Kimberly K. Mertz, Special Agent in Charge
Federal Bureau of Investigation

Dear Mr. Grattan:

Enclosed herewith are copies of the filed (10-16-08) documents for your records as I said I would provide upon the filing of the subject matter. I also have provided you with the PDF files on autorun cd-rom filed concurrently therewith, and as well, the PDF files on autorun cd-rom including complaint against attorney (defendant Coan) filed with/sent to the Court subsequent thereto as per procedure of said Court.

As indicated in my RICO summary forwarded to your office and included in said documents, hopefully the matter will resolve in accordance with fairness and justice after this undue delay and tribulation making any prospective criminal referral, the necessary concomitant to the absence thereof, unnecessary.

I realize you, your office, your agency are busy with many important matters and appreciate your time and consideration. Parenthetically, with an MBA in finance, J.D., computer literacy, and some banking/securities experience I understand only too well the massive (securities) fraud which has hit the nation and humbly offer my assistance formally or informally.

Thanking you I am,

Very Truly Yours,

Albert L. Peia
