyer in the proceeding;

(iii) Is known by the judge to have an interest that could be substantially affected by the outcome of the proceeding;

(iv) Is to the judge's knowledge likely to be a material witness in the proceeding.

(c) A judge should inform himself about his personal and fiduciary financial interests, and make a reasonable effort to inform himself about the personal financial interests of his spouse and minor children residing in his household.

(d) For the purposes of this section the following words or phrases shall have the meaning indicated:

(1) "proceeding" includes pretrial, trial, appellate review, or other stages of litigation;

(2) the degree of relationship is calculated according to the civil law system;

(3) “fiduciary” includes such relationships as executor, administrator, trustee, and guardian;

(4) “financial interest” means ownership of a legal or equitable interest, however small, or a relationship as director, adviser, or other active participant in the affairs of a party, except that:

(i) Ownership in a mutual or common investment fund that holds securities is not a “financial interest” in such securities unless the judge participates in the management of the fund;

(ii) An office in an educational, religious, charitable, fraternal, or civic organization is not a “financial interest” in securities held by the organization;

(iii) The proprietary interest of a policyholder in a mutual insurance company, of a depositor in a mutual savings association, or a similar proprietary interest, is a “financial interest” in the organization only if the outcome of the proceeding could substantially affect the value of the interest;

(iv) Ownership of government securities is a “financial interest” in the issuer only if the outcome of the proceeding could substantially affect the value of the securities.

(e) No justice, judge, or magistrate judge shall accept from the parties to the proceeding a waiver of any ground for disqualification enumerated in subsection (b). Where the ground for disqualification arises only under subsection (a), waiver may be accepted provided it is preceded by a full disclosure on the record of the basis for disqualification.

(f) Notwithstanding the preceding provisions of this section, if any justice, judge, magistrate judge, or bankruptcy judge to whom a matter has been assigned would be disqualified, after substantial judicial time has been devoted to the matter, because of the appearance or discovery, after the matter was

assigned to him or her, that he or she individually or as a fiduciary, or his or her spouse or minor child residing in his or her household, has a financial interest in a party (other than an interest that could be substantially affected by the outcome), disqualification is not required if the justice, judge, magistrate judge, bankruptcy judge, spouse or minor child, as the case may be, divests himself or herself of the interest that provides the grounds for the disqualification.

California Gov. Gavin Newsom says he's not considering a

presidential run. "No, no, and no," he said when asked whether he would run for president in 2024 or 2028 while speaking in Texas Saturday. "I've said it in French, Italian. I don't know German. I mean, I cannot say it enough. But thank you. It's humbling. It is sweet. It's a nice thing to be asked." Rick Perry on Donald Trump:

“He offers a barking carnival act that can be best described as Trumpism: a toxic mix of demagoguery, mean-spiritedness and nonsense that will lead the Republican Party to perdition if pursued. Let no one be mistaken — Donald Trump’s candidacy is a cancer on conservatism, and it must be clearly diagnosed, excised and discarded.”

[In a meeting arranged for business with trump casinos, much to the delight of my client given all the media hype; based upon my experience, business, legal, general, it was clear as crystal that trump was somewhat "off", just bull st; and, on closer inspection, a mentally ill mobster/criminal. So no excuse for those in his fold, including Barr. Yes, THEY ARE F-CKING LOSERS for having fallen in line with trump in the first instance. Albert L. PEIA, Plaintiff v. UNITED STATES of America, et al., Defendants.

“...The facts are taken as alleged in the complaint[1]. Plaintiff alleges a broad-ranging conspiracy involving the United States of America, the U.S. Bankruptcy Courts, various U.S. District Court Judges, various U.S. Bankruptcy Trustees, the U.S. Attorney’s Office, Donald Trump, the FBI, and fifteen John Doe defendants...” “...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry[2]. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney’s office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.[3] After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney’s office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff’s motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989...”

The Saturday Report 8/13/22 The Best of the Rest of the News

Thom Hartmann

Image by **Myriams-Fotos** from **Pixabay**

— Did America have a true “Manchurian Candidate” in the White House for four years? A literal agent for one or more foreign governments and/or international organized crime figures? According to numerous reporters and authors, Donald Trump had gone from doing business with the American Mafia in the 70s and 80s to laundering money for Russian oligarchs in the 90s and early 2000s. Reporter Tim Robbins’ ***A Brief History of Donald Trump and the Mafia*** published in 2016 by *Vice News* gives insight into Trump’s mobbed-up early years, and Jeff Stein’s 2019 ***Donald Trump’s Mafia Connections: Decades Later, Is He Still Linked to the Mob?*** for *Newsweek* raises even more questions, leading into his laundering money for Russian oligarchs and other international organized crime figures.

As [David Cay Johnston wrote for Politico](#), “[H]e’d hired mobbed-up firms to erect Trump Tower and his Trump Plaza apartment building in Manhattan, including buying ostensibly overpriced concrete from a company controlled by mafia chieftains Anthony ‘Fat Tony’ Salerno and Paul Castellano. That story eventually came out in a federal investigation, which also concluded that in a construction industry saturated with mob influence, the Trump Plaza apartment building most likely benefited from connections to racketeering. Trump also failed to disclose that he was under investigation by a grand jury directed by the U.S. attorney in Brooklyn...”

[Johnston adds](#), “Within a few years Donald J. Trump had made friends with the city’s most notorious fixer, lawyer Roy Cohn... Among other things Cohn was now a mob consigliere, with clients including ‘Fat Tony’ Salerno, boss of the Genovese crime family, the most powerful Mafia group in New York, and Paul Castellano, head of what was said to be the second largest family, the Gambinos.” (all emphasis mine)

After his multiple bankruptcies and the failure of his casinos in the late 1990s, some reports indicate Trump was largely [bailed out by Russian oligarchs](#) running money through his real estate operation, and today the government of Scotland is [looking](#) into possible secret and illegal Russian money-laundered financing of one of his golf courses there.

The Mueller Report documented both the multiple ways Putin and his government worked to get Trump elected president, and identifies ten specific instances of Trump himself committing the federal crime of “obstruction of justice” while trying to cover up his involvement with the Russians.

Now we find that he left the White House with documents that could be worth billions to foreign governments and, just a few months later, the government of Saudi Arabia gifted \$2 billion to the Trump family (and nobody is saying how many millions or even billions they gave Trump himself to use Bedminster to feature their sportswashing LIV golf tournament).

Yesterday we learned that the FBI is [investigating](#) Trump for possible violations of the Espionage Act, which could land him in prison for decades. Watch this space.

— Are death threats now a normal tool of politics for Republicans? Prior to Donald Trump’s arrival on the political scene in the 2015 Republican primary, threats of political violence were largely confined to the fringes of rightwing conspiracy fever swamps and among white supremacists like members of the Klan and radicals like Tim McVeigh. But one of the hallmarks of fascist politics is the use of violence and threats of violence to intimidate political opposition and cow the public, and, in this regard, Trump has delivered in spades. From telling ralliers that he’ll pay their lawyer fees when they assault protestors, to telling police to be “rough” with suspects, to now provoking [threats against a judge](#) and an [attack](#) on the FBI office in Cincinnati, violence has followed Trump throughout his political career.

With fascist politicians, this is normal. When Hitler began his political career he was accompanied by violent brawler gangs who eventually came together under the umbrella of the civilian volunteer Brownshirts; Mussolini had his own militia groups who he whipped together into his volunteer civilian Blackshirts; Orbán’s Hungarian partisans regularly threaten violence against Roma people and refugees; Bolsonaro’s thugs gleefully beat up Lula supporters in Brazil; Duterte bragged about his rogue Philippine police loyalists murdering thousands of “criminals” and opposition figures; Pinochet’s goons threw liberals out of helicopters. Trump is running the same playbook with Trump-aligned white supremacist gangs like the Proud Boys, Three Percenters, Oathkeepers, etc.. The big question today is whether political violence will continue after Trump leaves the political scene, or if the Republican Party will come to its senses and return to simply shilling for billionaire tax cuts and more air and

water pollution. Can the political violence genie be put back in the bottle? Listening to this guy isn't encouraging:

[Rep. Eric Swalwell @RepSwalwell LISTEN to this death threat against my children. Since the FBI search of Mar-a-Lago, Trump, McCarthy, and MAGA Republicans are stoking violent rhetoric against lawmakers and law enforcement. Someone is going to get killed.](#)

Almost a quarter of all young adults received mental health care treatment last year, according to recently released data from the Centers for Disease Control and Prevention (CDC). The number of adults aged 18 to 44 who received mental health care in the past 12 months saw the biggest increase from 2019, rising from 18.5 percent to 23.2 percent. The percentage of all adults who received mental health treatment also increased from 19.2 percent in 2019 to 21.6 percent in 2021. That is stunning. Those numbers are not just young people that say that they are depressed or that they struggle with mental health issues. To

“...What’s driving this considerable decline is, per the CDC, primarily the ongoing Covid-19 pandemic. That’s perhaps not surprising since the US has the most extensive caseload and death toll worldwide. But it’s essential to also note that US life expectancy had been plateauing since before the pandemic due to “unintentional injuries,” liver disease, suicide, and preventable illnesses. Now, America is on pace to drop out of the top 50 nations in life expectancy. One key factor is that every country above it has a public option for health insurance or a publicly funded healthcare system...”

Overview

- **As people with HIV are living longer with the disease, new infections continue to occur, and diagnoses surpass deaths each year, more people are living with HIV than ever before.**^{10,11}
- **There have been some promising trends, as the number of new HIV infections declined 73% between 1984 and 2019 and 9% between 2015 and 2019. Still, 34,800 people were newly infected with HIV in the U.S. in 2019, and declines were not seen among all populations.**¹²
- **HIV-related mortality rates, which rose steadily through the 1980s and peaked in 1995, have declined significantly; the age-adjusted HIV death rate has dropped by more than 80% since its peak and by almost 50% since 2010.**^{13,14} This is largely due to ART, but also to decreasing HIV incidence. Still, more 5,000 people died with HIV/AIDS as the underlying cause of death in 2019.¹⁵ While HIV is not a leading cause of death for Americans overall, it remains a leading cause of death for certain age groups – in 2019, HIV

was the 9th leading cause of death for those ages 25-34, and the 10th for those ages 35-44.¹⁶

- **HIV transmission patterns have shifted over time. In 2019, most newly diagnosed cases of HIV occurred through male-to-male sexual contact (66%).¹⁷ An additional 4% of diagnoses occurred among gay and bisexual men with a history of injection drug use.¹⁸ Diagnoses attributable to injection drug use alone have declined significantly over time and accounted for 7% of new diagnoses in 2019.^{19,20} Transmission through heterosexual sex now accounts for more cases than at the beginning of the epidemic – 23% of new diagnoses in 2019 – but diagnoses attributable to heterosexual sex have declined 40% between 2008 and 2019, compared to an 11% decline among men who have sex with men.²¹**
- **HIV testing is important for both treatment and prevention efforts and rapid testing is now much more widely available. Yet, as of 2019 13% of those with HIV are unaware they are infected.²² It is thought that 38% of all new HIV transmissions occur from those who are undiagnosed.²³ Knowledge of HIV status is important because individuals with HIV can engage in care and treatment to achieve optimal health outcomes and can take steps to prevent transmission. Routine HIV testing is recommended for all people ages 13-64,²⁴ and several recent policies have expanded health insurance coverage of HIV testing.²⁵**
- **Current U.S. HIV treatment guidelines recommend initiating ART as soon as one is diagnosed with HIV,²⁶ and new research (including the Strategic Timing of Antiretroviral Treatment study or START) has underscored the importance of starting treatment early.²⁷ Engaging in treatment early and consistently affords individuals with HIV the best possible care outcomes.**
- **Further, recent research has confirmed the preventive benefits of treatment; when an individual with HIV is**

consistently engaged with antiretroviral therapy and the level of HIV in their body is undetectable, there is effectively no risk of sexual transmission. [28](#)

- **However, looking across the spectrum from HIV diagnosis to viral suppression reveals missed opportunities for addressing the epidemic. According to the Centers for Disease Control and Prevention (CDC), while many people with HIV are diagnosed (87%), far fewer receive medical care (66%), and fewer still are virally suppressed (57%), though each of these shares has increased over time.[29](#) Viral suppression is greater among those who are in medical care.[30](#)**

Impact Across the Country

- **Although HIV has been reported in all 50 states, the District of Columbia, and U.S. dependencies, the impact of the epidemic is not uniformly distributed.**
- **Ten states accounted for about two-thirds (65%) of HIV diagnoses among adults and adolescents in 2019 (Table 1).[31](#) Regionally, the South accounted for more than half of HIV diagnoses in 2019.[32](#)**
- **Rates of HIV diagnoses per 100,000 provide a different measure of the epidemic's impact, since they reflect the concentration of diagnoses after accounting for differences in population size across states. The District of Columbia has the highest rate in the nation, compared to states, nearly 3 times the national rate (Table 1) and Georgia was the state with highest rate (27.6), twice that of the national rate.[33,34](#) Nine of the top 10 states by rate are in the South.[35](#)**
- **New HIV diagnoses are concentrated primarily in large U.S. metropolitan areas (80% in 2019), with Miami, Orlando, and Atlanta topping the list of the areas most heavily burdened.[36](#)**

<https://www.yahoo.com/news/harvard-law-professor-donald-trump-075435039.html>

“...Tribe, appearing on MSNBC’s “The Last Word,” said if Attorney General Merrick Garland indicts Trump in Washington, D.C.,

(where the documents were taken from) and not Florida (from where they were seized at Trump’s Mar-a-Lago estate), then he could add charges of insurrection and seditious conspiracy, stemming from Trump’s incitement of the Capitol riot. Tribe predicted that Garland, his former research assistant, would leave “no stone unturned” to build a watertight case and would indict Trump at some point. Garland’s extreme thoroughness, he added, could delay the charges. “This will be an indictment that is absolutely over the top,” Tribe predicted.”

"Mr. Trump, still determined to show he had been wronged by the F.B.I. investigation into his 2016 campaign's ties to Russia, was angry with the National Archives and Records Administration for its unwillingness to hand over a batch of sensitive documents that he thought proved his claims," The Times' report stated. "In exchange for those documents, Mr. Trump told advisers, he would return to the National Archives the boxes of material he had taken to Mar-a-Lago, in Palm Beach, Fla."

Excerpt: “Can you believe these are my customers?” Donald Trump once asked while surveying the crowd in the Taj Mahal casino’s poker room. “Look at those losers,” he said to his consultant Tom O’Neil, of people spending money on the floor of the Trump Plaza casino. Visiting the Iowa State Fair as a presidential candidate in 2015, he was astounded that locals fell in line to support him because of a few free rides in his branded helicopter. In the White House, he was sometimes stunned at his own backers’ fervor, telling aides, “They’re fucking crazy.” Yet they loved him and wanted to own a piece of him, and that was what mattered most. Almost immediately after his defeat in 2020, Trump began fundraising off his claims of fraud, turning to his ardent fans for support...”

"Totally lousy opinion. Utterly lawless," Laurence Tribe, a constitutional law professor at Harvard Law School, wrote on Twitter. US District Judge Aileen Cannon on Monday granted Trump's request that a special master — or independent party — go over materials that FBI agents recovered during their August 8 search of the former president's Mar-a-Lago estate. In her ruling, Cannon — a Trump-appointed judge in the Southern District of Florida — also granted an injunction that stops the

Department of Justice from using the documents in its investigation until the special master completes their review. In another tweet, Tribe called the opinion "a poorly sewn-together fabric of factual misstatements and legal BS. It looks like her mind was made up the moment Team Trump filed in her court." Any US government appeal to her ruling would be heard at the Court of Appeals for the 11th Circuit, of which Trump appointed six of the 11 judges, Tribe noted. Cannon's ruling comes as the Department of Justice continues to investigate if Trump violated any laws by keeping classified government documents at his South Florida Mar-a-Lago resort. Last week, the DOJ revealed in a court filing that it recovered more than 10,000 government documents at Mar-a-Lago — including over 100 classified records marked "CONFIDENTIAL," "SECRET," or "TOP SECRET."

I have been practicing law for 45+ years and the District Court's decision was one of the stupidest I have ever seen. There is a fairly ancient adage regarding how law is to be practiced: "If you have the law, pound the law; if you have the facts, pound the facts; if you have neither, pound the table." The judge beat that table into sawdust.

Good one! Never heard that ... For me the apposite adage was, 'Good law, bad facts, argue the law. Good facts, bad law, argue the facts. Bad law, bad facts, SETTLE!

AMERICA IS PREDOMINANTLY A NATION OF CRIMINALS AND MENTALLY ILL PEOPLE (AN EVOLUTIONARY DISASTER).

The following from my website sums up my view, based on experience, of law in america:

Time to put 'law in america' in its proper perspective. Specifically, much as would be so in an exclusively maximum security prison environment for convicts of the most serious crimes, the notion of laws, rules of law is preposterous. Beyond the propaganda, obfuscation, etc., lies the greatest fraud, certainly of the 20th and 21st centuries; viz., america. Anthropologically speaking, america is unequivocally a total,

unmitigated evolutionary disaster.

Reich: (in pertinent part) "Three weeks ago, the FBI searched Donald Trump's Mar-a-Lago estate after he refused to turn over more than 300 classified documents, including nuclear secrets, in potential violation of the Espionage Act."¹

And we've now learned exactly why that raid occurred. Let me just quote the affidavit so I get it right: "Based upon the following facts, there is probable cause to believe that the locations to be searched at the PREMISES contain evidence, contraband, fruits of crime, or other items illegally possessed in violation of 18 U.S.C. §§ 793(e), 1519, or 2071."² In a new court filing this week, the Justice Department also confirmed that they had video evidence that documents had been "concealed and removed" by Trump's team in an apparent attempt to thwart the ongoing investigation."³

The same week the raid occurred, Trump pleaded the Fifth Amendment 440 times during a deposition with the New York attorney general over allegations of fraudulent business practices and tax evasion."⁴

Meanwhile, Trump cronies, including Rudy Giuliani and Lindsey Graham, are facing subpoenas as part of a criminal investigation into Trump's election interference in the state of Georgia."⁵

So how is all this playing with Republicans? Turns out, Donald Trump is now more popular with the GOP base than ever.

Nearly 60% of Republican voters now say they'll support him in the 2024 GOP primary, and he's seeing a huge surge in donations, with one Republican digital operative calling his fundraising windfall "manna from Mar-a-Lago."^{6,7}

The frightening truth is that the Republican Party has become nothing more than a neofascist authoritarian cult. They don't believe in anything except loyalty to Donald Trump. And they cannot be allowed back in power...”

DRUDGEREPORT With rising rates and rising debt, the taxpayer bill is finally coming due... "...That would bring the total interest cost in 2023 to roughly the same level as the federal government's 2022 budget for Medicaid. The increase is caused partly by the U.S. government's rapidly increasing national debt, as well as by the Federal Reserve sharply increasing interest rates to hold down inflation. The government has more than \$31 trillion in debt and ran a \$1.4 trillion deficit in fiscal 2022 (a figure that represents the gap between spending and revenue)..."
<https://www.usdebtclock.org/> On Thursday morning 10-13-22, the Social Security Administration announced the annual cost-of-living adjustment (COLA) would be 8.7% in 2023. It's the highest increase in over four decades, since payments were increased 11.2% in 1981. Last year, the COLA was 5.9%.

Hopefully someone out there can find a way to pull a miracle out of a hat and a worst case scenario can be averted.

But I wouldn't count on that happening. The following are 12 numbers that show that we are getting dangerously close to an economic crash as the fall of 2022 approaches...

#1 The government is telling us that the unemployment rate only went up to [3.7 percent](#) in August.

#2 According to John Williams of shadowstats.com, if honest numbers were being used the real rate of unemployment in the United States would be over 24 percent.

#3 About half of all U.S. companies say that they will be eliminating jobs within the next 12 months.

#4 The government is telling us that the inflation rate in the United States is only 8.5 percent.

#5 According to John Williams of shadowstats.com, if the rate of inflation was still calculated the way that it was back in 1980, the real rate of inflation would be somewhere around 17 percent right now. That is worse than anything that we experienced during the Jimmy Carter era.

#6 At one company, the number of Americans taking out short-term loans for groceries has nearly doubled this year.

#7 One out of every five home sellers in the United States dropped their asking price last month. This is more evidence that home prices are starting to rapidly move in a downward direction.

#8 Sales of previously-owned homes were about 20 percent lower this July than they were last July.

#9 One recent survey found that 3.8 million Americans believe that they could be evicted from their homes within the next two months.

#10 According to the National Energy Assistance Directors Association, approximately 20 million U.S. households are currently behind on their utility bills.

#11 The Dow Jones Industrial Average has fallen for three weeks in a row. We also witnessed this sort of a gradual slide just prior to the big crash of 2008.

#12 In August, a whopping 2,150 corporate executives sold off shares in their companies. Are they trying to cash in while they still can?

Peter Schiff: The Fed Didn't Create The Inflation Problem Last Year; It Was Decades In The Making

Meltdown Monday Coming? [SUCKERS, SHORT-COVERING, BEAR-MARKET RALLIES]

<https://www.zerohedge.com/news/2022-10-01/meltdown-monday-coming>

"How much worse can it get," many of you are likely asking after Friday's close. After all, the market is down 8% this month alone and and the NASDAQ, S&P and Dow are down -32%, -24% and -20% year-to-date, respectively.

“...As I mentioned during an [hour-long interview I did yesterday](#), we are still not even lower than the pre-Covid highs the market had put in. Here’s the NASDAQ, for example:

And if you recall correctly, going into Covid the attitude was that we were at *nosebleed* valuations. In other words, no one would have been surprised if we had corrected 30% or more from there *just on valuations without a catalyst...*” [U.S. Pension Funds Could Be About To Implode](#)

U.S. Pension Funds Could Face Their Own "Lehman Moment" "If we can't meet our obligations with pension funds when the market is screaming higher, what are we going to do now? I guarantee you there are pension funds right now already in big, big, big trouble and we just haven't seen the news yet," I continued. "We don't know the extent of it yet." The fact that these funds were unable to post the returns that they needed during arguably the most euphoric bull market in history is extremely concerning. When conditions get worse for poor managers like these, like they are now, the capital destruction could be devastating.

CHART: THE RISE AND FALL OF YAHOO

[YAHBOO.COM – Have you ever posted a comment on Yahoo ... talk about failed micromanagement; quite pathetic actually for this point in time ... I was surprised.]

“...MISSED OPPORTUNITIES In 1998, Yahoo was approached by two young Stanford Ph.D. students to buy their search engine algorithm. Larry Page and Sergey Brin had created PageRank – a quick way to find the most relevant website for a given search query. Yahoo skipped out on buying it for \$1 million, rationalizing that it would take people off of Yahoo’s website, while decreasing traffic and ad revenues.

Even later on when Google’s search business was well-established, Yahoo CEO Terry Semel balked at Larry and Sergey’s \$1 billion asking price. He would eventually agree to it, but by then it was too late. The Google guys had already decided to up their price to a heftier \$3 billion.

Around that same time, Yahoo was turned down by a 22-year-old Mark Zuckerberg. Yahoo offered to buy Facebook for \$1 billion, but Zuckerberg declined. This was a moment that billionaire Facebook investor Peter Thiel lauds as the major turning point for the company that allowed it to become the behemoth it is today. Some sources even say that if the offer was increased to \$1.1 billion, that Facebook's board would have forced Zuckerberg to take it. But it's not just the offers made that were missed opportunities. Yahoo also turned down a hostile takeover from Microsoft in 2008 for \$44.6 billion that valued the company for far more than it is worth today.

The Rule Of 20 And Why The Bear Market Remains
<https://www.zerohedge.com/markets/rule-20-and-why-bear-market-remains> A measure of stock valuations called the Rule of 20 states that the stock market is fairly valued when the sum of the average price-earnings ratio and the rate of inflation is equal to 20. Above that level, stocks begin to get expensive;

below it, they're bargains.

Morgan Stanley Spots A New "Recession Canary" In The Credit Coal Mine <https://www.zerohedge.com/markets/morgan-stanley-spots-new-recession-canary-credit-coal-mine> “...RECESSION RISKS ARE STILL NOT ADEQUATELY PRICED IN... A downgrade wave is imminent, extending through the next few quarters. Historically, the loan index has breached 750bp in spread and an 85 cash price only in the depths of the GFC and Covid. This time around, we expect these levels to be tested even in a mild recession, signaling significant downside from current levels (480bp in spread; 95 cash price). Our conclusion: HY credit spreads may be less sensitive to a growth slowdown than in the past, but the loan market is fundamentally more vulnerable. Both canaries are singing for now. But given current valuations, we maintain a cautious stance across corporate credit – staying up in quality and up in seniority.”

<https://www.zerohedge.com/markets/vicious-stagflationary-environment-awaits> ...a brutal inflationary recession followed

and, outside of precious metals, overall equities and Treasuries collapsed together. A similar macro setup is unfolding today... In our view, the US and most other developed economies have decisively entered an inflationary regime. Consequently, the role of monetary policy will be much more directed towards price stability which inhibits the backdrop of excessive central bank liquidity that drove overall market prices to today's unsustainable levels. We believe January 3rd marked the peak for US stocks and this is just the beginning of a bear market from truly historical overvaluations.

That's the way such things "work" , or not, in america. Updating Nader's famed work, to encompass evermore complex electronics ['Automotive EMR, Unsafe at any Speed' By James D. Honeycutt, PhD, July 2013 Published in 1965, Unsafe at Any Speed: The Designed-In Dangers of the American Automobile detailed the reluctance of American automakers to spend money on improving safety and made Ralph Nader a household name. In the nearly 50 years since its publication automobiles have become more complex, replacing mechanical systems with a myriad of microcomputers and increasing the amount of ElectroMagnetic Radiation (EMR) for the occupants. Current automobile designs have nearly 100 microprocessors and this number is expected to double in 5 years. A typical automobile contains about 5 miles of

INTERNATIONAL MAN: Vladimir Putin recently gave a speech in which he said:

"The West is ready to cross every line to preserve the neo-colonial system which allows it to live off the world, to plunder it thanks to the domination of the dollar and technology, to collect an actual tribute from humanity, to extract its primary source of unearned prosperity, the rent paid to the hegemon. The preservation of this annuity is their main, real and absolutely self-serving motivation. This is why total de-sovereignization is in their interest. This explains their aggression towards independent states, traditional values and authentic cultures, their attempts to undermine international and integration processes, new global currencies and technological development centers they cannot control. It is critically important for them to force all countries to surrender their sovereignty to the United States (of Thieves)."

The head of the Russian human rights council, Valery Fedorov, informed the UN Human Rights Council (OHCHR), the Organization for Security and Co-operation in Europe (OSCE), and Amnesty International, among other groups, about the grisly footage. "This video speaks of extrajudicial killings, the physical elimination of people who show a civil position and dare to oppose official Kiev. The situation is also aggravated by the fact that official representatives of the Ukrainian authorities have previously openly announced carrying out 'tough sweeping' and 'filtration measures'," Fedorov said in a statement urging an international probe into the affair.

The man is Daniel Burros. And if you folks knew how the U.S. Intelligence really operates, y'all would understand how it is absolutely a fact that UKRAINE IS A NAZI STATE.

“A 28-year-old New York man who is Grand Dragon of the Ku Klux Klan in charge of New York State, former national secretary of the American Nazi Party, and at one time or another a member of at least four Fascist groups advocating extreme racism against Jews and Negroes, was revealed by the New York Times today to be a Jew himself. The man is Daniel Burros, among whose other activities is that of publisher of a paper called “The Free American,” which calls itself “the battle organ of racial Fascism.” The paper has referred to Hitler as the “sacred leader,” asserting

that “the work begun by the Master will continue to a victorious conclusion.” The New York Times disclosed that Burros’ parents, George Burros, now 71, and the former Esther Sunshine, now 62, were married by a cantor in The Bronx in 1936. The boy, Daniel, was a “star pupil” at the Congregation Talmud Torah, in the borough of Queens, where he became bar mitzvah in the congregation’s synagogue. After study at the John Adams High School, where he was an honor pupil with a high I.Q, he served two years in the army as a paratrooper. He had tried to enroll in the U.S. Military Academy at West Point but was not admitted. Among the Fascist groups to which Daniel Burros has belonged at one time or another, in addition to the KKK and the American Nazi Party, have been, the Times reported, the National Renaissance Party and the British National Party. The newspaper stated that he carries now a card identifying him as a “special agent of the Invisible Empire” of the Klan. He was reported to have been arrested and convicted four times for extremist activities in Washington and in New York. The Times quoted Burros as saying to a reporter who questioned Burros about his Jewish background, as saying: “If you publish this, I’ll come and get you, and I’ll kill you. I don’t care what happens, I’ll be ruined. This is all I’ve got to live for.” “

<https://www.zerohedge.com/geopolitical/another-nord-stream-leak-detected-swedish-coastguard-says>

[EOAD 14 Things We Know About The Mysterious “Explosions” That Severely Damaged The Nord Stream 1 And Nord Stream 2 Pipelines](http://endoftheamericandream.com/14-things-we-know-about-the-mysterious-explosions-that-severely-damaged-the-nord-stream-1-and-nord-stream-2-pipelines/) <http://endoftheamericandream.com/14-things-we-know-about-the-mysterious-explosions-that-severely-damaged-the-nord-stream-1-and-nord-stream-2-pipelines/>

“Something really strange just happened. On Monday, large underwater “explosions” were detected in the precise areas of the sea where the Nord Stream pipeline system is now leaking. In fact, the explosions were so large that they actually registered on the Richter scale. If someone wanted to purposely damage the Nord Stream 1 and Nord Stream 2 pipelines, very large explosions would be needed because those pipelines are extremely thick. So it appears that this was a deliberate act of sabotage, and that is what many European officials are now alleging. But if that is the case, who was behind it?” [An intelligent bet would be that ‘shake things up, flailing when failing’ america’s behind it. 99.999% certainty sick, defacto bankrupt america’s the one! PATHETIC!]

ZH But there are certain facts that we do have. The following are 15 things we know about the “mysterious explosions” that severely damaged the Nord Stream 1 and Nord Stream 2 pipelines...

#1 We are being told that the sections where the pipelines were damaged are “70-90 meters below sea level”. So someone would need to go down pretty deep to get to them.

#2 It is extremely unlikely that these pipelines could have been ruptured by accident because they are extremely thick...

The steel pipe itself has a wall of 4.1 cm (1.6 inches) and is coated with steel-reinforced concrete up to 11cm thick. Each section of the pipe weighs 11 tonnes, which goes to 24-25 tonnes after the concrete is applied.

#3 It is being reported that explosions “were heard” in the areas where gas is now leaking out of the pipelines...

Explosions were heard near the Nord Stream 1 and 2 pipes where gas is now leaking into the Baltic from three holes, scientists have confirmed, while chronic safety concerns have led to a five-mile exclusion zone being imposed around the affected area.

#4 The Swedish National Seismic Network detected one explosion that registered [1.9 on the Richter scale](#) and another one that registered [2.3 on the Richter scale](#)...

Two powerful underwater explosions were detected on Monday in the same area of sea as the Nord Stream gas leaks, according to the Swedish National Seismic Network.

The monitoring network said the first explosion occurred on Monday at 2:03 a.m. Swedish time with a magnitude of 1.9 on the Richter scale, followed by a second at 7:04 p.m. on the same day with a magnitude of 2.3.

#5 The largest leak is reportedly [“spreading bubbles a good kilometre \(3,280ft\) in diameter”](#)...

It comes after shocking footage released earlier today by the Danish military from a flyover of the affected region showed huge swathes of the sea near the Danish island of Bornholm churning as the gas bubbled to the surface.

A military statement claimed that the largest leak ‘is spreading bubbles a good kilometre (3,280ft) in diameter. The smallest is creating a circle about 200 metres (656 feet) in diameter’, while the head of Denmark’s Energy Agency said it could take up to a week for gas to stop draining into the sea.

#6 German officials [are claiming](#) that this was a deliberate act of sabotage...

Germany is reportedly far less hesitant, however, with officials believing sabotage is virtually the only plausible cause for the leaks.

“We can’t imagine a scenario that isn’t a targeted attack. Everything speaks against a coincidence,” a government official reportedly told German newspaper Der Tagesspiegel.

#6a NATO Secretary-General Jens Stoltenberg on Wednesday attributed the leaks on the Nord Stream pipelines to acts of sabotage and said he had discussed the protection of critical infrastructure in NATO countries with the Danish defense minister.

#7 Interestingly, this incident took place [just one day after](#) thousands of German protesters took to the streets and demanded the opening of the Nord Stream 2 pipeline...

Thousands of protesters took to the streets in the northeastern German seaside town of Lubmin on Sunday, urging officials to put into service the halted Nord Stream 2 pipeline project that was designed to transport fuel from Russia to Germany.

Germany had stalled the launch of the ambitious energy project for months before putting it on the back burner in the wake of Russia’s military operation in Ukraine, which is now in its eighth month.

#8 The prime minister of Denmark [also believes](#) that this was a deliberate act of sabotage...

Danish Prime Minister Mette Frederiksen has said her government believes the leaks were caused by ‘deliberate actions’, adding that the gas supply pipeline will be out of action for around a week.

She said this evening: ‘It is now the clear assessment by authorities that these are deliberate actions. It was not an accident. There is no information yet to indicate who may be behind this action.’

#9 The Ukrainians [are blaming the Russians](#) for the explosions... It comes after Kyiv’s presidential advisor Mikhaylo Podolyak said on Twitter: ‘The large-scale gas leak is nothing more than a

terrorist attack planned by Russia and an act of aggression towards the EU.'

Podolyak accused Russia of seeking to 'destabilise the economic situation in Europe and cause pre-winter panic'.

#10 It is [being reported](#) that the CIA recently warned Germany about a potential attack on the pipelines...

[German magazine Spiegel](#) said the US Central Intelligence Agency (CIA) recently warned Berlin about the increasing signs of a possible planned attack on the Nord Stream pipeline system. Spiegel reported, citing unnamed sources, that the CIA tipped off Berlin in the summer about possible attacks on NS1 and NS2.

#11 A Polish member of the European Parliament seems [absolutely convinced](#) that the United States was behind the attack...

A [former Polish Defense Minister](#), Radek Sikorski, has attributed to the United States the sabotage of two pipelines, Nord Stream 1 and 2, which carry natural gas from Russia to Germany. "Thank you, USA," Sikorski [wrote](#) on Twitter. Sikorski was Minister of National Defense from 2005 – 2007 and served as Deputy Minister of National Defense and Deputy Minister of Foreign Affairs, previously. He is currently an elected member of the European parliament.

Nord Stream 1 and 2 lie on the bed of the Baltic Sea. Nord Stream 2 was finished last year but Germany never opened it because Russia invaded Ukraine on February 24.

#12 Joe Biden previously threatened to "end" the Nord Stream 2 pipeline [if Russia invaded Ukraine](#): *"If Russia invades...then there will be no longer a Nord Stream 2. We will bring an end to it."*

#13 Victoria Nuland has also [previously threatened](#) the Nord Stream 2 pipeline: *"If Russia invades Ukraine, one way or another, Nord Stream 2 will not move forward."*

#14 Meanwhile, European officials just gathered for a ceremony [“to mark the opening of the new Baltic Pipe”](#)...

Leaders from Poland, Norway and Denmark have attended a ceremony to mark the opening of the new Baltic Pipe, a key stage in the drive to wean Poland and Europe off Russian gas. The pipeline will transport natural gas from the Norwegian shelf via Denmark and through the Baltic Sea to Poland. It is the centrepiece of a Polish strategy to diversify away from Russia that began years before Moscow’s February invasion of Ukraine triggered a global energy crisis.

The flows from Norway along with supplies via liquefied gas terminals are central to Poland’s plan. The country was cut off from Russian gas supplies in April, allegedly for refusing to pay in roubles.

#15 Germany’s [Tagesspiegel reports](#) that German security authorities assume that the three tubes of the Baltic Sea pipeline Nord Stream 1 and 2 will be forever unusable after alleged acts of sabotage.

If they are not repaired quickly, a lot of salt water will run in and corrode the pipelines, the Tagesspiegel learned from government circles.

So what does all of this mean?

I don’t know.

But this certainly is not going to be good for the rapidly growing energy crisis in Europe.

It is going to be a bitterly cold winter all over the continent, and there will be a lot of anger.

As I keep warning, the comfortable lifestyles that we are all currently enjoying [will soon be rudely interrupted](#).

Everything is changing, and a lot of pain is on the horizon.

So I would encourage you to monitor global events very, very closely in the months ahead, because they are going to have very serious implications for every man, woman and child on the entire planet. Wednesday, Sep 28, 2022 - 05:10 AM

America wins as there is no longer competition for it's liquid

Ursula must understand that destruction of the Nord Stream pipelines would not have been the work of Russia because it brings money to Russia. The only entity which OPPOSED Nord Stream 1 & 2 was the US. So the suspicion roundly falls on the US. If Ukraine is involved, we do not know. Ukraine is a corrupt and terror country. What West Germany is going to do about it. The US wants to sell its gas to Europe. And this is the main reason this may have been attacked and disabled.

freehuman1

There are a handful of extremist anti-Russia nations: Ukraine obviously, but also Poland, Estonia, Latvia, Lithuania, the US and the UK. The US and UK, out of cold blooded calculations. The Baltic nations are unlikely to carry out such a mission for lack of appropriate means. Ukraine has persistently called for it which means it, also, does not have the capabilities needed to do it itself. Same applies to Poland. We are left with the US and the UK. The US has been against NS2 for the longest time and has,

indeed, threatened to destroy it on a couple of occasions. The US also stands to profit the most. Ukraine and Poland believe that with NS1 and NS2 gone, the EU will have to get its gas via the Ukrainian pipeline which will enable Ukraine to have control over the flow of gas, threatening both the EU and Russia. Russia has no incentive to destroy its own pipeline. It can simply turn the tap off. The idea that Russia would do this as a false flag operation is essentially ridiculous, because, whatever the facts, Russia will be blamed.

Nasiruddin

Obviously, the west did that act of terrorist... Africa, south America, middle east or Asia don't have any incentive to blow up NS2. Russia should stop sending gas to Europe until the west pay for the lost gas and the repair of NS2. In the mean time, since there is no more international law to prevent theses kind of terrorist attack on another country, it would be fair to sink any ships from the west. The united states will not stop their aggression on other countries until there is nuclear war world wide. What a shame...

Petri Sherman

The sad thing about this is that even though Biden is perfectly clear about knocking out the pipeline you would be hard-pressed to find an American who would believe that he said it- even after watching the video. That is the depth of the lobotomy that Western mainstream media has achieved. What is even sadder is that the UN will, as a whole, also not believe it. The UN is a spineless jellyfish that fantasizes itself a killer whale.

JamesBomb Joe had to blow up the pipelines, before the election.

action in Ukraine if an agreement to avoid war could not be reached, and that is precisely what happened. And now the Russians are repeatedly threatening us with nuclear war. In fact, Dmitry Medvedev just warned that if the U.S. does not back down our “land will be on fire and the concrete will melt”... If the West continues its “unrestrained pumping of the Kiev regime with the most dangerous types of weapons,” Russia’s military campaign will move to the next level, where “visible boundaries and potential predictability of actions by the parties to the conflict” will be erased and the conflict will take on a life of its own, as wars always do, Medvedev argued. “And then the Western nations will not be able to sit in their clean homes, laughing at how they carefully weaken Russia by proxy. Everything will be on fire around them. Their people will harvest their grief in full. The land will be on fire and the concrete will melt,” Medvedev wrote, before citing a Bible verse from Revelations 9:18.

ZEROHEDGE [A List Of 33 Things We Know About The Coming Food Shortages](https://www.zerohedge.com/geopolitical/list-33-things-we-know-about-coming-food-shortages) <https://www.zerohedge.com/geopolitical/list-33-things-we-know-about-coming-food-shortages> *This is not a drill...* Things are far worse than you are being told. Over the past few months, I have been carefully documenting facts that show that global food production is going to be way down in 2022.

Unfortunately, most people out there don't seem to understand that the food that isn't being grown in 2022 won't be on our store shelves in 2023...

The following is a list of 33 things we know about the coming food shortages...

#1 The hard red winter wheat crop in the United States this year [“was the smallest since 1963”](#). But in 1963, there were only 182 million people living in this nation. Today, our population has grown to 329 million.

#2 It is [being projected](#) that the rice harvest in California will be “half what it would be in a normal year”.

#3 The U.S. tomato harvest will come in at just [10.5 million tons](#) in 2022. That is over a million tons lower than a normal year.

#4 This will be the worst U.S. corn harvest [in at least a decade](#).

#5 Year-to-date shipments of carrots in the United States are down [45 percent](#).

#6 Year-to-date shipments of sweet corn in the United States are down [20 percent](#).

#7 Year-to-date shipments of sweet potatoes in the United States are down [13 percent](#).

#8 Year-to-date shipments of celery in the United States are down [11 percent](#).

#9 Total peach production in the U.S. is down [15 percent](#) from last year.

#10 Almost three-fourths of all U.S. farmers say that this year's drought [is hurting their harvests](#).

#11 Thanks to the endless drought, the total number of cattle in Oregon is down [41 percent](#).

#12 Thanks to the endless drought, the total number of cattle in New Mexico is down [43 percent](#).

#13 Thanks to the endless drought, the total number of cattle in Texas is down [50 percent](#).

#14 One beef producer in Oklahoma is now predicting that ground beef ["could eventually top \\$50 per pound"](#).

#15 At least 40 percent of the United States has been suffering from drought conditions for [101 consecutive weeks](#).

#16 Overall, this is the worst multi-year megadrought in the United States [in 1,200 years](#).

#17 Europe is currently experiencing the worst drought that it has seen [in 500 years](#). In some parts of central Europe, river levels have fallen so low that "hunger stones" are being revealed for the first time in centuries.

#18 Corn production for the entire EU could be down by as much as one-fifth in 2022.

#19 We are being warned that there will be crop losses in France of up to 35 percent.

#20 It is being projected that crop losses in some areas of the UK could be as high as 50 percent.

#21 It is being reported that there will be crop losses “of up to 50 percent” in some parts of Germany.

#22 Some farmers in Italy have already lost “up to 80% of their harvest”.

#23 Agricultural production in Somalia will be down about 80 percent this year.

#24 In eastern Africa, the endless drought has already resulted in the deaths of at least seven million animals.

#25 In China, they are facing the worst drought that they have ever experienced in recorded history.

#26 India normally accounts for 40 percent of the global rice trade, but we are being warned that production in that country will be way down in 2022 due to “considerable rainfall deficits in key rice producing states”.

#27 A third of the entire nation of Pakistan was under water after recent floods absolutely devastated that nation, and agricultural areas were hit particularly hard. As a result, the vast majority of the crops in the country have been “washed away”...

It has also been estimated that roughly 65 per cent of the country’s food basket — particularly crops like rice, cotton, wheat and onion — have been washed away.

Pakistan Foreign Minister Bilawal Bhutto-Zardari, in an interview to CGTN earlier this week, offered an even starker outlook by saying that “about 80 to 90 per cent” of the country’s crops have been damaged by the floods.

#28 The prices of some fertilizers have tripled since 2021, while the prices of some other fertilizers have actually quadrupled.

#29 One payment company is reporting that the number of Americans using their app to take out short-term loans for groceries has risen [by 95 percent](#).

#30 Demand at U.S. food banks is now [even worse](#) than it was during the height of the COVID pandemic.

#31 The World Health Organization is telling us that [millions of people in Africa](#) are now potentially facing a very real possibility of starving to death.

#32 According to the World Food Program, [828 million people](#) around the world go to bed hungry each night. Needless to say, that number will soon be much higher.

#33 UN Secretary General António Guterres has publicly stated that he believes that it is likely that there will be [“multiple famines”](#) in 2023.

As global food supplies get tighter and tighter, so will the risk of civil unrest. In fact, this [has already been happening](#)...The risk of civil unrest has surged this year in more than half of the world's countries, signaling a coming period of heightened global instability fueled by inflation, war, and shortages of essentials, a new analysis says...

The Russian Federal Security Service has claimed that the assassination of Dugina was committed by a covert operative of Ukraine... According to the FSB's investigation, Vovk entered Russia in July before situating herself in the same apartment building that Dugina resided in. Vovk would then follow Dugina to the festival in which the explosive device that led to her death was planted. Vovk, who was accompanied by her 12-year old daughter, fled to Estonia following the assassination, according to Russian intelligence. Following her identification, Russian law enforcement agencies declared their intent to seek her extradition.

HISTORY [Here are notable past Taiwan Headlines](https://www.zerohedge.com/geopolitical/here-are-all-latest-taiwan-headlines)
<https://www.zerohedge.com/geopolitical/here-are-all-latest-taiwan-headlines> ...news in the extremely fluid Taiwan theater of pre-war.

SOME POSTED REACTIONS TO PELOSI TAIWAN VISIT:

the ho is in taiwan china bluffed....

Don't allow that hag to interfere with your sovereignty.

These western bastards MUST be put in their place.

Let her land, then arrest her. That should wipe the smirk off of the Democrats, and Republican's faces.

Neocons are mad dogs

I'm sure they booked her a room with a broom closet.

Pelosi looks like a witch from hades. Set a couple dozen drones against her plane path and see if they collide. If successful call it

a good day.

American gangsters do not stop their bullying, they must be stopped at all costs.

Hope the old wrinkle gets it. One says that wisdom grows with age but there seem to be exceptions. Mainly in the USA.

USA would very much like to start another proxy war without any risk for their people and military.

But will the Taiwanese prove foolish enough to sacrifice themselves by doing a favour to the puppet master?

Will she be handing out cookies?

I hope that China blows her plane out the sky.

really wish china follows through with shooting down this thing's plane

She looks like Vomit

Who said Medusah was a fantasy, one look at Pelosi and you will be vaporized or wish you had !

this is just being done by a power hungry very old senile hag, saying Look at Me!

Yes, I'll go with Pelosi is grandstanding to draw attention away from her personal corruption scandal.

Crazy , corrupt Nancy is not worth a war in any way, shape, or form . This is insane!

This isn't going to end well...

Sizing up Taiwan

Many analysts believe that despite the huge discrepancy between the two sides, Taiwan's geography, terrain and US support mean China would find a full-scale invasion of the island extremely hard going and costly

"..Sadly, it is likely that a recession is already here. The U.S. economy contracted during the first quarter of 2022, and the Atlanta Fed's GDPNow model is currently projecting -1.2 percent growth for the second quarter. Two quarters of negative growth

in a row would mean that we are officially in a recession at this moment. But many experts are warning that much worse is ahead, and we continue to get more evidence of this with each passing day..”

[Escobar: Russia & China Haven't Even Started To Ratchet Up The Pain Dial](https://www.zerohedge.com/geopolitical/escobar-russia-china-havent-even-started-zto-ratchet-pain-dial) <https://www.zerohedge.com/geopolitical/escobar-russia-china-havent-even-started-zto-ratchet-pain-dial>

The “You Ain’t Seen Nothin’ Yet” part was at least formulated to be understood even by simpletons:

“Today we hear that they want to defeat us on the battlefield, well, what can I say, let them try. We have heard many times that the West wants to fight us to the last Ukrainian – this is a tragedy for the Ukrainian people. But it looks like it’s all coming to this. But everyone should know that, by and large, we haven’t really started anything yet.”

Fact. On Operation Z, Russia is using a fraction of its military potential, resources and state of the art weapons.

Then we come to the most probable path ahead in the war theater:

“We do not refuse peace negotiations, but those who refuse should know that the longer it drags, the more difficult it will be for them to negotiate with us.”

As in the pain dial will be ratcheted up, slowly but surely, on all fronts.

YTD daily avg for shares traded across all US equity exchanges sits @ 12.5b. Monday was also the lightest notional trading session of the year w/ \$392b trading vs ytd daily avg of \$638b. Our desk was a 3 on 1 – 10 scale in terms of overall activity levels. I am personally taken aback by how resilient mkt has been over the past few weeks. Some say Ukraine can not be Nazi because a Jew is in charge but me say A 28-year-old New York man who is Grand Dragon of the Ku Klux Klan in charge of New York State, former national secretary of the American Nazi Party, and at one time or another a member of at least four Fascist groups advocating extreme racism against Jews and Negroes, was revealed by the New York Times to be a Jew himself. The man is Daniel Burros. And if you folks knew how the U.S. Intelligence really operates, y'all would understand how it is absolutely a fact that Ukraine is a Nazi State.

LEADER OF K.K.K. AND AMERICAN NAZI PARTY REVEALED TO BE A JEW <https://www.jta.org/archive/leader-of-k-k-k-and-american-nazi-party-revealed-to-be-a-jew>

A 28-year-old New York man who is Grand Dragon of the Ku Klux Klan in charge of New York State, former national secretary of the American Nazi Party, and at one time or another a member of at least four Fascist groups advocating extreme racism against Jews and Negroes, was revealed by the New York Times today to be a Jew himself.

The man is Daniel Burros, among whose other activities is that of publisher of a paper called “The Free American,” which calls itself “the battle organ of racial Fascism.” The paper has referred to Hitler as the “sacred leader,” asserting that “the work begun by the Master will continue to a victorious conclusion.”

The New York Times disclosed that Burros’ parents, George Burros, now 71, and the former Esther Sunshine, now 62, were married by a cantor in The Bronx in 1936. The boy, Daniel, was a “star pupil” at the Congregation Talmud Torah, in the borough of Queens, where he became bar mitzvah in the congregation’s synagogue. After study at the John Adams High School, where he was an honor pupil with a high I.Q, he served two years in the

army as a paratrooper. He had tried to enroll in the U.S. Military Academy at West Point but was not admitted.

Among the Fascist groups to which Daniel Burros has belonged at one time or another, in addition to the KKK and the American Nazi Party, have been, the Times reported, the National Renaissance Party and the British National Party. The newspaper stated that he carries now a card identifying him as a “special agent of the Invisible Empire” of the Klan. He was reported to have been arrested and convicted four times for extremist activities in Washington and in New York.

The Times quoted Burros as saying to a reporter who questioned Burros about his Jewish background, as saying: “If you publish this, I’ll come and get you, and I’ll kill you. I don’t care what happens, I’ll be ruined. This is all I’ve got to live for.”

This goes back to George Kennan and, in the 1990s, Reagan's ambassador Jack Matlock, including the current director of the CIA; in fact, just everybody who knows anything has been warning Washington that it is reckless and provocative to ignore Russia's very clear and explicit red lines. That goes way before (Vladimir) Putin, it has nothing to do with him; (Mikhail) Gorbachev, all said the same thing. Ukraine and Georgia cannot join NATO, this is the geostrategic heartland of Russia."*

"Though various US administrations acknowledged and, to some extent, respected the Russian red lines, the Bill Clinton Administration did not. According to Chomsky, "George H. W. Bush ... made an explicit promise to Gorbachev that NATO would not expand beyond East Germany, perfectly explicit. You can look up the documents. It's very clear. Bush lived up to it. But when Clinton came along, he started violating it"

The matchbox-sized exhibit (pictured) was originally given to Dutch prime minister Willem Drees in 1969 by then-US ambassador William Middendorf as a souvenir of the Apollo 11 moon landing. The Rijksmuseum in Amsterdam received the rock upon Drees's death in 1988.

Shame on me. I believed this fraud for most of my life and I should have known better in 1969.

Other than Kodak film (and Hasselblad cameras) that could not function at lunar temperatures (not to mention the radiation or outgassing in a vacuum)

or the total lack of any blast crater

or the lack of rockets on lift-off from the moon

or the sounds heard while on the "lunar" surface

or the laser-ranging which started in 1962

or the waving flags

or the improbable "pressure [space] suits"

or the violations of Newton's 2nd law

or the ridiculously inadequate guidance systems

or the relatively poor special effects (not even CGI)

or the lack of telemetry

or the lack of radiation protection

or the utter quiet of a 140+ decibel engine

or the ludicrous lack of computer power

or the "moon rocks" from....well, petrified wood?

or the "astronauts" dangling from wires

or the Lunar Rover which looks like a Mattel model

....but they did make a full-scale model for 60 million bucks

or the billions in additional funds for "Paperclip"

or the total lack of stars or photos of the sky

or the very suspicious look to the front-screen filming

or the clues in "Eyes Wide Shut" and elsewhere (etc.)

or the incredible effort by NASA and JTRIG to shut down discussion of the fraud, and mock those who would expose it....

or (for bonus points) the lack of an airlock on the LEM

Other than that, maybe we really went? The TV told me so.

from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no

several months later to U.S. Attorney Sam Alito.[3] After no contact for

several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located.

Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New

Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989.'

WELCOME TO AMERICA AMERICA'S MAGICAL THINKING

Elizabeth Cronise McLaughlin "...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."

***The rub: 'Aristotle in book 5 of his Politics distinguishes**

between democracy and ochlocracy, which latter essentially means rule by those incapable of ruling even themselves.'

A PIECE of moon rock given to an overseas politician by the United States is actually a lump of petrified wood, museum authorities revealed yesterday. The matchbox-sized exhibit (pictured) was originally given to Dutch prime minister Willem Drees in 1969 by then-US ambassador William Middendorf as a souvenir of the Apollo 11 moon landing. The Rijksmuseum in Amsterdam received the rock upon Drees's death in 1988.

"It's a ... pretty-much-worthless stone," said Frank Beunk, a geologist involved in the investigation.

Some say Ukraine can not be Nazi because a Jew is in charge but me say A 28-year-old New York man who is Grand Dragon of the Ku Klux Klan in charge of New York State, former national secretary of the American Nazi Party, and at one time or another a member of at least four Fascist groups advocating extreme racism against Jews and Negroes, was revealed by the New York

Times to be a Jew himself. The man is Daniel Burros. And if you folks knew how the U.S. Intelligence really operates, y'all would understand how it is absolutely a fact that Ukraine is a Nazi State.

LEADER OF K.K.K. AND AMERICAN NAZI PARTY REVEALED TO BE A JEW <https://www.jta.org/archive/leader-of-k-k-k-and-american-nazi-party-revealed-to-be-a-jew>

A 28-year-old New York man who is Grand Dragon of the Ku Klux Klan in charge of New York State, former national secretary of the American Nazi Party, and at one time or another a member of at least four Fascist groups advocating extreme racism against Jews and Negroes, was revealed by the New York Times today to be a Jew himself.

The man is Daniel Burros, among whose other activities is that of publisher of a paper called "The Free American," which calls itself "the battle organ of racial Fascism." The paper has referred to Hitler as the "sacred leader," asserting that "the work begun by the Master will continue to a victorious conclusion."

The New York Times disclosed that Burros' parents, George Burros, now 71, and the former Esther Sunshine, now 62, were married by a cantor in The Bronx in 1936. The boy, Daniel, was a "star pupil" at the Congregation Talmud Torah, in the borough of Queens, where he became bar mitzvah in the congregation's synagogue. After study at the John Adams High School, where he was an honor pupil with a high I.Q, he served two years in the army as a paratrooper. He had tried to enroll in the U.S. Military Academy at West Point but was not admitted.

Among the Fascist groups to which Daniel Burros has belonged at one time or another, in addition to the KKK and the American Nazi Party, have been, the Times reported, the National Renaissance Party and the British National Party. The newspaper

stated that he carries now a card identifying him as a “special agent of the Invisible Empire” of the Klan. He was reported to have been arrested and convicted four times for extremist activities in Washington and in New York.

The Times quoted Burros as saying to a reporter who questioned Burros about his Jewish background, as saying: “If you publish this, I’ll come and get you, and I’ll kill you. I don’t care what happens, I’ll be ruined. This is all I’ve got to live for.”

TRUTH BE TOLD: I’m an equal opportunity racist; viz., I deplore all races equally, based upon close observation and experience. americans lead the leagues of deplorables; truly, an evolutionary disaster.

That goes way before (Vladimir) Putin, it has nothing to do with him; (Mikhail) Gorbachev, all said the same thing. Ukraine and Georgia cannot join NATO, this is the geostrategic heartland of Russia."***

Shoplifting has essentially become a national pastime, open air drug markets operate freely right under the noses of indifferent authorities, and addicts pull down their pants and take a dump whenever and wherever they feel like doing so. Thanks to record levels of illegal immigration, gang membership is absolutely exploding, and human trafficking has reached truly frightening levels. CIA man's 'tell-all' book reveals more about internal agency incompetence than Russian malfeasance
<https://www.rt.com/russia/556825-cia-fourth-man-soviet/> 13 Jun, 2022 [True, of course. There's no denying, without exception, american corruption, incompetence throughout all agencies, branches of government; literally bringing the nation down from within.]

CIA man's 'tell-all' book reveals more about internal agency incompetence than Russian malfeasance

“...The “fourth man,” Baer claims, was *“more senior and better placed than [Aldrich Ames],”* someone who spied for “the game” and not money, and who was never caught, let alone charged, with spying – the “Holy Grail” of American counterintelligence *“who knew how to play the game to win.”* I remain unconvinced. I look at the CIA’s abysmal track record in post-Soviet Russia, and I see an agency trapped by mediocrity and a lack of imagination, a Russia Department staffed by second-tier players (the first team was off fighting terrorists) and guided by erstwhile post-Soviet Russian “experts” who comprehended the rise of Vladimir Putin even less than they understood post-Soviet Russia as a whole, and who were more than willing to allow the fiction of the “fourth man” to be promulgated in order to absolve them of their utter incompetence.”

WELCOME TO AMERICA

AMERICA'S MAGICAL THINKING [Elizabeth Cronise McLaughlin](#)

"...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that

America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?..."

***The rub: 'Aristotle in book 5 of his Politics distinguishes between democracy and ochlocracy, which latter essentially means rule by those incapable of ruling even themselves.'**
