

INTO THE LIGHT

JOURNEY HOME

By David Michaels

Into the Light
By David Michaels

Thank You for purchasing this book. These words were given to me by God, his angels, and my spirit guides during a near death experience where I was brought to Heaven and given a guided tour. There are many reasons why I believe God wanted me to write it down. Among the greatest are to show people that when we leave here, we continue on in the next life and we are more alive there than we ever were here on Earth. Life does continue. I promise you.

I will answer many of the questions you may have concerning Heaven, such as dying, judgement and the greatest of all commandments, love others as you should be loving yourself (paraphrased). Also, why did my loved one have to die? You will learn why you no longer need to fear death. Does it hurt to die? Did

Into the Light
By David Michaels

my loved one suffer? Do my pets go to Heaven? What happens to children when they pass and why would God allow an innocent child to die. By the time you finish reading this book you will gain an entirely new outlook on life and you will look forward to the day you graduate this school of life and return home where many relatives and friends patiently await your arrival and your graduation party. My hopes for this God given information are that you will realize that you don't need to fear death. And that there is continued life after we complete this one. Death is not painful. There is no suffering. At the precise second that God chooses, you leave your present body before pain occurs. Of course, you will see the physical body showing signs of devastating suffering, but by the time that occurs, your soul will already be in Heaven. I know this is difficult to wrap around a human mind, however before we are born, before we are even conceived, we are spirit in Heaven. And

each spirit has choices for their own evolution. The possibilities are endless. And just One of the many choices are that in order to speed your evolution up just a bit, you can choose for example to enter life for a very short period of time and then return to Heaven right away. There are many lessons that can be learned by everyone involved. Anyone who has had a miscarriage or any circumstance that has involved a passing of any kind will meet their child when they go home.

Into the Light
By David Michaels

FORWARD:

.

I have been so blessed beyond compare by God and his angels for allowing me to visit Heaven and to clearly experience all that goes with it. The journey that I was to take was as seemingly real as it gets. I could use all my senses while I was in Heaven. I saw with my own eyes what Heaven was like. I felt the warmth of the golden sun, and the feeling of loving hugs from my relatives and friends on the other side, the tears rolling down my face as I returned to my true home. I smelled for the first time ever, the incredible aroma of the most beautiful and most vividly colored flowers that I have ever smelled. I heard angels gently singing in the background as I greeted

my angels and spirit guides and family and friends, and I loved listening to a multitude of beautifully orchestrated birds of all distinct colors. I tasted the fruits that were growing there just waiting to be picked and devoured. I had a knowing that this was no dream, but that I was truly in Heaven. I was truly back home. It felt so incredible.....

There truly are no words in English or any other language that could ever even come close to this feeling. This was in no way a feeling of judgement, or of punishment or of anything negative. This was a feeling of non-judgmental, and unconditional Godly love born from a place of unending grace.

My life was probably not much different than anyone else my age. I came here with my family, two brothers, two sisters and me. We were sort of like the partridge family. We would all sit around the living room playing old country western songs. Each one of us played a different instrument. When I was ten years old my Dad showed me three different keys. The key of C, the key of G, and the key of F. My dad played strictly by ear and he was very good. My mom played the drums. My oldest sister played the piano

and the accordion. Next came my oldest brother. He played anything with strings and played it well. Then my next older brother played saxophone. Then my sister sang from time to time. Last was me. I played most stringed instruments and keyboards and some singing. We all played by ear back then. There are some interesting stories concerning my Dad's past. Before Jonny Cash my Dad played in a country bar where June Carter /Cash sang. He eventually asked her out on a date, but it never happened. Now days there doesn't seem to be any need for those who play by ear. For years I played and sang gospel music with a group called living waters and I just loved it. Then one Sunday I was up front tuning up my bass just before the worship service started and a young gentleman came up to me and told me he was going to be they're bass player from now on. I began telling him he was mistaken. Then the worship service person came up to me about two minutes before the service would begin and he told me the same thing. Music was and still is my life but that day when I left I never went back again. I was beyond devastation. One day we decided we wanted to begin going again. So, after we went for a while I decided to try out for the music

Into the Light
By David Michaels

ministry team. One of four. I went to the try out and played a couple of songs for him. He started getting all upset and began yelling at me and saying, "you play by ear. You can't play by ear for a music ministry team. You would never be able to keep up. Come back in six months and we'll see how you're doing then". I don't blame God for those kinds of people. God loves them and so do I.

Back to my family, most of the time we all got along and then occasionally we made up for lost time. We moved around a lot, so we didn't have friends. We were sort of in and out of church most of the time. I didn't even realize it at first, but we had our share of spiritual and sometimes just plain old miraculous events happen.

The first thing that comes to mind and that rated high on my weird @\$%#-o-meter was when my dad needed to find water lines or water veins in the ground, he would either use wire hangers shaped like an ell, or a y shaped branch. Any y shaped branch

Into the Light
By David Michaels

would do but he preferred a certain type of wood. He needed work and he loved helping others. I first learned about this at one of our family get togethers. People came up to my dad and thanked him for saving them thousands of dollars. The water table is very deep there, at least one thousand feet down. It was very sandy there and to drill a water well for that depth was very expensive.

Another time was after we moved to Washington State and I was having more than my share of medical issues at the time. The doctors could not find the problem let alone the cure. We had been to everyone we could think of and nothing worked. Then one day my mom and dad told me they had found a new doctor. They wanted me to get all dressed up and go to see him. Now this wasn't you're traditional doctor. As we got out of the car, we noticed that it was in an old house with steps that lead up to a huge porch. It

Into the Light
By David Michaels

came complete with a swing on the porch. One of the things that became at once clear was the fact that this doctor was very popular.

There was no such thing as walking room only. It was way beyond crowded. You couldn't find a place to stand let alone to sit. From the porch, all the way out into the yard there were people all waiting to be seen. The doctor was a kind gentle old soul and he and his wife had way more work than was conceivably possible. We were there well into the night.

When we finally reached the door and stepped inside, the lady of the house told all those people waiting outside that they would need to come back another day. By this time, I'm getting very nervous. The people waiting just became less and less until finally, it was our turn. I didn't know what to expect. It seemed

like an eternity but finally the Dr. Came into the room. He seemed like a very nice person. He had an extremely different last name

Into the Light

By David Michaels

that I won't even try to say or spell now. He asked my mom and dad what I was there to see him for. My parents explained to him what was happening with me. I won't go into detail however they did tell the Dr. That this was my last resort.

The Dr. spoke to my parents for a while. Then the Dr. asked me to lay down on a bed. At first, he seemed to be praying. As he prayed, he began waving his hands over me about 6 inches above my body. He told me I was going to begin feeling a warm sensation in my body. He said that is OK. Eventually he began touching very gently the part of my body I was having trouble with. That area of my body just kept getting warmer and warmer. Now, all my fear

left me. Before I knew it, he was done. He told us to go home and wait and see. He said sometimes it takes a little while for the

Into the Light

By David Michaels

healing to work. Let me take this opportunity to add a special note which will also draw attention from well-meaning souls out there. The goal of a healer is not to heal anything or anyone. All healers hear me closely now. It is our job to aid the sick in realizing that they have the power to heal themselves.

We have all been made healers. Now please allow me to explain a little deeper if I may. Some of the things that I learned while I was in heaven are that the very lesson we are to learn concerning healing in general is that we are all creations of God

made in his image and given gifts that are meant to enhance our lives and in doing so will enhance the lives of those we meet.

Into the Light

By David Michaels

Whatever we wish to give others the universe will give to us. Try it out and see what happens.

At a very deep level within you and indeed many souls that are on the earth now, there lies a root feeling that you don't deserve to be healed or that you have too low of a value of yourself. Many of these people Have received a healing at some given point in their life but refuse to let go of their negative feeling toward themselves and in that way, have chosen to keep the pain. That having been said, there are many situations that would change the outcome of a healing. Each person no matter the age has chosen to live long enough to carry out a goal that have agreed upon with God and his angels and their spirit guides.

Now I can already feel the pain I have just caused many parents who have lost a young child from any number of causes. Unfortunately, I can't possibly say that I know how you feel. I can only tell you what I know for an absolute certainty, and that is that

Into the Light

By David Michaels

they are not gone. They are just in a different place. From where they are they can see you, hear you, feel what you are feeling, and watch what you are doing. They want all their loved ones to know that they are doing fine, they are happy, and they are totally alive. Angels and relatives greeted them there and helped them to understand where they were at. For the next few days my parents and I were very excited to see what would happen. After about a week no changes had happened, and we were beginning to become discouraged and then one morning I woke up and I realized I no longer had the problem that I had before I went to the Dr. We were all shocked. We were unable to answer how or why this happened. At least for now. Many years later I now totally

understand what happened. When I look back over many years, I realize that God has been in control the entire time.

Into the Light

By David Michaels

Now I have seen how He has carried me through the rough parts of life. Also, I recognize all the hurdles he helped me to get over and learn from. I recognize the times when he not only gave me strength and courage, but also actually carried me when I could no longer carry myself. God isn't interested in our failures, only our successes. He does not see the things we weren't able to carry out, only the things we did carry out and he only see's us in our fullest potential. There are those who, although they mean well, want to use fear to help push us toward salvation. God is Love. Fear is the opposite of Love. You cannot have love and fear in the same box.

After having said that I need to say that there is such a thing as Godly fear, meaning fear that helps teach you to reach down deep inside yourself and grab yourself by the boot straps and pull as hard as you can, or another word find strength inside yourself to do things you never thought you could. Trust me you will know the

Into the Light

By David Michaels

difference. God's son Jesus, died on the cross for each one of us so that we would all have eternal life. God wants us to focus on the good things about Life, Love, and happiness.

INTO THE LIGHT

JOURNEY HOME

CHAPTER 1.

A New Awakening

I believe that things happen for a reason. I also believe that different ways of thinking happen at just the right time in each of our lives so that we can have an awakening, so that we can serve our purpose for the most good for us and for those around us. I believe that you, at whatever stage in life you are at right now were supposed to pick up this book to embark on a new journey. If you are searching for something more in life that you haven't found yet, then perhaps this book will be what you are looking for. I believe

that something drew you to this book to help you with your new journey of awareness. This book can change your life if only you believe. I'm not asking you to believe in me. I'm asking you to believe in yourself and to believe in an all loving creator and the life he had in mind for you to live. Now before I go any further, I want

Into the Light

By David Michaels

to take a moment to explain a couple of things to you. Many people who know me or have known me will Tell you that My life has been anything but a prime example of what a Christian should be. Quite frankly, it's been just the opposite. And none of which I am proud of. However, after having been to heaven and immediately feeling the warmth and the overwhelming love that literally makes you melt, the feeling full of grace and forgiveness as his holy angels wrap their beautiful wings around you and hold you as God and his son Jesus Christ reaffirm how very much they love you and the angels sing in the background, it doesn't matter where you've

been, it doesn't matter what you've done, it doesn't matter who you are, Jesus is always calling". The feeling of safety, the sense of accomplishment for making it through another lifetime, the words, "it is finished" filling every part of your spiritual being. I most

Into the Light

By David Michaels

definitely can assure you that I am going to heaven without any doubt and my friend so are you.

Why would God use a person of such low stature to share any message that he may have for the world you ask? I asked the same question not long ago. My answer was slow in coming, mostly because I didn't think I wanted to hear the answer. Mostly because I wasn't ready to hear the answer. The answer was as truly devastating as I had feared. It was the last thing I wanted to hear. It was one of those answers that shook me to my very core. The

answer came to me via angels' wings. The answer was simple, straight forward, to the point. One of God's sweet loving angels came to me during one of my lowest moments. She wrapped her beautiful large wings so gently and so softly and so lovingly around me and as she allowed the white light of God to totally immerse my being, she whispered to me and said," My sweet child of God, your

Into the Light

By David Michaels

heavenly father loves you more than you may ever know, and he will strengthen you during your weakest moments and you will have the strength to carry on and to complete the purpose that he has sent you here to accomplish until he has said," it is finished," The angel continued and said," there is nothing you can do now, in the past or in the future that will change God's love for you.

There will be some who don't agree with me about anything I have written. That is OK. I'm not trying to convert

anyone. Not now, not ever. The information that I share in these pages can be used in accord with any religion or belief system or no religion at all. God is not concerned with who's belief system is the correct one Sorry folks. There are no such titles in heaven. Let those who are ready to hear, hear, and let those not ready to hear learn to develop a more opened mind toward Heaven and earth and all that God the creator has for us all to learn. There truly are no

Into the Light

By David Michaels

words in English or any other language that could ever even come close to this feeling. This was in no way a feeling of judgement, or of punishment or of anything negative. This was a feeling of non-judgmental, and unconditional and entirely overwhelming grace filled Godly love. Most of the time we all got along and then occasionally we made up for lost time. We moved around a lot, so we didn't have friends. We were sort of in and out of church most of the time. I didn't even realize it at first, but we had our share of

spiritual and sometimes just plain old miraculous events happen.

The first thing that comes to mind and that rated high on my weird

@\$%#-o-meter was when my dad needed to find water lines or

water veins in the ground, he would either use wire hangers

shaped like an ell, or a y shaped branch. Any y shaped

branch would do but he preferred a certain type of wood. He

needed work and he loved helping others. I first learned about this

Into the Light

By David Michaels

a young child from any number of causes. Unfortunately, I can't possibly say that I know how you feel. I can only tell you what I know for an absolute certainty, and that is that they are not gone. They are just in a different place. From where they are they can see you, hear you, feel what you are feeling, and watch what you are doing. They want all their loved ones to know that they are doing fine, they are happy, and they are totally alive. Angels and relatives greeted them there and helped them to understand where they were at.

For the next few days my parents and I were very excited to see what would happen. After about a week no changes had happened, and we were beginning to become discouraged and then one morning I woke up and I realized I no longer had the problem that I had before I went to the Dr. We were all shocked.

Into the Light

By David Michaels

We were unable to answer how or why this happened. At least for now. Many years later I now totally understand what

happened. When I look back over many years, I realize that God has been in control the entire time.

Now I have seen how He has carried me through the rough parts of life. Also, I recognize all the hurdles he helped me to get over and learn from. I recognize the times when he not only gave me strength and courage, but also actually carried me when I could no longer carry myself. God isn't interested in our failures, only our successes. He does not see the things we weren't able to carry out, only the things we did carry out and he only see's us in our fullest potential. Yes, I just repeated myself, especially on the things that are very important.

The main reoccurring theme repeated so often throughout the bible and other written documents is LOVE. Losing a loved one is unquestionably and unequivocally one of, if not the toughest

Into the Light

By David Michaels

thing we will have to go through while here on the earth. And yet God has made a way for us to continue. At least one of the things she has given us to use and to bring true healing to your heart is by finding someone who has the gift of healing by the holy spirit. Now before I say this next sentence, please allow me to explain. There is a lot of controversy about a great many things concerning those matters in the Bible that no one understands or can agree upon. Things that don't make sense end up in the, "this is directly from Satan", folder. Please use an opened mind and heart and at least allow me the benefit of the doubt. I didn't just fall off of the devil's turnip truck. I have spent decades studying and researching literally thousands of accounts of this phenomena and have seen hours of videos of the same and have experienced firsthand several sessions for myself and have come away from every one of them with a new

Into the Light

By David Michaels

sense of fulfilment and spirit of having just met with God himself. Each time everything was at peace and a holiness that can only come from God flooding my soul to the very depth of its existence leaving me feeling and sensing a deep cleaning and healing that permeates down to the very deepest parts of my being healing everything as far back as my soul can possibly remember. The phenomena I refer to has a name that automatically brings visions of devils and demons filling the darkest corners of my mind and soul. There is another name for the same phenomena that actually is very spiritual in nature and that gives inspiration directly from God himself.

Although there are a huge percentage who are fake and are simply using this way of duping people out of their hard-earned money, there are some people who have spent hours of training for a very

Into the Light

By David Michaels

long time for the opportunity to do one thing only. And that is to talk to your relatives who have crossed over to get information that only you and your relatives would know. In this way, you will be given an opportunity to either believe and accept the gift God has just given you, or you can continue the way you are and constantly be miserable. The names I refer to are Mediums and prophets. Remember, God is Love. His second commandment is to love one another as we love ourselves. When we consider why God, or the creator would be willing to give up his own son to save a place for each of us in eternity, how can we possibly doubt his love for us. We cannot give away what we don't have to give. If we don't love ourselves, it is not possible to love others. The best starting point to his journey is to work hard on learning to love yourself. Your quantity and quality of anything you give to yourself will be the same measure you give to others.

Into the Light

By David Michaels

Now I know that I'm going to get E-mails and letters and that I will step on many toes. The job I was given was one of significant importance and God chose to use me to deliver it. I take that job very seriously. Although my past has shown otherwise, I will not let my father down. Not one more time ever. While I have used the names God or creator, he goes by many names, but is the one and same God. He is not a God of violence or any form of killing. When evil is present anywhere in the world in any form, we need only to shine light on what is being done and it will shrivel up and die. There are many ways to shine the light on evil in this time. One of them is to use media and help the media to get the truth out into the public. Despite what some text says, our God is not a jealous God. I will cover these subjects a little deeper later in the book I will try to tell you everything that happened without leaving anything out.

INTO THE LIGHT

JOURNEY HOME

CHAPTER TWO

BEGINNING OF THE END

Two years ago, in 2012, I was having surgery and it was supposed to be a normal routine surgery. The surgery took longer than it was supposed to. After a long recovery, I was sent home. While I was recovering at home, I began to feel sick... I could not walk normally, and I was very dizzy. I felt very weak. When I tried to walk, I felt as though the house was going around and around.

After a couple of days of feeling like this, I realized I needed to go to the Doctor. My oldest daughter took me to the Doctor Right away.

By the time I reached the doctor's office, I was nearly out of it. The nurse came in to take my vitals, and she couldn't find any.

Into the Light

By David Michaels

She thought maybe it was her stethoscope. She went to get another stethoscope, and it did not work either. She called in the Doctor to check on me. He could not find any vital signs either. He at once had his nurse call 911. During the time while he was working on me, I began to lose consciousness. The next thing I knew, I was floating up by the ceiling and I could see everyone down below including myself. As I watched from above, there were several doctors and nurses working on me. Finally, the ambulance arrived. EMT's began working on me right away. By this time the rest of the information came from my oldest daughter. I was all the way out now. The EMT's tore off all my clothes. Then they put paddles on my chest. Then they put a very long needle in my neck and strapped me down to the gurney.

Then they put me in the ambulance and rushed me to the hospital. It was during this time that I was taken to heaven. Once

Into the Light

By David Michaels

we got to the hospital, they took me to the emergency room where they began emergency procedures on me. They found out that I had a double pulmonary embolism which is double clots in the lungs. They at once put me on what's called a super clot buster. Then the waiting game to see what was going to happen to me. They told my daughter to get ahold of my family and have them come in right away because they didn't think I was going to make it. According to the doctors, I was teetering on life and death for several days. At one point, I overheard doctors just outside my opened door say that they didn't think I was going to make it through the night.

All night long doctors and nurses and even the hospital Chaplain which was a woman came in and out to see me. This was interesting because when I was feeling better, I asked the nurse to thank the lady that came in to pray for me that first night while I

Into the Light

By David Michaels

was out of it. The nurse looked confused and said that all their Chaplin's were men. I couldn't get any sleep because they kept taking blood samples from me. Every two hours they would take blood samples. I would just start to doze off and they would wake me up. This went on for several days. Finally, they began to say I was improving. My family and I were thankful to God for my improvement. I was in my early 50's and I wasn't ready to die yet. During the time that I spent in the hospital, I had time to grow closer to God and that's what I did. This was after my near-death experience. I had learned a lot about God and life from my NDE, (near death experience). It all happened so quickly. I was gone for twenty minutes before they got me back to stay. No one seems to know what was happening during that time, but apparently, I was kept alive somehow. I was not so much taught as I just knew things that I didn't know before. That's the way it works in heaven. There

Into the Light

By David Michaels

are very few words spoken. You are given information and suddenly you just know it. As I left my body, the angels surrounded me and took me to heaven. As we literally flew along I looked down toward my feet and there were none. The angels could see my concerns and without even moving their mouths they said it's all right, just trust us. Soon below us I could see a beautiful big clearing filled with flowers. They brought me to a beautiful long tunnel. The tunnel was filled with beautiful lights.

As the lights shown, I could see that beautiful roses surrounded the lights. At the beginning of the tunnel, the roses started with the color red. As the angels led me through the tunnel, I entered each color in the tunnel, I could feel the colors and what they felt like as I passed through them. After red, then was orange. Again, with each color there was a certain feeling for it. After orange, then came yellow. After yellow, then came green.

Into the Light

By David Michaels

After green, then came blue. After blue, then came purple. After purple, then came the color white. Each of these colors gave off a different feeling. As I went through the tunnel, I realized that the tunnel was transparent. I could see angels flying around on the outside of the tunnel. As I came to the end of the tunnel, I suddenly saw all my relatives and friends who have crossed over to the other side. This is a good place for a brief note of interest. As I began the study of God and interest in Heaven, I realized that many of the accounts of heaven were not the same. At first, I thought that this meant that they were not true. Instead the situation was quite the opposite. There can be as many different versions of heaven as there are people on the Earth. Upon entering heaven, each individual soul will find surroundings very like what they were used to while on Earth.

Back to my own interpretation, I saw a huge celebration underway. It was then that I realized that it was for me. They had

Into the Light

By David Michaels

all come together to celebrate my homecoming. This is a common occurrence whenever anyone crosses over. There is always a huge celebration. You get to see all souls who have crossed over before you that you were friends with or that were family. It is a very joyous occasion. You will also finally get to meet your spirit guides who have helped you from birth until present and all your guardian angels, of whom there are many. The love and happy emotions and pure joy is very overwhelming. It was during this celebration that I was witness to one of the most astounding occurrence's I had ever seen. We, meaning my family and other relatives, were visiting when all of a sudden there was a choir singing the most beautiful music I had ever heard. As the singing continued, everyone I could see in all different directions took a knee and bowed their heads. Then a very bright light appeared, and a fog or cloud formed and

Into the Light

By David Michaels

came slowly down out of the sky. Oh, and yes even in heaven there is a sky. As the cloud neared us you could see it take shape and the shape that it became was Jesus. When he began to speak, the singing stopped and there was a short quiet moment. Then Jesus said to us all, "The Lord your God has seen the work you all have done with those on other planets and wishes to encourage you. When it is finished, your just rewards will be given you. Your God is the alpha, and the omega, the beginning, and the end. He sees and here's your prayers and he will give that which you seek. May the Lord your God bless you and all your family for continuing the work he has begun. And then he went back to the sky where he had come from.

INTO THE LIGHT

JOURNEY HOME

CHAPTER THREE

LIFE REVIEW

As soon as I finished celebrating with everyone, the angels came back to continue my journey through Heaven. The first place they took me was to the hall of life review. All of Heaven is situated almost exactly as Earth. The topography is basically the same with a few exceptions. The hall of life review is a beautiful ornate building that is entirely made of marble with huge marble columns in front. As they led me up the steps into this incredible building, they explained to me what was about to happen. They led me down a long wide hallway and brought me to a room. Inside was a red velvet lined room with a large screen at one end of the room. It looked just like one of our flat screened TV's, only it was in 3D. They

Into the Light

By David Michaels

then led me to a large very comfortable chair and asked me to sit down. Everything was done completely with love and even a light heartedness about it.

They began by telling me that everyone must go through what is called a life review. This would be what is meant in the bible where it says God will judge you. This is where we start at an early age on screen and replay our entire life before our very eyes. This is where the expression began, “my life passed right before my eyes”. We look at every time in our life where we have hurt someone in any way or upset someone by making them mad or provoking them. We feel any pain we have caused any one and we are shown ways we could have done things in a unique way. This is all done in complete love and compassion. There is no condemnation whatsoever. It is totally a learning exercise. They allowed me to

Into the Light

By David Michaels

only see a small part of my total life review because they wanted to save the whole review for my final crossing over. I could see enough to realize that I have not done the best that I could do in this life. I also have seen how much it can help change your life to try to become a better person in this life and it's never too late to change. It's also never too late to say I'm sorry and can you forgive me? This was very good news for me because I have spent three quarters of my life not being the best that I can be.

As we left the hall of life review, I could talk to the angels and to thank them for the love and compassion that they showed me during the life review. As a side interest, the angels didn't talk to me with their mouths, rather, they used what we call mental telepathy to converse.

INTO THE LIGHT

JOURNEY HOME

CHAPTER FOUR

THE GREAT HALL OF WISDOM

They then led me out of the hall of life review and then a short distance down the street to another beautiful building built with marble once again, but infused with real diamonds. It was breath taking.

This building was the hall of wisdom. They told me as we moved along that this was the hall where all the records for each of the souls in all the universe were kept. As we reached the building steps, they began to tell me that they would show me what is called the Akashic records, the total records of all our lifetimes ever

Into the Light
By David Michaels

lived for each soul. We have all lived several lifetimes on this and other planets in other galaxies. We pick the Earth to live on the most because it has the densest atmosphere of all the planets and that denseness helps us to struggle more and thus to learn faster. We entered the hall of wisdom and the first thing that caught my eye was a span of several warehouses larger than anything we would ever have here on Earth and many, many stories high and even then, the angels said that these were all very condensed versions of the millions of people on Earth as well as other planets, galaxies, and planes and dimensions. They agreed to show me a very small but very important part of my records. They showed me the part that has my purpose this time around in life and my struggles this lifetime that I need to work on. This is very helpful to me. They told of many souls that have even had

Into the Light
By David Michaels

hundreds of lifetimes. The thought of reincarnation has suddenly made me have a knowingness that this is true. I feel like I have a very old soul and have lived many lifetimes.

Then they took me to a very special place called the Garden of Eden. This, as some of you may remember, is the place of the beginning of man's time on Earth. It is in a pristine condition complete with wild animals that are no longer wild and fruit trees that are still virgin fruit trees. All forms of plants and animals from before the flood. Beautiful gardens with the most incredible flowers. It is a sight to see and a welcome treat for the nose.

CHAPTER FIVE

THE TRUTH WILL SET YOU FREE

Into the Light

By David Michaels

I was then brought back to the celebration that was still going on in my honor where I met up with my Dad and was then able to sit and talk with him. We did not have the best relationship in life, but now it all seems so different. My dad explained to me that although he overplayed his role here on Earth, he and I entered a contract together before I was even conceived, even before he was conceived, that he would be tough on me so that I

Into the Light
By David Michaels

might grow even more than normal. In a way, it's like he was helping me to get bonus points for living an extra tough life. I know this all seems very strange, but it is quite true. His dad also made the same contract with him as his life was even far tougher than mine was. He apologized for making my life so very tough and said that it was very difficult for him to complete his part of the bargain as he loved me very much. We cried together and thanked each other for the roles we played in each other's lives. And so, it goes with each of us. This however is not always the case. Sometimes people are just plain mean and there is no contract. It is in these cases that there is a lot of healing that needs to take place.

Then my Dad and a few other family members went with me to Dad's house and we entered the most beautiful log cabin that I have ever seen. It was decorated with everything woodsy and country and it was truly magnificent. As we sat down to talk some

Into the Light
By David Michaels

more, my dad explained to me that we can create in Heaven virtually anything that we want to create just by creating it in our mind. We just think it and it is created just the way we want it to be complete with furnishings and all. There is nothing that we cannot create. There are cars in Heaven although they are not necessary because we can think where we want to be, and we will be there. Also, unbelievably, we can fly just like the angels do.

My dad really enjoyed working in the woods cutting down trees and making firewood, so he enjoyed cutting firewood in his spare time, so this is what he did most of the time.

INTO THE LIGHT

JOURNEY HOME

CHAPTER SIX

PARADISE REALLY IS PARADISE

Into the Light

By David Michaels

The weather in Heaven is a constant 73 to 80 degrees all the time. You may read different ideas on this concept; however, it is important to remember that you can create your reality in

Into the Light
By David Michaels

Heaven anytime you want. The 73 degrees is just a default weather forecast. You can essentially be in your log cabin one minute and the very next you can be on the beach. It's that simple. As I have said earlier, we create whatever we want in Heaven by simply creating it first in our mind. Anything. Also, you can decide with the help of your guardian angels and spirit guides whether you want to go into another life or not for more rapid growth. Of all the other inhabitable planets, and P.S. there are several, Earth has the densest atmosphere which means things including our bodies seem much heavier than they really are. Our bodies, our movements, our breathing, even our emotions all are affected. Did you ever notice how hard it is to breathe sometimes? Have you ever wondered why we get so tired sometimes? It's all because of our very dense atmosphere and when we are sent here to learn, and to change what needs changing, and to grow in our spiritual life as well as our

Into the Light
By David Michaels

physical life, it is much more likely that we will change and grow much faster than ignore all our lessons and barely progress. We are given the choice if we want to stay at home in heaven or if we want to go through another life. Heaven is such a light atmosphere and therefore a little harder to learn. Either way is acceptable. Your spirit guides can help you decide if you have a strong possibility of making it through another lifetime or not. They know how tough it is to make it through a lifetime as they have also had an Earth lifetime and can totally understand what you will be up against. You can still move up in your evolution without living another lifetime even while you are in Heaven. It just takes longer to learn anything because you are living in a much denser and at the same time more perfect environment.

INTO THE LIGHT

JOURNEY HOME

CHAPTER SEVEN

ANGELIC HELPERS

Into the Light
By David Michaels

The Angels have never lived a lifetime on Earth or anywhere else, but they are still very much evolved, and they can be very useful whenever you need help with anything on your journey. There are many distinct types of angels that specialize in many different areas and they are just patiently waiting for each of us to begin to use them in all our everyday lives. They are more than ready to do anything from helping us find our keys, or make the stop lights work in our favor, to healing us from cancer, or healing our souls from pain and afflictions. All they long to do is to be a consistent part of our lives. The only thing they ask for in return is an occasional thank you. It is good to know the different angels for you to call upon for certain needs in your life, but it is not necessary. All you need to do is call, "Angels please help", and they will send the correct Angel for whatever your need is. Also, the

Angels asked me to remind you that when you are out in public,
you never know

Into the Light

By David Michaels

when someone you see or pass by or get angry at may very well be
an Angel in disguise for they often come to Earth to aid us in
remembering to always treat others as you would have them treat
you.

When my wife and I were first married, we had a very bad
snow storm and we were at blizzard conditions with zero visibility.
We were trying to get to my in-laws which in normal conditions was
a mere ten minutes away. Our mobile home power had gone off
and our pipes were all freezing rapidly. As we were driving through
the storm at about ten miles per hour, we suddenly drove straight
into a four-foot-deep snow drift. Our car was a small compact

Into the Light

By David Michaels

Subaru hatchback. We could not budge the car even a little bit. We were stuck. We were dressed in warm snow suits with scarfs and gloves. We knew that we were within about one hundred yards of a house that belonged to friends of ours that went to our church. They had a farm there and we were hoping that we could make it there to see if they could help us out. As we got out of the car and began slowly making our way through the deep snow, we realized that we could not see three feet in front of our faces even with scarfs on and, we could not breath because the temperature was extremely low and very cold. We barely made it through the four-foot drift just to the other side when we realized that we could go no further. We were exhausted. We held each other fearing that

we were going to die. Suddenly out of nowhere a small pickup truck shows up right at our feet. A man jumped out and came to us. He

Into the Light

By David Michaels

was covered from head to toe in Carhart coveralls and a mask that covered all but his eyes. He motioned for us to come get in the truck. After we got in the truck, I asked him his name so that we could show our appreciation and he totally ignored me. He asked where we wanted him to take us and we told him about the friend's house close by. He took us there and dropped us off. I tried one more time to get his name and even offered him money, but he just stared straight ahead and ignored me. It was years later before I discovered that he was an Angel sent from God. Also, the Bible says take care as you might be entertaining angels unawares. You never know who your talking to or helping. That homeless person may be an angel. As my Dad and I continued to talk, I learned a lot more about Heaven that I never knew before. Since we all communicate in Heaven through mental telepathy, there is no language barrier, for thought is a waveform and is understood

Into the Light

By David Michaels

by all souls. Thus, it is possible to communicate with all life forms and beings. Another thing that is controversial for us in this life is people who are gay. God does not have a problem with this for the simple reason that these souls chose to be different to help us all learn to be tolerant in this life. Being tolerant doesn't mean being for or against something. It means allowing love to overrule opinion, or feelings of hate, and fear of losing something. Most of us in this generation are so intolerant of anything out of the status quo that we are ready to take anyone's life that tries to be different.

Also for centuries people have fought and died and committed atrocities in the name of a certain religion or a certain God in the hopes of proving who is right about their God and who is

wrong. People please listen to the words of the one and only God who goes by many different names but in whom is all the same God. There is only one God and he goes by many different names, but it is all the same God. God is perfectly OK with that. He does not care

Into the Light

By David Michaels

what title you give him. Stop fighting and killing in the name of God when there is no need to take any life for any reason save one. No greater love hath no man but that he lay down his own life for his brother. Always try to remember, there are no religions in Heaven. We will all go to the same place.

Please allow me to also discuss suicides. Taking of your own life is never the answer no matter how hard your problems are. The angels have told me that, although there are some exceptions, people who choose to take their own life are often sent right back into the womb to start their life all over again, going through the same things they had to go through the first time, albeit with

different parents and families. The common exception would be where there is a mental illness or there is a drug related problem that preceded the suicide.

Please also understand that God does not condone war or the taking of another life under any circumstances again unless it is

Into the Light

By David Michaels

to save lives in the process. We as humans, all need to learn how to co-exist, treating each other as we want to be treated, and live and let live. Loose the idea of gaining power by overtaking other lands and learn that God has all the power. Don't you think if God was jealous and wanted to get rid of any country of people that believed in a different God, he couldn't do it without you? Learn to let God be our supplier of all things so that we lack nothing and so that we don't need to turn to any other country for our needs.

INTO THE LIGHT

JOURNEY HOME

CHAPTER EIGHT

THE DOWN LOW ON THE DOWNLOAD

The Angels then led me back to the tunnel where it all began and told me I would have to go back to Earth and complete my journey there. I was not happy about this. They told me that I had to go back and tell the rest of the world what I had seen and learned. They also told me that sometime after I got back there would be what we would call a download of information that would complete the information that I needed to tell the world. They said that I would have a deep-felt awareness about the information at a time when I was ready for it. It has been roughly five years since my near-death experience and I have finally gotten my information

from God and the angels. How do you know I'm not just making this?

Into the Light

By David Michaels

stuff up? Good question! All I can tell you is that I'm a musician and I'm living a quiet comfortable life in retirement. I'm not an author and have never wanted to be. You see, there really is no conceivable reason for me to write this stuff. I don't need the money. I don't spell or write well, and my grammar, well read it and see for yourself I'm being obedient to God The Father. If you don't agree with me or what you are reading, Hit your knee's and complain to him. And if you're still a skeptic as I was, then find out for yourself. Ask God to give you the ability to accept the truth and to show you the truth no matter how implausible it may seem. Start spending time learning to meditate in the proper way and once you have excelled at it, begin talking directly to God himself

and to his angels and to your spirit guides and listen to what they tell you with that still small voice. They will tell you that they have

Into the Light

By David Michaels

been waiting for a long time for you to begin talking to them and then listening to what they must tell you. Now I will begin telling you my downloaded information. This information is on many different subjects including subjects in Heaven and subjects on Earth The process of crossing over is painless. As a soul begins the process of crossing over, it goes through a preordained process of passing. The soul that is passing has full control of their actual passing. They will decide when they are ready to leave the body if it coincides with their agreed upon contract with God. Therefore, some souls leave life at an early age. It is a contract that they agreed upon with God. You can be sure that there was a purpose for why they chose to leave this life so early and it probably had something to do with the growth of everyone involved in their lives

at the time. They usually choose not to leave until the last possible moment unless their contract with God includes a sudden death

Into the Light

By David Michaels

whether it be from natural causes or from some type of accident or such. Although they have a little control of the actual time of passing, they are still bound by the contract that they came up with and agreed to with God as to their actual time of passing. They will pass at the very time they have agreed to. Although many times it seems to us as if they are in much pain and agony toward the end, and I know that this doesn't feel right to you as you watch them in their last hours of life, this time already goes their soul. The only time that they still stay in their body is when they are concerned for their family members and how the family members will do when they are gone. This is when someone must step forward, or often all must step forward and audibly tell them that it is OK to go, and

that they will be just fine. But the actual timing is all directed by
God himself so that

INTO THE LIGHT

JOURNEY HOME

CHAPTER NINE

HEY, WE'RE RIGHT HERE, WE'RE ALIVE, WE'RE OK

Once souls have crossed over, they begin to do everything
that they can to get your attention. They are trying to tell you that
they are still alive and that they are OK, and they want to be able to

talk to you. They will do anything to get your attention. They like to play with electrical objects by turning them on and off. Sometimes they will make sounds like knocking on doors or footsteps in the

Into the Light

By David Michaels

hallway, etc. We used to have a Dachshund that we loved very deeply. When he grew old and we had to put him to sleep, it affected all of us very much. Several years later as we were sitting in our living room, we all clearly heard a squeaky toy squeaking not two feet from my recliner right behind it. We now had no dogs at all. We got up and looked behind the chair but there was nothing there. The squeaking went on for quite some time. We knew it must be our dog wrinkles because he loved playing with his squeaky toy. Also, we had a printer that for no reason at all would turn on and then turn off repeatedly. We don't know who that was. It occurred for over a year. It also began occurring shortly after my Dad passed.

Crossing over is such an incredible loss for us and we tend to feel as though it is a terrible thing for the person who has passed on. How sad that their life on earth has ended. However, and

Into the Light
By David Michaels

please note that I am saying this with all the love and compassion that I can muster, people crossing over to the other side is their graduation. It means that they have completed their tasks on Earth and that they are now ready to go home. It doesn't matter if they are twelve or eighty-five. They have completed what they came here to do. They are finally going home to a huge celebration where they will see old friends from many of their lifetimes and where they will be able to catch up with them. They will no longer feel any pain or anxiety or money issues or sickness or disease or sadness or fear or heaviness.

We feel very saddened and we grieve for them, but grieving is for the living, not for those who have crossed over. And yes, I get how cold that sounds. They don't want us to feel sad. They want us to have a celebration of life for them. Not just a celebration of this life but also a celebration of their next life as well. We should be

Into the Light

By David Michaels

extremely glad for them as they have finally gone to their true home. I don't like to go to funerals for the simple reason that they are very somber, and everyone is trying so hard not to cry, and they are saddened for their own loss instead of being very happy for their loved one's gain. Most don't realize that their crossed over loved ones will always be right beside them no matter where they are and that they can talk to them anytime they want, and they will listen. I realize that this is something that will slowly change over an extended period. With a daily practice of meditation, quieting the mind so that you can hear spirit speaking to you, you can even hear

them talking to you. It takes much practice but is very much well worth it.

Once the spirit has crossed over to the other side, they gain several new gifts or abilities like where they are able to be in several places at the same time. This is very difficult for us to wrap

Into the Light

By David Michaels

our minds around as we cannot do anything remotely close to that. But it is true. That's why they can be with you and at the same time they can be with your mother and with your brothers and sisters all at the same time. They are also able to communicate with as many spirits as they want to all at the same time. I know this seems strange, but it is also true. Much the same way as God can be in several places all at the same time. They also can know when we need them or when we are suffering, and they come right away. Remember, they are now in spirit form. They don't have the boundaries and restrictions that we do. They can basically

multitask, where they are doing several things at the same time.

Such as chopping wood, like my Dad, and at the same time healing a heart of someone still on Earth.

INTO THE LIGHT

JOURNEY HOME

CHAPTER 10

FIFTH, SIXTH, AND SEVENTH DIMENSIONS.... OH MY

They are in a different dimension than we are.

Physically, Heaven is approximately three feet above the Earth, but

in a different dimension. It is in this dimension that they can do so many things at once. Different dimensions are another area that we have significant difficulty wrapping our minds around. There are several dimensions and they each have their own characteristics

Into the Light

By David Michaels

about them. I have not been given the information about them because now it is too much for our minds to handle.

UFO's are from another dimension than ours and they can cross dimensions freely. They travel at a speed on our planet that make it impossible to see them. We only see them when they want us to see them. This is when they slow down and or stop entirely. There are many books and documentaries that expound on UFO's and some of them say that aliens mean us harm and that they need to feed off our blood. According to what God has infused in me, this

is not true. Aliens are far more advanced than we are, and they do not need or want anything from us. Instead, they want to help us evolve in the best way that we can. They come from other dimensions and are very highly evolved

I knew that God took me on this journey for a reason. I knew that he wanted me to tell my story to all who would listen. I

Into the Light
By David Michaels

knew that he wanted people to know that there is no one religion on Earth that is right about God, rather bits and pieces from each religion that make up the whole righteousness. I know that steps on many toes but when you get to Heaven; no one cares what religion you are. There are no religions in Heaven. There is simply a world full of unconditional love and compassion. The Angels told me that all God is concerned about is that all religions lead to one God, the same God and that he goes by many names, God, Jehovah,

Yahweh, Allah. You will not hear, "What religion are you" in Heaven. You will only feel the love and compassion emanating from each being. Each person is full of humility and forgiveness. When they cross over, people leave behind all their opinions on religions as well as many other grounded thoughts on matters such as politics etc. I was told that things like religion and fear and so on are created by man, not God.

Into the Light

By David Michaels

I can only tell you what I saw and what I learned while I was there. I can only tell you of the unspeakable joy that I was left with after I worked through the negative feelings of having to leave Heaven. I will be back in Heaven, this I promise you. I will go back home and see all my friends and relatives and there will be a great party to celebrate my home coming. I am no longer afraid to die because I know where I am going. The changes in me are like the changes in other Near-Death Experiences. They are long lasting, life

changing, and all for the better. After my NDE, I am more intuitive and way more sensitive to spirit. I have no way to prove to you that what I say is true. All I can do is to ask you to have faith in what I saw and what I know to be true. I know what I saw and what I was shown. I know the changes made in me that are unchangeable and I know the inner joy that I feel, and I know that where I am going is much better than where I am now. I am so excited to go to heaven.

Into the Light

By David Michaels

If we are really in tune with the spirit, we can feel them hugging us and telling us that everything will be O.K. and that we will see them soon and that we will be with them again. Our loved ones want us to know that no matter how hopeless things seem, everything will work out for the best. To go to heaven is to live, and to still be on Earth is to die a slow death. We have so much to look forward to and the things we worry so much about now will seem so trivial one day. Money doesn't exist in heaven and there is no worry in

heaven. There is no death or dying in heaven. When someone dies on Earth, there is a great celebration in Heaven and since many thousands of people die each day, there are constant celebrations going on all the time. What a wonderful feeling to know that when we or someone we know dies, they will be greeted by a huge celebration much like our graduation parties for our high school graduates. I can't help but be happy for my loved ones who

Into the Light

By David Michaels

have crossed over. They have celebrated their final graduation and now are at home forever. How great is that. We should be extremely happy for them. That's not to say that we shouldn't grieve but grieving is for the living, not for the crossed over. Grieving is missing someone and fearing we will never see them again. I can tell you with greatest of confidence that you will see all your loved ones again. They will be young again and in perfect health and they will be most happy to see you. All who have

crossed over will be made whole in every way. When you are ready, you will see them in your dreams and talk with them and love them and they will love you. You will sometimes wake up in the middle of the night, usually around 2A.M. or 3A.M. and you will have tears of

Into the Light

By David Michaels

joy in your eyes. I don't always remember the visit, but I always remember the tears of joy and the light-hearted feeling with no fear and no worries. I don't know why it is always around 2A.M., or 3A.M. but it is. You will wake up around 2 or 3 in the morning and wonder why you woke up. It's either because God wants to talk to you, or because you either had, are having, or are going to have a visitation.

INTO THE LIGHT

JOURNEY HOME

CHAPTER 11

NOT MY EXPIRATION DATE YET

This was not the first time I had come close to death. In fact, there have been several times. In the year 2010, I had seizures that came unexpected. They were very severe and lasted the entire year. For the entire year I was out of work while doctors tried to

figure out what was going on. I had on the average three seizures per day. This was very hard on both my wife and me. My wife had to work with bills that weren't being paid all the while seeing me suffer and there was nothing she could do to help me. I was basically homeward bound due to the high frequency of seizures. These were full blown seizures. When I was in my doctor's waiting room suddenly, I began to have seizures in a room full of people. I

ended up having five seizures in a row with about two minutes between each one. All the people were standing over me staring at me and freaking out. The seizures were killing me, and they couldn't figure out what to do. They finally sent me to a specialist in a hospital in Seattle that specialized in seizures. They planned to keep me there for a whole week to see me and try to see what was happening. They had me in a room that was surrounded with cameras all around the perimeter of the ceiling. They had fifty wire leads glued to my scalp. They had a help button for me to push whenever I was going to have a seizure. When you have a seizure,

you have what's called a trigger. My trigger was that my right hand would start shaking.

They needed me there for a week so that I would hopefully have enough seizures so that they can compare them. They needed seven to ten seizures to get a good comparison. On my first night, I had seven seizures. They sent me home the next day. My official diagnosis was called a pseudo seizure. They are caused by a bad

Into the Light

By David Michaels

trauma from somewhere in your past. I had to go to my psychiatrist and try to work through it. I thank God that I was healed and haven't had a seizure since then. As you can see from the last example, God only allows things to happen to us for a reason. I could work through my past and I didn't even know that it was bothering me, but deep down inside it was.

I was also diagnosed with a brain tumor on my pituitary gland. They tell me not to worry because it is small and growing very slowly and it is benign. Once again God is with me keeping me safe despite illnesses and disease. As you can see, my journey here is not yet finished. When the time comes, and my journey is complete, I will be allowed to go home.

Into the Light

By David Michaels

I could write a whole chapter on things that could have caused me to pass over, but I think you get the point. Oh, wait, I just did. We're all here for a certain amount of time until our journey is over. The amount of time is different for each of us just as each of us has a different journey. As I sit here writing this book, I have Rheumatoid Arthritis in my hands. It is painful to write this book, but I know that it is part of my journey. Hopefully, there are

many people out there that will receive help from some part of this book.

These are good examples that cover medical and health issues that might have caused us to cross over. There are also circumstances where we decide to cause ourselves to cross over early. While it is important to have a good understanding of what may happen if we choose to cross over early, allow me to explain some possibilities that are also involved in God's plan. If you

Into the Light

By David Michaels

crossed over early due to mental issues, addictions, and bullying in any form, as well as physical abuse, mental and emotional abuse, and many other problems that were simply out of your control, I promise God has nothing but love and compassion for you.

However, if God feels that you had a choice and chose unwisely, He may choose to send you back to the womb to repeat life all over

again going through every challenge you had your last time in life. I don't know about you, but that is not going to happen to me ever.

Just think. When we cross over there will be no pain, no suffering. An area that we haven't covered yet are the helpers that god gives us while we are on Earth. Each of us has spirit guides. Some of us have more than one. Then there are Angels and we all have at least two of them. Angels and spirit guides can only help us if their help doesn't interfere with our journey. If it doesn't interfere with our journey, they can do anything up to and including

Into the Light

By David Michaels

saving our lives. There are many stories from people just like you and me who have experienced first-hand Angels in their midst

There are also many near-death experiences out there whose stories are like mine. There is something about coming close to death that changes a person's life forever. And we all have had a

glimpse of heaven making it more difficult to stay here on Earth and finish our journey. However, and I can't stress this enough, we need to love and embrace life here on Earth while we are here. We are to do nothing to try to send ourselves to Heaven early. We are to live out our journey no matter how long it takes and then go on to heaven knowing that we have done all we can to finish our journey.

INTO THE LIGHT

JOURNEY HOME

CHAPTER 12

NO EARLY BIRDS PLEASE

I would like to share a couple of personal stories with you that might possibly have meaning for you. My spiritual guide has asked me to include these stories to help someone who needs this help badly today so please forgive me if I have already told them, but please bear with me. Now if your feeling down about things in life and your considering finding the quickest exit out, this message is for you. Since your reading this book, I'm going to assume that

Into the Light

By David Michaels

this segment is for you. You can throw this book away right now or you can read on and maybe find a new way of looking at life.

Some years ago, when my wife bless her heart and I were struggling in our marriage and in life in general we couldn't seem to

get past a certain place and we just kept getting stuck in the mud, spinning our wheels and for an extended period this continued to the point that I knew I could not stand one more day of it. Finally, in desperation, I hooked up my truck to our fifth wheel travel trailer and headed for the nearest Koa. On the way, there I stopped to invite a good friend of mine, Jack Daniels. When I pulled into the Koa, I was told that they were full but that I could stay in the overflow area which was nothing more than an empty field with no hook ups. I went ahead and parked it and set it up and then I went inside and began making macaroni and cheese. While my food was cooking, I decided me, and Jack would get reacquainted. At some

Into the Light

By David Michaels

point, I turned all the stove knobs on full blast and had had enough and then apparently passed out on the floor. The next morning, I woke up and had the worst head ache I have ever had in my life. As

I came to over several minutes of setting there, I began to focus and what I saw totally blew my mind.

Every window was completely blown out. There was half eaten food laying all the way up and down the trailer. (Sorry for my R rated stuff). Then upon closer inspection, I realized the entire trailer including floors, walls, and everything else including me where soaked in vomit. Let me just add this little tidbit if I may. This go to that I always go to whenever certain parts of life get too real for me to handle, did not help me even one little bit. I also didn't have any clothes with me. Then I went outside and much to my dismay, there was tons of broken glass all the way around the trailer. I should have died right there and right then. I spent over an

Into the Light

By David Michaels

hour picking up most of the glass Then I set the trailer back up for travel and put her in B for boogie heading for home just as fast as I

could go. I knew there would be hell to pay, and frankly I deserved it.

When I arrived home I at once began operation repair and be humble. When I say humble, I don't just mean the normal everyday I'm sorry I forgot your birthday, or the next level, I'm sorry I forgot our anniversary. NO, no-no, I'm talking about bringing out the big guns for this one. I'm talking about the list. If you're a male married person, by now you have memorized THE list. Here is just a sample of the list.

Grovel, cry, bow down, no, no, no, I mean all the way down. Repeat after me," I'm so sorry honey, it will never happen again. I swear.. Repeat it twelve times or more if necessary. Next go do all the chores, no-no I'm mean all the chores. Hers and yours.

Into the Light

By David Michaels

Continue this for a week. By now she should be almost, but not quite, starting to think about forgiving you. Notice I didn't say she forgave you. Now, due to my huge transgression, I knew that this would take some time along with many bouquets of roses.

Let me see, where was I? Oh yes, I was trying to talk about leaving this life before our time. I'm trying to explain that if you just have a life or death experience and you don't cross over, then more often or not it was not your time to go. That is why I'm sharing the times and moments when I should not have survived but did. We have probably all had times just like this. Oh. OK. Well maybe not, just some of us.

I would like to talk about what happens when it is our time to go. First, allow me to explain the actual process measured in Nano second time. When it is close to your time, depending on

Into the Light

By David Michaels

what you are doing at the time, you will usually begin to feel something that may feel a little different, a new feeling like you have never felt before. The feeling becomes familiar like something you have felt before followed by the most incredible all-consuming feeling of love that is larger and greater than anything you have ever felt. You will have a feeling of being as light as a feather, and what's more you love this new feeling. There are many layers of love here including warmth, protection, freedom, absolutely no judgement of any kind. Forgiveness comes automatically.

God is love. The opposite of love is fear. Fear is not of God absolutely no matter what anyone might say. You cannot have love and fear at the same time. While its true that fear can be a motivator, the end results are not long lasting. There are much better motivators that have positive and long lasting results. If you have love for everyone no matter who or what

Into the Light
By David Michaels

they are, then you are working for the Lord. You are an ambassador of the lord. There is a huge gap between acceptance of someone's choices or lifestyle and just accepting them as a child of God. We are not given the power to judge anyone under any circumstances. The only way we have the right to judge anyone is if we are perfect. I don't know anything about you, but I do know I'm a long way from being perfect. So, do you think God doesn't know that you're a lot less than perfect? Of course, he does. He did after all create us. Who better to know than our creator? He knows now, and he knew years ago that we would need help allowing us the choice of going home. Don't you think that if he is all knowing, he would know that if he made going home too difficult, no one would be there? Of course, he does. That is why he planned for all of us to go home when the time comes.

INTO THE LIGHT

JOURNEY HOME

CHAPTER 13

SO, WHAT DO YOU DO ALL DAY IN HEAVEN?

Many people want to know what you do all the time in Heaven without getting bored. Do you just set around singing hymns, reading good books, going to the beach? Well, you do whatever you enjoyed doing while on Earth and much more without ever getting tired. It would take a much larger book to try to explain everything, but I think I can at least give you the jest of the situation. When my older sister passed at age fifty from cancer,

Into the Light

By David Michaels

she enjoyed working with small children. When I began meditating on a regular basis, soon, I was able to converse with those who had crossed over. During one of our conversations, I asked my sister what she did with all of her time there. She explained that she worked in kind of like a Heaven hospital where she cared for the newly arriving children in Heaven. Many of them didn't know where they were when they woke up. She helped them understand that they were now in Heaven and that they would live in this love filled environment forever more. Also, that their parents and brothers and sisters would soon join her in Heaven. What a critically important vocation and a rewarding one at that.

Working there is quite different than working here however. Here we choose our vocation because it is what we really enjoy doing and there is no one telling us to do it faster or work harder and also, we can change our occupation at any time that we want.

Into the Light

By David Michaels

On top of all of that, we never tire, we never feel pain from working too long or too hard, we never need to stop to eat or sleep. Vacation times are excellent because when we want to leave, we just leave. And while we are on that subject, you can literally be anywhere in the galaxy at a moment's notice. My wife and I have been married 34 years this year and have never, ever been anywhere because of our work schedules and then my medical bills. Now that we are totally aware of where we are going and what things will be like when we get there, we are both looking very forward to it. There is no limitation on what you can choose to do on the other side for your occupation. There are tons of different positions where you will find deep fulfilment using deep compassion and love for other souls who need to learn a vast amount of information once they are there.

Into the Light

By David Michaels

As I have said previously, there are universities with angelic professors teaching on many different subjects, far too many to be named here. The constant in flow of new souls arriving every second and all of them needing at least a little orientation at their arrival keeps many multitudes of souls busy for an eternity.

This brings me to another subject. There are many different situations that can cause us to cross over. For those of us that are left behind, a loved one's crossing over whether expected or unexpected can leave us grief stricken sometimes for weeks, sometimes for months and even sometimes for years. It can cause us to feel numb and paralyzed for a very long time.

I know that this may seem too unrealistic to be true, however, first of all, even though it feels totally the opposite, your loved ones at the time of passing did not suffer and felt no pain whatsoever. This is what I have been told by spirit. By the time their

Into the Light

By David Michaels

illness, or accident or whatever other cause has crossed them over, has happened, their spirit has long since left their body. This doesn't mean that you still won't feel them squeeze your hand, or look you in the eye one last time, or any other form of last goodbye. As I said earlier in the book, and it is worth mentioning again, Spirit will work hard to let you know that they're not dead. They are in another dimension and from there they can see you and hear you and feel what you are feeling, and even tell what you are thinking. They will try anything to get you to notice that they are still very much alive, even more so than they were when they were here on Earth. In our own home we have had just about every noise or smell or taste in our mouth, etc. that one can have. I have smelled my mother in law's perfume since her passing and my dad chewed Copenhagen chewing tobacco and frequently I can taste

Into the Light

By David Michaels

and smell that. So, why did I write this book? What is this great message that God has entrusted with me?

The overall number one thing that I was told and shown was this. There is no one thing that is more important than this. Learn to replace your own values of yourself with that of your creator. No matter what you have ever done or will ever do in your life, God's inconceivable love and phenomenal grace abounds for you even now as you read this. When Jesus appeared thru the clouds as I was touring Heaven, there was no need for announcements or anything. Everyone could just sense the overwhelming love that was in the air. The love was so strong that it caused everyone to kneel and bow their heads.

INTO THE LIGHT

JOURNEY HOME

CHAPTER 14

DO YOU WANT MORE OUT OF LIFE?

Although we don't give adequate consideration to such things, we can very easily prohibit our lives from experiencing everything from miracles to prosperity to love and fulfillment that God wants us to experience. We choose to believe for any one of several reasons that we are unworthy to receive anything from God.

I would like to ask you to participate in a little experiment that I believe can open your eyes to an entirely different experience than you are currently experiencing now. Several times per day for approximately a week, I would like for you to stop whatever you are doing. Take just a brief moment and clear your mind of all other thoughts. Now I would like you to repeat the following, "I am very valuable to God. I am very valuable to my friends and family. My life is very valuable, and I can receive anything anyone else receives from God because he places high value on me." Do this as often as you can until you begin to feel that it is true, and you are indeed very valuable. Now as you continually repeat these phrases and after some time you begin to feel a shift inside yourself deep down

Into the Light
By David Michaels

in your heart, I want you for at least the next week or two to begin to pay particular attention to all things going on around you. If you have participated and have tried to continue to repeat the phrases until you begin to feel a shift in your heart, until you finally begin to believe that maybe, just maybe it might be true, then I really want you to watch what happens next. You will begin to see miracles happen almost daily. The flood gates of Heaven will open wide and 125you will receive blessings like you never have before. Also, you will see God's hand in your life helping you with everything from giving you safety in times of need to assisting you in feeling much better about yourself to being blessed with prosperity and on and on.....

I want to share part of my story with you of this same event happening in my life. Now I have been an on again off again

Into the Light
By David Michaels

Christian nearly all of my life and one of the things I really want you to understand is this: God loves you no matter who you are, what you are, what you've done and how you choose to live. You cannot earn your way into or out of Heaven. You can't hold your mouth just right, or be rich enough or poor enough. You cannot barter or talk your way into Heaven. Please get this straight right now. You cannot sin so bad that you aren't allowed in Heaven. OK. Now this is where I lose most believers. I know for an absolute fact that even if you claim that you don't believe in God you will still go to Heaven. I will explain in more detail later in the book, but for now let me digress.

About two months ago, I had read a book that had this method explained just as I have explained it to you. It made me curious, so I decided to give it a try. We had been planning a camping trip to a local lake and campground with our oldest

Into the Light
By David Michaels

daughter and our granddaughter and our daughters' boyfriend. As the chosen week end neared, my wife had asked me to run to the grocery store and get the groceries for our trip. I headed to the nearest store about ten minutes away and as I drove I began saying the value phrases. I went into the store and picked up everything from our list. It took me a little over an hour which gave me plenty more time to repeat the phrases. By the time that I headed for the check out, I thought I was finally starting to feel a light feeling in my chest and was wondering if this was my sign that I was beginning to believe the message of the phrases. There were many check outs, approximately twelve. I found one that felt right even though it wasn't the shortest line. When it was my turn to put groceries on the conveyor belt, I was trying to hurry as there were lots of people behind me waiting not so patiently. Just when there were only a few items left to check out, the checker lady said oh". Now I would

Into the Light
By David Michaels

like to explain something right here to sort of set the mood. We were having a tough time financially because I was retired and disabled, and my wife was getting ready to retire after twenty plus years as a in home day care owner/operator. So, I looked at the checker and said, " what's the matter"? She looked at me and said, " the computer just went black". So, she got on the intercom and called for a manager. She got no reply, however, the line next to ours was where the assistant manager was working. She told him what happened. He came over right away and tried everything and nothing worked. Then he told her to move down to check stand one. So, the checker and some helpers helped pack all of my groceries and head down to check stand one. When we got there, the assistant manager came and pushed several buttons and

Into the Light
By David Michaels

then told her it would take a little while, but it would transfer all of the items from the other check stand here. As I watched the computer screen and the dollar amounts adding up, it only went to forty dollars and then stopped. Now one thing I should mention is that on the first check stand, the total was already up to \$179.00 when the screen went black. The checker lady looked at me and then said the most incredible thing I have ever heard. She said, “you know what? Just take the groceries and go. This isn’t your fault so just go. I’ll tell them I told you too. It’s alright.” I questioned her about it and she looked me in the eye and got the same look in her eyes that my wife gets when she means business. I thanked her and profusely headed for the door. Let me tell you right now that I really believe that we are supposed to unlearn some things from the past and relearn things like what our value is in God’s eyes.

Into the Light
By David Michaels

God wants us to never forget that. He also wants us to understand that he sees us at our fullest potential. His love goes far deeper and far beyond the love we have for ourselves. And that love does not change no matter what we have done.

I'm not suggesting that there are no consequences for the things we do. However, he waits patiently for us to come back home especially when we come back home with a repentant heart and ask him to forgive us for our sins. There are several stories that have happened since then that also bring out the same facts concerning how we are suppose feel about ourselves in God's eyes. But I think even just by this one story you can see that God wants us to value ourselves as highly as he does. God don't make junk. So, what value do you put on yourself? Use The masters measuring stick and let your new light shine.

Into the Light
By David Michaels

Once again, I remind you that all though all of our belief system, the Bible and every word in it, the experiences we have had are important, the main message that God told me to share is to learn to love others as our self, (another word love ourselves). We can't love others if we don't love ourselves. We can't give away what we don't have to give. I remember the feeling of deep emotional surrender followed by the sun-like warmth,

As I entered Heaven. It was automatic, I didn't need to try to show any emotion. I simply became over whelmed with Gods love as it flowed through me healing my earthly battle scars as it gently absorbed every single cell of my physical being. Then everything was silent. You could hear a pin drop. Every spirit there allowed the holy spirit to enter in and cause a beautiful heartfelt sensation of absolute total surrender. And as we all sat there with our eyes closed and silently giving praise to our Lord, there began the most

Into the Light
By David Michaels

beautiful love filled heart sent chorus of Heavenly praise and there was the brightest white light I had ever seen that filled every single soul and moved up word traveling with the angels.

Suddenly I knew that part of my soul's purpose was to share this feeling with everyone. I wanted to be able to explain or in some way express the overwhelming love pouring from God's heart directly into to any heart that thirsts for his water of life. When you feel his authentic genuine love filling you up, you immediately drop to your knees and bow down. You don't do these things because someone is forcing you. You do these things because Gods love is so real and so genuine that it melts your once hardened heart leaving a pure and refined diamond. Once you have become a pure diamond, it becomes easier to accept that you are a highly valued soul created by God.

Into the Light
By David Michaels

Now. Why, I'm sure you're asking me, would God allow someone who was a non-believer enter into Heaven? This subject is taboo to discuss amongst most Christians for the obvious reasons. There is no reason to allow a non-believer into Heaven because then there would be no reason to sacrifice your son in order to save all creation, right? Here's what I was told by the angels. Why would God need grace if he wasn't even going to use it? And also, at what point of the death experience would God decide when to not allow them to change their minds and their hearts and accept the gift of salvation? In the last seconds of my Dads passing, (I was not there but was told of his final moments and was told enough to know in my heart what he said). I have spoken to different spirits who are crossed over and several have told me that there is no time limit on your choice to change your beliefs. They also reminded me that no

Into the Light
By David Michaels

one here on Earth has any right to judge if someone was going to be saved or not.

I was visiting with a relative one day and I was explaining to him my new beliefs and my own understanding of different parts of the bible. He began to get upset at what I was saying and informed me that changing the Bible to say what you want it to say was an occult and continued to press the issue that I was endangering my own salvation by meddling with it. I continued the discussion by asking him if he realized that much of the bible was changed according to different powers that be and different religions of the times that disagreed with the current versions of the inspired word of God. He refused to calmly finish the discussion and then walked away mumbling. I hold no ill will toward him. Your truth is your truth. My truth is my truth. Each of us are here on a different journey and are here to learn different lessons.

Into the Light
By David Michaels

Where does this leave us? I believe based on my discussions with spirit that right up to the last Nano second God still gives a chance to make that decision. And furthermore, I believe that once we have crossed over to the other side, at any time after that we may still choose to improve our spiritual position so to speak. I also believe that Heaven is made up of, for a lack of a better word, levels and that when you cross over, you go to whatever your soul's progression is at that time. And I have been shown that although there is no Hell, there is a level that your soul may fit in until you choose to progress to a higher level. Try not to accept fear based teachings such as you will not go to Heaven unless you repent and ask for salvations from your sins. Now please understand what I am really saying.to you. I AM IN ONE HUNDRED PERCENT AGREEMENT

Into the Light
By David Michaels

WITH THE BIBLE AND CHRISTIAN BELIEFS. I do believe that God sent his son to die on the cross in order to pay for all man kinds sin. However, I also believe it was a payment for all sins, past, present and future. And I believe that if it wasn't for God's incredible grace, we would all end up in a lower level on the other side. The bible says for all man has sinned and come short of the glory of God. His love and grace is sufficient for me. This doesn't mean we should do whatever we want in life because we have a free get out of jail card. Love respect and forgiveness and gratitude come with a price. How could you say you love someone but you do everything they don't want you to do?

Again, the most important thing is to learn to love yourself and then to love others. It's ok if you don't believe any of this book. If all else fails, just please live a life of giving love and receiving love.

Into the Light
By David Michaels

One last thing I was shown for you is you are given all things in order to prosper and live a happy prosperous life. The only thing holding anyone back from receiving is their low value of themselves. They don't think they deserve anything. God wants you to hear him say, "you are my child. You are more valuable to me than you can ever imagine, and I love you for who you are. Allow me to rap you up in my arms and hold you close to me and experience firsthand the love emanating to you, encircling you, healing you and calming you. You will be blessed!

CONCLUSION:

My goal for this book is to share that there is definitely life after this life. It is to show you using my own examples that you have nothing to fear about death or judgement. It is to tell you not to take yourself or this life too seriously. There is not one single soul among you that God does not love more than anything. He is like a coach running along the sidelines of your life game yelling and cheering for you “ keep up the good work, you’re doing great. You can do it. I’m so

Into the Light
By David Michaels

proud of you. It's ok if you fall. Just get right back up, dust yourself off and keep on going".

It has not been written to you in any way to upset you or to challenge your own belief system. Listen, I knew a pastor who always used to say," just eat the meat and throw away the bones". And another who said," don't throw out the baby with the bath water". If there is anything here that might help you, then please use it. Remember my earlier words. Don't waist time arguing about the small things that we differ in. Find the things we can all agree upon. At the end of the day learn to love yourself as much as God does. Then learn to love others as much as god does. And finaly, do

**all you can to teach and practice what you've
learned. And..... I'll see you on the other side.**
