

## **Whom (Which party and Which Candidate) should I Vote / not Vote?**

Elections change the parties in power but the condition of the common man remains the same ever since independence. Why is it so?

Our leaders learnt (from the British colonial rulers) the art of Dividing the people and ruling over them. In other words, Our native leaders have developed a colonial mind-set.

**Untrained minds are like Monkeys.**

**We are no different from monkeys**

Like the monkeys do, we do not let go of anything that we **catch**.

They catch anything given and won't let it go! You can read the story how the Monkey traders catch the monkeys without a mechanical trap and sell them to zoo parks in different countries.

Bottles with a narrow entry is loaded with some peanuts are left in the forests where the monkeys move about. The bottle entry is so narrow that when the monkey takes the peanuts in its hand will not be able to take its hand out of the bottle. The monkey will remain with the bottle for hours and traders catch them and export. The loose their **freedom**

and remain behind the Cages in Zoo Parks for its entire life.

Our people were given Caste, Religion and languages as a bait. Those who caught them are trapped. They are exploited by the Leaders.

Politics has nothing to do with religion. When people let go of what they caught, they will be freed from exploitation.

**I will not vote for a party:**

**1. which seeks my vote in the name of Caste, Religion, Language or ethnicity.**

(a) Politics - administering a nation - has nothing to do with Caste, Religion, Language or ethnicity. The actions of the Government should benefit one and all in the society.

(b) No other developed country discusses and debates on such divisions among its citizen.

(c) Dividing the people is a technique used by British in the societies they colonised. Divided people are made to fight within and the rulers can get away looting both warring group. Countries were divided (North Korea - South Korea, East Germany- West Germany) and exploited by richer nations.

I will not vote for a party who against other religion / caste / language, even if they were otherwise good.

**I will not vote for a party:**

**2. which talk about reservations on caste / religion / language / ethnicity.**

Promising reservation is criminally dishonest on the part of Leaders and it is Criminally foolish on the part of people who believe reservations will make every one in their caste / religion / region prosperous.

Reservations had meaning in young India. (a) There were very less

opportunity for education. There were many jobs and fewer people suitable for employment. (b) Several people who were Socially and Economically backward in the society remained so for several centuries. Reservations in education and employment in Government helped them join the mainstream.

Now there are several crores of Educated people remain unemployed. The number of jobs created annually are too few. How reservations could help? How to understand it?

Assume that the government gives a lottery ticket each to all the members of a particular Caste . Out of several Crores of citizen, one of them might get rupees One Crore in the draw, a few others get smaller amounts. For the majority of the Lottery ticket holders, it is just a piece of paper. The cunning and schemy leaders make the voters to believe that they have made the lives of people prosperous with reservations. Out of the thinking disabled voters some are very happy that their communities got reservations. The others become angry and unhappy they did not get reservations!

**I will not vote for a party:**

**3. That did not bring a strong LOKPAL (the anti corruption Ombudsman), with all the necessary infrastructure. Why ?**

Before the elections, political parties accuse each others of corruption. All are true. The fact can be Cross-checked in internet clicking CAG Website.

After elections, the ruling party demits office and all their sins are washed-off. The new ruling party indulges in corruption.

Very few cases of large scale corruption came to public attention. CBI and agencies launch investigations. After several years, no one is found corrupt!

Defense deals are huge government purchase. Invariably every political party is corrupt. They need huge money to splurge during elections.

Organise Rallies. Every participant to rally are paid some cash, food and liquor beside transport expenses.

Out of several hundred cases registered. may be one gets punished. That too after, say 20 years. The worst part is

they are allowed to retain their stashed public wealth. Often on bail.

Some thinking disabled voters feel Corruption by party A is okay and not Party B.

Corruption is like a cancer in a society. While the rich benefit from corruption the poor suffers.

**I will not for a party:**

**4. That allows bulk of the nation's wealth cornered by Rich and Super Rich in the society. ( a few Rich and Super Rich corner the wealth of the nation). Why?**

In a few countries around the world the divide between the Rich and Poor is growing Rapidly. This is because these countries have Spiritually degenerated leaders. They practice Crony capitalism.

One of the most important duty of a government is wealth distribution of the nation's wealth equitably across the society. They are many who contribute to creating wealth in the form of services and products which are accounted for as wealth of the society and called GDP. This number is monetised by the government and spent along with the Tax income.

Governments spends the money in various projects from time to time.

While doing so, the wealth goes back to people. The common man invariably produce wealth and elite acquire them.

The Economic theory suggests that at least 20% of nation's wealth should reach 80% population comprising of Poor and middle class.

For years on, Government after Govt cause a very small population - the Rich and Super Rich - who form a mere 1% population gets away with nearly 73% nation's wealth. A mere 27% wealth is left for 99%

population. This explains the agrarian crisis. (Our farmers contribute 16%

of GDP.)

How do I know which Govt is causing it?

There are international NGOs studying the data in public domain and bring the disparities to light. Most Educated are unaware of them. Look at OX-FAM UK report.

It is because common man, the voter, is unaware of these truth they continue voting one party or the other who is working overtime against us.

**I will not vote a candidate:**

**5. Spiritually degenerated, as my MLA/MP. Instead selecting those who are spiritually inclined. Why?**

Spiritually awakened people understands that amassing wealth is foolish.

- Wealth does not come with us.
- They have learnt Vedanta Dindima, the poem by Adi Shankara. Those who have heard that **Mother father son daughter** are **Maya**. (They are not really anything to do with us. Everyone is an independent soul on its own journey. Earning and amassing wealth for them is not only foolish but **sinful too**)!

**I will not vote a candidate:**

**6. who have had a Criminal background or criminal cases pending against!**

**I will consider voting for a party**

**7. that which Promise to deliver the following:**

( If they fail to deliver, never vote them again).

A. Judicial Reforms - introducing perjury in every case - for falsely implicating people / organisation with forged documents and false witnesses. Cutting down redundant processes that takes litigation too long!

B. Electoral Reforms - Stopping rallies and long campaigning thereby

cutting down the influence of money in elections.

C. Solution to Farmer distress - The wealth due to Farmers (Esp -Small, marginal and tenant farmers) is knocked off by the Leader - Trader Mafia, armed with commodity market. Loan waiver helps only Rich farmers who will be funded by Nationalised Banks! Every Government comes up with Loan-waiver not the real solution.

**I will not vote a candidate / party**

**8. Offering Bribe /freebies to vote**

**Do not Vote for Parties that ...**

**9. Which implement people welfare schemes through INSURANCE. More than 50% of such money goes to the money bags of CORPORATE.**

Health scheme for common man or Farmer protection through insurance is a loot by insurance firms. The cronies are everywhere to loot the nation. Do not vote for them.

**Do not vote for parties**

**10. Governments fund MNCs in the form of subsidies to MNCs for Genetically Modifying the seeds.**

The agents of MNCs appear in the garb of great economists and futurists predicted that in the next few decades World will have 50 billion population and GM Seeds are a must.

This is a sheer nonsense!

In order to make profit these MNCs and its agents use poison to mutate the seeds from germinating.

The G M seeds are traced to be the root cause of CANCER and TUMOUR in our country.

Do not vote for Governments which fund and support the deadly diseases.

Common man is unaware of these problems and most NGOs in India are silent on this horror.

The readers may suggest more points through a comment!!!

## **Chapter 01** **WHOM I Vote and Why?**

### **India is rich** **But the majority of Indians are poor - Why**

That is because, We elect **wrong persons** to lead our nation.  
How do the voters decide on a **party** or **candidate** to power?  
We give our individual power to think and decide the course of our country. How do we decide our leader?

1. Some vote for party appealing for votes on **Religion**
2. Some vote in favour of one **caste** or the other!
3. Some votes whosoever give **cash!**
4. Some leaders gives cellphone and other **gadgets** to get the vote.

**We are tolerant to several wrongs of political parties.**

1. Political parties put-up their candidates with **Criminal back ground**, and also someone with **Criminal cases** pending against.

2. The **MP /MLA** taking our vote on one party shifts their loyalty to another party. Obviously, for large sums of money offered by the opposition party. Is this not a sheer **breach of trust?! Both candidates and parties who are engaged in horse trading, not once but several times.**
3. Parties do not keep their **promises** made prior to election! They come again seeking out vote.
4. For over **50 years** political parties delayed and denied an **Ombudsman for corruption** for our country. (Obviously, no **thief** likes a **strong cop** around. The investigating agencies such as ED and CBI are declared **Caged parrots** by supreme court. For several decades, these institutions did not succeed in bringing accused to book. Even those proved corrupt are **let go off their loot**).
5. Mostly investigative agencies are used to quell the people opposed to the ruling party not the corrupt leaders and government employees to book.
6. **Judicial reforms** and **Electoral reforms** are long over due. The corruption and sluggish processes turn judiciary an **instrument of extortion** by ill-willed, affluent and the evils in the society. Litigants with false cases, cooked up records/ documents go scot free.

**Will a country with such reasons for voting can a country ever get the right leaders to lead a country?**

**Can any one tell?**

I asked my friends, with professional education and economically well to do to give me a small list of:

- What any one, as a voter, expect from a person as a Leader to

govern the nation?

- What the party / leader **should do** and **should not** (as a responsible team / head of a State or Country)?

- 

### **Large number of Voters are blind to Truth**

I found, not much difference between an **educated** and an **uneducated** person in most of the decision making.

The leaders are intelligent than the voters. That is the reason they are leaders and others follow.

Various political leaders put **Blinders** (Like we put for the horses) to their **followers** in such a way that they do not see the **whole truth** about themselves.

Most citizen do not understand the others. Especially the political leaders, their nature, their intent and action.

Some people are tolerant to some corruption of Party A and some others, Party B and yet others, the Party C.

### **India is Rich**

#### **But majority of Indians are poor. Why?**

We are all aware that India is rich with Minerals and several such natural wealth. Worlds' rich War hardware manufacturers compete to befriend India. We buy very expensive war hardware from developed world. Our leaders are hugged and praised by World Leaders!

Our engineers and scientists are of world class. Our achievements in **space technology** is **unique**. Our contribution to World's technology and science is significant. But, yet!

I always wondered why we have world's largest population of Poor!

**Some of the reasons traced are:**

1. Indian was under foreign rule for over 1200 years. This pushed majority population into slavery, deprivation and poverty. This has turned majority voters **learning resistant & thinking disabled**. They end-up electing Spiritually degenerated people as leaders.
  2. **Spiritually degenerated leaders** are not patriotic. They look at political office as an opportunity to misuse their position and build personal wealth instead of enriching the society.
  3. Successive **Governments** failed to discharge their responsibility to **distribute the wealth** among the citizen **equitably**. Instead, enabled the Rich and Super rich in the society, the **Industry** and **trade leaders** to corner bulk of the nation's wealth.
- We will discuss these issues in the following chapter.

## Chapter 2

### Whom should I vote and Why?

Whom (Which party and Which Candidate) should I Vote / not Vote?

Elections change the parties in power but the condition of the common man remains the same ever since independence. Why is it so?

Our leaders learnt (from the British colonial rulers) the art of Dividing the people and ruling over them. In other words, Our native leaders have developed a colonial mind-set.

Untrained minds are like Monkeys.  
We are no different from monkeys

**Like the monkeys do, we do not let go of anything that we catch.**

They catch anything given and won't let it go! You can read the story how the Monkey traders catch the monkeys without a mechanical trap and sell them to zoo parks in different countries.

Bottles with a narrow entry is loaded with some peanuts are left in the forests where the monkeys move about. The bottle entry is so narrow that when the monkey takes the peanuts in its hand will not be able to take its hand out of the bottle. The monkey will remain with the bottle for hours and traders catch them and export. The loose their freedom and remain behind the Cages in Zoo Parks for

its entire life.

Our people were given Caste, Religion and languages as a bait. Those who caught them are trapped. They are exploited by the Leaders.

Politics has nothing to do with religion. When people let go of what they caught, they will be freed from exploitation.

### **I will not vote for a party:**

1, That political party which seeks my vote in the name of **Caste, Religion, Language or ethnicity.**

(a) Politics - administering a nation - has nothing to do with Caste, Religion, Language or ethnicity. The actions of the Government should benefit one and all in the society.

(b) No other developed country discusses and debates on such divisions among its citizen.

(c) Dividing the people is a technique used by British in the societies they colonised. Divided people are made to fight within and the rulers can get away looting both warring group. Countries were divided (North Korea - South Korea, East Germany- West Germany) and exploited by richer nations.

**I will not vote for a party who against other religion / caste / language, even if they were otherwise good.**

### **I will not vote for a party:**

2. which talk about **reservations on caste / religion / language / ethnicity.**

Promising reservation is criminally dishonest on the part of Leaders and it is Criminally foolish on the part of people who believe reservations will make every one in their caste / religion / region prosperous.

Reservations had meaning in young India. (a) There were very less opportunity for education. There were many jobs and fewer people suitable for employment. (b) Several people who were Socially and Economically backward in the society remained so for several centuries. Reservations in education and employment in Government helped them join the mainstream.

Now there are several crores of Educated people remain unemployed. The number of jobs created annually are too few. How reservations could help? How to understand it?

Assume that the government gives a lottery ticket each to all the members of a particular Caste . Out of several Crores of citizen, one of them might get rupees One Crore in the draw, a few others get smaller amounts. For the majority of the Lottery ticket holders, it is just a piece of paper. The cunning and schemy leaders make the voters to believe that they have made the lives of people prosperous with reservations.

Out of the thinking disabled voters some are very happy that their communities got reservations. The others become angry and unhappy they did not get reservations!

**I will not vote for a party**

**3. That did not bring a strong LOKPAL (the anti corruption Ombudsman), with all the necessary infrastructure. Why ?**  
Before the elections, political parties accuse each others of

corruption. **All are true.** The fact can be Cross-checked in internet clicking CAG Website.

After elections, the ruling party demits office and all their sins are washed-off. The new ruling party does not use the state / central **anti-corruption sleuths** to bring to book those indulges in corruption. Instead they start the corrupt practices.

Very few cases of large scale corruption came to public attention. CBI and agencies launch investigations. After several years, no one is found corrupt!

Defense deals are huge government purchase. Invariably every political party is corrupt. They need huge money to splurge during elections. Organise Rallies. Every participant to rally are paid some cash, food and liquor beside transport expenses.

Out of several hundred cases registered. may be one gets punished. That too after, say 20 years. The worst part is they are allowed to retain their stashed public wealth. Often on bail.

Some thinking disabled voters feel **CORRUPTION** by **party A is okay** and **not Party B.**

Corruption is like a **cancer** in a society. While the rich benefit from corruption the poor suffers.

**I will not for a party:**

**3.** That allows bulk of the **nation's wealth** cornered by a small percentate of **Rich** and **Super Rich** in the society. **How?**

In a few countries around the world the wealth divide between the Rich and Poor is growing Rapidly. This is because these countries have **Spiritually degenerated leaders.** They practice **Crony**

## **capitalism.**

One of the most important duty of a government is wealth distribution of the nation's wealth equitably across the society. They are many who contribute to creating wealth in the form of services and products which are accounted for as wealth of the society and called *GDP*. This number is monetised by the government and spent along with the Tax income. Governments spends the money in various projects from time to time. While doing so, the wealth goes back to people. The common man invariably produce wealth and elite acquire them.

The **Economic theory** suggests that at least **20%** of nation's wealth should reach **80%** population, comprising of Poor and middle class.

For years on, Government after Govt cause a very small population - the Rich and Super Rich - who form a mere **1% population** gets away with nearly **73% nation's wealth**.

A mere **27%** wealth is left for **99% population**. This explains the agrarian crisis. (Our farmers contribute 16% of *GDP*.) Poverty that is growing.

### **How do Voters can know which Govts causing it?**

There are **international NGOs** studying the data in **public domain** and bring the disparities to light. Most Educated are unaware of them. Look at **OX-FAM UK** report.

It is because common man, the voter, is unaware of these truth they continue voting one party or the other who is working overtime against us.

**I will not vote a candidate:**

**4. Spiritually degenerated** candidates as my **MLA/MP**. Instead selecting those who are spiritually inclined. **Why?**

Spiritually awakened people understands that amassing wealth is foolish.

- Wealth does not come with us.
- They have learnt **Vedanta Dindima**, the poem by **Adi Shankara**. Those who have heard that Mother father son daughter are Maya . (They are not really anything to do with us. Everyone is an independent soul on its own journey. Earning and amassing wealth for them is not only foolish but sinful too)!

**I will not vote a candidate**

**5.** who have had a Criminal background or criminal cases pending against the candidate!

**I will consider voting for a part**

**6.** that which Promise to deliver the following:

( If they fail to deliver, never vote them again).

- Judicial Reforms - introducing perjury in every case - for falsely implicating people / organisation with forged documents and false witnesses. Cutting down redundant processes that takes litigation too long!
- Electoral Reforms - Stopping rallies and long campaigning thereby cutting down the influence of money in elections.
- Solution to Farmer distress - The wealth due to Farmers (Esp - Small, marginal and tenant farmers) is knocked off by the Leader - Trader Mafia, armed with commodity market. Loan waiver helps only Rich farmers who will be funded by Nationalised Banks! Every Govenrnment comes up with Loan-

waiver not the real solution.

**I will not vote a candidate / party**

7. who / which Offering Bribe /freebies to vote for them.

**I will not Vote for Parties that ..**

8. Which implement people welfare schemes through INSURANCE. More than 50% of such money goes to the money bags of CORPORATE.

Health scheme for common man or Farmer protection through insurance is a loot by insurance firms. The cronies are everywhere to loot the nation. Do not vote for them.

**I will not vote for any political party**

9. Whose Governments fund MNCs in the form of subsidies directly or indirectly to **MNCs** for **Genetically Modifying** the **seeds**.

The agents of **MNCs** appear in the **garb of great economists** and **futurists** predicted that in the **next few decades World** will have 50 billion population and **GM Seeds** are a must. This is a sheer nonsense!

In order to make profit these MNCs and its agents, the technology use poison to mutate the seeds from germinating.

The **G M seeds** are traced to be the root cause of **CANCER** and **TUMOUR** in our country.

Do not vote for Governments which fund and support the source of such deadly diseases.

Common man is unaware of these problems and most NGOs in India are silent on this horror.

The chapters that follow give explanation for the above issues!

## Chapter 3 God made us unequal!

### Four Dominant Mind of people

**Just think:**

Why only a few people are leaders and most others are followers?

Why some people are rich and most others are poor in countries like India which were under **alien rule** for more than **1200 years**?

These can be explained in several ways!

1. Affluent people who are **not compassionate** might explain it way as it is the effect of **KARMA!** The past deeds!
2. Our leaders are accused of being self-seeking and evil minded who **loot** the vulnerable **poor** and **scoot**,
3. Knowledge levels determined the life one leads.

All the three might look logical but yet, there is a fourth way of looking at poverty and affluence is the Mind of Man

### Man and Mind

Humans do not have **unique mind** like other species have!

There is a logical reason to believe that Man do not have a unique mind like the animals and other species have.

## How can we accept that?

1. **Lion, Tiger, Pythan** are there in Africa or Europe or India is always **Carnivorous**. They do not eat grass or plants at all, They feed on **Flesh** and **blood** only.

2. Deer Rabbit, Cows are there in different part of the world, They are all **herbivorous**. Plants.

The researchers all over the world have been studying the life of other species and documented them.

There is no difference in their behavioural patterns or food habits. Irrespective of the country where they live, the behaviour of species remain the same. This is not true with Humans.

**A.** Some people live on strict vegetarian food. Some others eat both vegetarian and non-vegetarian foods.

**B.** The man's behaviour change with place and situation.

**C.** Some among us are very very aggressive,

**D.** Largely humans are docile!

**E.** Some are cunning but weak.

**F.** Some others are non-aggressive but intelligent

**G.** Very few, have such sharp faculties they control every others in the society.

**H.** Animals do not ensalve their own specie and exploit them the way,we humans do.

**I.** A class of people called People Leaders and Industry and Business leaders do not contribute to wealth other their own. Instead they create wealth for themselves, several times over what the common man produces. In short they contribute too little and own a large chunk of wealth.

## Why is that?

We the humans, do not have a unique mind like other species comparable to us in many ways. We have the mind of all animal. That is why we refer to our mind as a mind-set!

One or two among the animal minds in us is dominant than the remaining. If there are more different behaviour in people we call them having split or multiple spiit personality

We can broadly classify animals and the humans into four broad groups.

### (1) **Cattle dominant Mind**

**"cattle mind"**  
Dominant people

People with Cattle dominant mind live with their physical labour. They produce Primary product. (Like farm products, Handicrafts, Driving Carts and working as industry labourer. They are always poor. Many of them live on the boarder of existance.

Politics of today will die away without the Cattle minded people. For a packet of food, a sachet of country liquore and a couple of hundreds, they attend to Rallies of every party.

Many seek leaders to guide them in every aspects of life.

Leaders will have no business without the poor, the cattle minded.

These people. mostly artisans, labourers in unorganised sector decide the Government.

Parties divide them by CASTE Language ethnicity to rule over them.

Are easily provoked with Caste.

## **(2) Donkey Dominant Mind**

Educated, well above poverty live. Strong in Mind. Understands leaders. Never follow Leaders, do not attend Rallies. Majority of donkey minded live by delivering various services of every type. Most of them are religiously inclined. A few among them on Spiritual journey.

Leaders hate middle class. Sizable population is vulnerable to optics and Dramatics playedout by Political leaders.

## **(3) Fox Dominant Mind**

Majority of leaders come from Poor families. Poor with marginal thinking ability become leaders of poor in various sphere. Slowly they graduate to different levels.

Those who have higher levels of thinking capabilities take to a growth path armed with Education. Starts with service such as teachers, clerks and grow to higher positions and endup as middle class.

They are fewer in number compared the above two category of people.

Fox minded citizen do not contribute to either product or services to the society. But yet, more affluent than the first two category of people. The leaders help Lions corner the bulk of the wealth of the nation through legal and illegal ways! In return the Lions fund a small portion of their income to the party and election funds.

Fox dominant minds have no skills in building wealth.

They are unaware that they commit sins in depriving the due share of money to middle class and poor and build wealth for themselves.

#### **(4) Lion Dominant mind,**

They form the smallest group of people in any society. They run all major manufacturing and trading in the country. They own nearly 70% of the nation's wealth. The top leaders and party are selected by them. These few fund election with black money and also in white. They are very good at art of building wealth.

Bulk of their wealth is in the form of Pseudo wealth that can be moved across nation's boundaries.

Their association with Fox minded, the leaders is come to be known as Crony capitalism.

#### **Conclusion:**

Cattle minded People will continue to remain poor till they shed their

Cattle mind from their mind-set.

Typically, cattle minds are learning resistant and thinking disabled,

In countries which was under alien rule for a long time, only a small section of middle class - Donkey dominant minded - citizen will help and support the cattle mind. Others will exploit and enjoy the fruits of labour of poor without a guilt. Poor should target their future to Donkey -Class. That is possible when they get education in Learning & Thinking paradigms.

Fox minds would grow into lion Mind when they take to religious life.

Fox minds learning enabled but have very limited thinking making them Spiritually degenerated.

Lions will turn a spiritualist to become a saint and get free from their sins and rebirth!

Lions minds learning enabled and have reasonable thinking skills!

### **Ideal Education system**

An Ideal education system for an entire society may have training in Learning Practices and exposure to several of Thinking skills.

When these are imparted, all we need is Learning enablers or guides.  
Do not need teachers any more/

For a detailed discussion, read the ebook: Knowledge. Go, get it.

Every one understands our education system based on ROTE Learning is useless and discarded. Then switch to Learning & Thinking Paradigms of education. A simple book in Tamil and English, explains why education system need to be scrapped. A few stories, a satire to enjoy.

Down load from

[pratilipi.com/natarajan-nagarethinam](http://pratilipi.com/natarajan-nagarethinam)

**When the Cattle mind in humans change to other - like Donkey dominand / Fox dominant / Lion dominant mind the poverty would vanish!**

## Chapter 04

### Elect only a Spiritually Elevated

A good society, freed from poverty and exploitation is possible only with Spiritually elevated people. This chapter explains briefly, about who are Spiritually elevated.

Why people commit **sins**?

Those who commit **sins** can be identified as **Spiritually degenerated**.

Those who are deficient in right knowledge is refered as **spiritually**

**degenerated people.**

The people who live with right knowledge do not commit sins and are called **Spiritually elevated people!**

A society with leaders who are spiritually elevated will be prosperous!

What makes the difference between the two class of leaders! The knowledge. The true knowledge.

**Spiritually Elevated People as leaders:**

**1. Spiritually Elevated people - as leaders**

**They Understand Karma.** Karma is a simple and easy to understand phenomenon which states that what you give comes around back to you. Do good and get good! Tells you not to Commit sins.

**2. Spiritually elevated Do not crave for Power!**

They consider holding power is a huge responsibility and not a privilege to misuse it!

Power can be both constructive and destructive! **Power** at the hands of **Spiritually elevated**, enrich the society, make the people who gave the power to the leader live in peace and harmony.

The spiritually elevated, would have heard or read stories in scriptures. The difference between the **Devas** and **Rakshas** - celestial lives are only in their **knowledge**. Every one who are spiritually degenerated people classified as **Asura** get power by performing **penance** but misuse it. (Read story of the **Rakshas BASMASWARA**

perform penance and get the **boon** from the God But reduced to ashes instead of gaining by the efforts to get the power). Most of the Political leaders can be seen as **Rakshas**.

3. **Spiritually elevated** are **compassionate** to **Poor**. Do not exploit poor to amass wealth for self or their family.

4. **Spiritually elevated** are people who are **Maya** aware.

Spiritually elevated are aware of the Poem by **Adi Shankara**. The poem briefly describe about how **Maya** that drives the spiritually degenerated people, into acts that leads to sin.

**Vedanta Dindima**

**Philosophic wisdom in a nutshell.**

**Verse I**

` **Passion** and **anger** and **greed** Occupy the body like thieves,  
Intent on seizing the gem of knowledge

**Birth** is misery, **old age** is woe, Again and again is **wife a sorrow**,  
**Mundane** life is **extreme distress**, Therefore be awake, be awake!

**Verse II**

` Neither **mother** is there, nor **father** indeed, No **relative** is there,  
and no **brother** either,

**Wealth** is really not, and **home** is nowhere.

**Verse III**

` The world is by **desire bound**, Bound fast by activity and much  
care,

Of life's wasting away are people not cognizant.

1..Spiritually **degenerated** leaders - the leaders of all hues - amass so much wealth that do not follow them.

2. The leaders loot the public wealth save the loot for their **sons** and **daughters** who are neither **sons** nor **daughter**. Ever one relationship we cherish is a **Maya**. They are **independent** lives on their own

journey path. They are merely like co-passengers in a travel by bus / train. All of them get into our coach at some point and leave at some other point. It is foolish to **sin** to make wealth for them.

## 2. Spiritually degenerated people as Leaders

Why people (1) **Crave for** becoming a leader to hold political offices; (2) They lie the **voters** (3) **Divide** the common man in caste religious and ethnic lines to distract the attention from their misdeeds (4) Several people even commit **heinous crimes** including **murders** to reach the power or to retain that power?

The political office gives one enormous powers! They are powers to serve. Invariably the leaders allow or support committing sins.!

Ministers are empowered to **mop-up** nation's wealth (produced / contributed by all the citizen). through the system of **Government**.

They have the responsibility to distribute it equitably across citizen. It is because the Majority of the citizen in poor countries like India is **unaware** of their **rights** and **privileges** they are exploited by leaders.

The ignorance of the common man enables the Leaders in the society, allow the nation's wealth cornered by a few business and industrial **tycoons! a.k.a Cronies**. They in turn throw a few crumbs to the political bosses.

The next chapter gives a brief list of sins committed in various societies across the world!

So elect only Spiritually elevated as leaders! We will also discuss how to identify them.

## Chapter 5

### Defective Economic Theories that Governments follow

Governments follow certain economic theories that are detrimental to a peaceful society. The theories and practice invariably help a few corner the wealth that belong to majority of the people who work for it leaving insignificantly a small portion to those who generated it.

Now the **rich - poor** divide is **reaching alarming rates**. One should not be surprised if this trigger a **civil-war** ,

I am sure that not many would have an opportunity to understand the basics of **Economic-Life**.

**Poor (can) Produce (only) Primary Products:**

Invariably everyone contributes to wealth generation in every society. Some slog and generate **primary products**. For Example, the rice, wheat and several ingredients to make food. It takes a long time to produce any primary products. Producing primary products carries the risk from **nature's fury**. Majority farmers have small

lands and no capital.

Rich has access to funds converts primary products into secondary products!

**Rich** (only can) **make secondary Products.**

The Industry which has access to funds convert primary products into **secondary products**, by deploying fewer people, machines and technology in a very short time. Thus they make huge profit in a short time.

This makes many paid for their efforts very less and a few make windfall profits.

Societies like India with largely Spiritually degenerated people, the leaders of various hues exploit their poor abilities to **learning** and **thinking**.

The economic theory suggest a wealth share among the citizen with the formula: **80:20**; This means that the wealth generated in a society is distributed in such a way that top 20% of wealthy gets 80% of nation's wealth. The 80% of People get the remaining **20%**. Such a formula is grossly biased in favour of **Rich** and **Super rich**. Our leaders boast of holding Post graduate level education in Economics and political economics, some with Research titles and yet, going by international reports:

**Wealth distribution is a serious problem!**

## **Why poverty continues even after freedom from Alien Rule?**

Last year's survey had showed that India's richest 1% held a huge 58% of the country's total wealth — higher than the global figure of about 50%.

The annual Oxfam survey is keenly watched and is discussed in detail at the World Economic Forum Annual Meeting where rising income and gender inequality is among the key talking points for the world leaders.

**DAVOS:** The richest 1% in India cornered 73% of the wealth generated in the country last year, a new survey showed today, presenting a worrying picture of rising income inequality. Besides, 67 crore Indians comprising the population's poorest half saw their wealth + rise by just 1%, as per the survey released by the international rights group Oxfam hours before the start of the annual congregation of the rich and powerful from across the world in this resort town.

The situation appears even more grim globally, where 82% of the wealth generated last year worldwide went to the 1%, while 3.7 billion people that account for the poorest half of population saw no increase in their wealth.

<https://timesofindia.indiatimes.com/business/india-business/indias-richest-1-corner-73-of-wealth-generation-survey/articleshow/62598222.cms>

Wealthies 1% citizen of India get 73% of National wealth year after year.

The wealth distribution to poor is implemented through subsidized prices of commodities and services.

Now we have people who are economical in their **economic theories**, call subsidies an economic disaster and not waiving off NPA of rich and super rich as a prudent economic decision!

The **spiritually degenerated leaders** of all hues, lead to poverty. (We will discuss briefly, what is being Spiritually degenerated)!

Who can make the Governments to implement the **80:20 formula???**

## **Wealth is cornered by a Few**

Problem of poverty  
can be traced to Wealth distribution,  
A key function of Government.

But successive Government allow wealth to be cornered by a few.

Wealth Distribution a key function of Government.

Poverty is not due to lack of resources (wealth) in the society,

A few are successful in cornering the nation's wealth effortlessly.

Those who really generate wealth in a given society do not know how to get their due share of the wealth.

Subsidies are methods where wealth share is achieved.

We see un-cooked economic experts declaring Subsidies are economic disaster!

### **Wealth share numbers**

The difference between a sophisticated society with peace and prosperity and a country in turmoil, poverty and conflicts can be traced to the wealth distribution numbers.

In Developed countries the poverty levels are insignificant. There are **NGOs** working to eradicate poverty.

The poor who are Learning Resistant and Thinking disabled are not exploited by their leaders. The leaders are spiritually elevated to various levels. The Spiritually elevated leader do not exploit and deny the their due share of contribution to nation's wealth to them.

**Oxfam study** shows everything that's wrong with the world, especially India

*The latest Oxfam study claims that getting the world's richest 1% to pay a mere 0.5% extra tax on their wealth could make a massive difference in tackling inequality.*

Oxfam study shows everything that's wrong with the world, especially India

*The report, released today, ahead of the World Economic Forum (WEF) annual meeting at Davos, Switzerland, also contained some damning facts specific to India. 13.6 crore Indians, who make up the poorest 10% of the country, have continued to remain in debt for the past 15 years. Meanwhile, in 2018 alone, India's 119 billionaires saw their wealth mushrooming by Rs 2,200 crore a day on average.*

According to Oxfam International Executive Director Winnie Byanyima, one of the key participants at the WEF summit, it is "morally outrageous" that a few wealthy individuals are amassing a growing share of India's wealth, while the poor are struggling to eat their next meal or pay for their child's medicines. "If this obscene inequality between the top 1 percent and the rest of India continues then it will lead to a complete collapse of the social and democratic

structure of this country," she added.

Here are some more takeaways from the Oxfam report, which is based on the latest comprehensive data sources available publicly, including from the Credit Suisse Wealth Databook and the annual Forbes Billionaires List:

While India's bottom half saw a mere 3% rise in wealth in 2018, the top 1% got richer by 39% and now hold over 51% of the country's wealth.

India added 18 new billionaires last year, taking the total number of billionaires to 119, and their collective wealth rose to \$440.1 billion, up from \$325.5 billion in 2017.

This is the single largest annual increase since the 2008 global financial crisis. Between 2018 and 2022, India is estimated to produce 70 new dollar millionaires every day, Oxfam said.

The country's top 10% of the population holds 77.4% of the total national wealth while the bottom 60%, the majority of the population, own merely 4.8% of it. Oxfam also revealed that the wealth of India's top 9 billionaires is equivalent to the wealth of the bottom half of the population.

## Chapter 7

### Reforms are needed urgently

For over 70 years, since British who colonised India had left. Yet the most important institutions like Law , **Judiciary** remains the way the **colonizers** made to oppress and rule us.

It is sad that our native rulers, elected by us, continue what British rulers did in the country.

1. The judiciary is draconian. A system that can be seen as a

weapon of extraction. specialising in delivering injustice.

2. Electoral Laws: Need an urgent revamp. Our leaders do not like the idea! But cannot be postponed indefinitely.

3. Anti - corruption measures: For close to Fifty years the institution of corruption OMBUDSMAN was resisted successfully by national parties.

Recent assembly polls had 4.5 % NOTA ! It is a warning for what is in store. Citizen is losing faith in the institution of Governance.

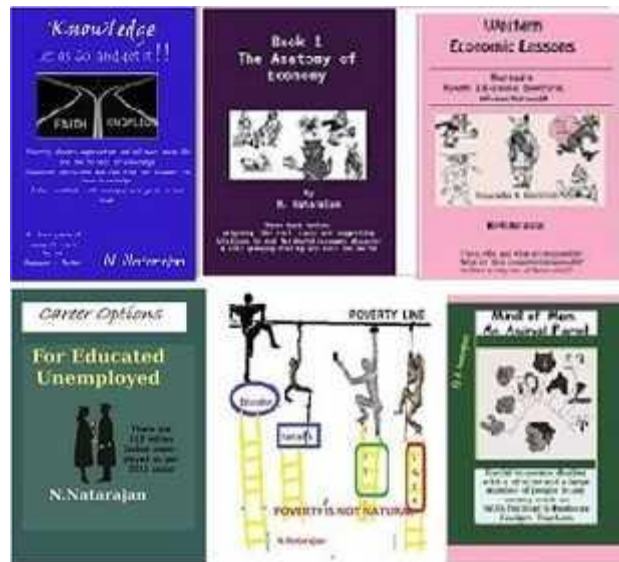

4, EDUCATION system is an outdated Crap. Does not produce professionals and scientists. Instead generated thinking disabled cattle minds.

Read six free ebooks in the next chapter.

**This is not a complete list.**

**It needs a beginning. Sooner is better with these short list.**

These six books will help understanding ECONOMICS to  
EDUCATION

SIX BOOKS THAT EVERY Citizen SHOULD READ.  
 For free down load: [free-ebooks.net/search/natarajan](http://free-ebooks.net/search/natarajan)

The following two books could lead a reader to spiritual elevation.

1. Who is our creator. What do we do for our creator. All the species are on a (Metaphoric) run for the creator.

If any one is keen to know about the metaphoric run, one may read the two free ebooks

### Why the Monk Laughed (Part One and Part II)
