Our deepest fear is not  
that we are inadequate.

Our deepest fear is  
that we are powerful beyond measure.

It is our light,  
not our darkness that most frightens us.

We ask ourselves,  
'Who am I to be brilliant, gorgeous, talented, fabulous?'

Actually, who are you not to be?

You are a child of God.

Your playing small does not serve the world.  
There is nothing enlightened about shrinking  
so that other people won't feel insecure around you.

We are all meant to shine, as children do.

We were born to make manifest  
the glory of God that is within us.

It's not just in some of us;  
it's in everyone.

And as we let our own light shine,  
we unconsciously give other people permission to do the same.

As we are liberated from our own fear,  
our presence automatically liberates others.

Take up one idea.

Make that one idea your life -  
- think of it, dream of it,  
Live on that idea.

Let the brain, muscles, nerves,  
Every part of your body,  
Be full of that idea,  
And just leave  
Every other idea alone.

This is the way to success.

Here's to the crazy ones. The misfits. The rebels. The troublemakers. The round pegs in the square holes.

The ones who see things differently. They're not fond of rules. And they have no respect for the status quo. You can quote them, disagree with them, glorify or vilify them.

About the only thing you can't do is ignore them. Because they change things. They invent. They imagine. They heal. They explore. They create. They inspire. They push the human race forward.

Maybe they have to be crazy.

How else can you stare at an empty canvas and see a work of art? Or sit in silence and hear a song that's never been written? Or gaze at a red planet and see a laboratory on wheels?

We make tools for these kinds of people.

While some see them as the crazy ones, we see genius. Because the people who are crazy enough to think they can change the world, are the ones who do.

- Rob Siltanen
