Can you imagine calling up a family that has just seen their home burn to the ground and offering to buy their land for below market value? This is apparently happening in Hawaii right now on a massive scale. Grieving property owners are being bombarded with calls from very greedy people, and I think that says a lot about the current state of our society. We literally worship material possessions and financial gain, and the sheer greed that we are witnessing at this moment is absolutely staggering. (Read More...)

THE INCREASINGLY ERRATIC BEHAVIOR OF THE SUN IS CAUSING DISASTERS OF BIBLICAL PROPORTIONS ALL OVER THE PLANET

August 3, 2023 by Michael

High temperatures are not supposed to go above 100 degrees Fahrenheit in South America in the middle of winter. That is not supposed to happen. But it is happening. In fact, we are witnessing some really freakish things happen all over the globe right now. The increasingly erratic behavior of the giant ball of fire that we revolve around is causing all sorts of problems. In recent months scientists have identified the most sunspots that we have seen in decades, and there have been extremely powerful solar storms. Whenever the sun becomes very active, temperatures on our planet tend to be higher, and that is precisely what we have been experiencing. (Read More...)

<u>10 SIGNS THAT WE REALLY ARE LIVING IN APOCALYPTIC TIMES</u> <u>August 1, 2023</u> by <u>Michael</u>

Time is running out for humanity. Our world becomes a little bit more like a really bad science fiction movie with each passing day, and our self-destructive tendencies are slowly but surely transforming our society into a living nightmare. Given enough time, we would destroy ourselves and everything around us. On a very basic level, most people can feel that global events are starting to spiral out of control. Evil is growing all around us, and just about everything that our leaders do to solve our rapidly growing problems seems to make them even worse. The pace of change just keeps getting faster and faster, and many fear that this will soon lead to widespread chaos all over the globe. The following are 10 signs that we really are living in apocalyptic times... (Read More...)

GREAT EVIL IS ROAMING THE STREETS OF AMERICA August 3, 2023 by Michael

America's societal decline appears to be accelerating. Hordes of predators are roaming our streets, drug addiction has risen to unprecedented levels, and crime is completely out of control. Some of the things that I am about to share with you are deeply disturbing. But we must face what is happening to us as a society, because we are in danger of losing everything. America is literally disappearing right in front of our eyes, and it is being replaced by a horror show. <u>(Read More...)</u>

THE ENTIRE GLOBE IS BEING GRIPPED BY A REALLY BAD CASE OF WAR FEVER August 7, 2023 by Michael

Most of us just want to live in peace, but leaders all over the world are preparing for more war. In fact, at this point it appears that the entire globe is being gripped by a really bad case of war fever. As I write this article, the Economic Community of West African States is warning <u>that it could invade the nation of Niger</u> if coup leaders do not reinstate President Mohamed Bazoum. Of course the leaders of the coup do not intend to back down, and so there will probably be war. But that will be a relatively small conflict compared to others that are looming on the horizon. 10 SIGNS THAT WE REALLY ARE LIVING IN APOCALYPTIC TIMES by Michael Snyder

Time is running out for humanity. Our world becomes a little bit more like a really bad science fiction movie with each passing day, and our self-destructive tendencies are slowly but surely transforming our society into a living nightmare. Given enough time, we would destroy ourselves and everything around us. On a very basic level, most people can feel that global events are starting to spiral out of control. Evil is growing all around us, and just about everything that our leaders do to solve our rapidly growing problems seems to make them even worse. The pace of change just keeps getting faster and faster, and many fear that this will soon lead to widespread chaos all over the globe. The following are 10 signs that we really are living in apocalyptic times...

#1 Leaders all over the world seem to be catching "war fever", and the Biden administration just made a military conflict with China even more likely by announcing a 345 million dollar weapons package <u>for Taiwan</u>...

The Biden regime is sending \$345 million in weapons to Taiwan as they look to create another proxy war against China similar to the proxy war they have set up in Ukraine with Russia.

The U.S. made the announcement on Saturday. In response to the news, China has made it clear they will not be backing down.

"No matter how much of the ordinary people's taxpayer money the ... Taiwanese separatist forces spend, no matter how many U.S. weapons, it will not shake our resolve to solve the Taiwan problem. Or shake our firm will to realize the reunification of our motherland," said Chen Binhua, a spokesperson for the Taiwan Affairs Office of China.

#2 Both sides just continue to escalate the war in Ukraine, and now the Russians are openly warning that they could potentially use <u>nuclear weapons</u>...

The Kremlin today bluntly threatened use of nuclear weapons in the wake of the Ukrainian drone strike on Moscow's skyscraper zone.

Three drones struck an elite office building and residential skyscraper in Moscow early Sunday morning in what Russia's Defence Ministry has branded an 'attempted terrorist attack by the Kyiv regime'.

Dmitry Medvedev, a former Russian president and Putin ally, has warned there is 'simply no other way out' and said that Kyiv should 'pray to our warriors' that they do not 'allow the global nuclear fire to flare up'.

#3 According to the United Nations, 2.4 billion people already do not have enough food to eat. And now that the Black Sea grain deal has broken down and India has placed severe restrictions on rice exports, we are being warned that global food prices <u>could</u> <u>soon go much higher</u>...

Helen Dickinson, chief executive of the British Retail Consortium (BRC), said the price of bread and breakfast cereals were most likely to increase given <u>Ukraine</u>'s role as one of the breadmakers of the world.

Rice supplies are now also under pressure after India restricted most exports, which the World Bank warned on Monday (July 31) would cause "considerable increases in world prices and induce price volatility".

#4 Pestilences are raging all over the globe, and many old diseases are now making stunning comebacks. For example, Florida has now become the epicenter for <u>an outbreak of leprosy</u> <u>in the United States</u>...

Health officials say that cases of leprosy, also known as Hansen's disease, are surging in Central Florida.

In a research letter, the Centers for Disease Control and Prevention (CDC) said that Central Florida has accounted for 81 percent of reported cases in the state and almost one-fifth of reported cases nationwide.

#5 Global weather patterns have gone completely nuts. For example, Phoenix just had a streak where the high temperature reached at least 110 degrees <u>for 31 days in a row</u>...

Phoenix sizzled through its 31st consecutive day of at least 110 degrees Fahrenheit and other parts of the country grappled Sunday with record temperatures after a week that saw significant portions of the U.S. population subject to extreme heat. #6 Men are getting pregnant and giving birth to babies...

A 22-year-old transgender man has given birth to twins after going through six rounds of artificial insemination in a bid to get pregnant.

Aaden Darr, a Starbucks barista from Charleston, West Virginia, was born biologically female but came out as transgender at 16 years old after identifying as a lesbian for several years and started a course of testosterone.

However, he soon came to realize that it was his dream to have a biological child – so he put a stop to his hormonal treatment and visited his local family planning clinic in order to begin the process of having a baby.

#7 Technology continues to increase at a pace that is absolutely breathtaking. In fact, it is being reported that scientists have developed a "breakthrough" treatment which <u>"appears to</u> <u>annihilate all solid tumors"</u>...

Scientists have developed what may be a "holy grail" molecule that eradicates all solid cancer tumors while leaving other cells unaffected. The breakthrough was achieved by the team at the City of Hope Hospital, one of the largest cancer research and treatment organizations in the United States, and targets the proliferating cell nuclear antigen (PCNA) protein.

A mutated form of PCNA assists cancers in their repair and growth. The team has developed a molecule, AOH1996, that targets and eradicates the mutated PCNA. Previously, PCNA was considered too challenging to be a target for therapy, but AOH1996 appears to annihilate all solid tumors in preclinical research. #8 Scientists are bringing ancient species back to life. For instance, it is being reported that one team of researchers was recently able to "reanimate" worms that had been frozen <u>for</u> <u>thousands of years</u>...

Scientists have managed to reanimate worms that were frozen for an estimated 46,000 years.

Thought to have lived in the late Pleistocene era, a small group of the worms found 40 metres deep in the Siberian permafrost have been thawed out and revived.

#9 Deaths from heart attacks have been surging dramatically <u>in</u> <u>every age group in the United States</u>...

NBC's the *Today* show reported, "A national study from Cedars Sinai hospital shows the deaths related to heart attacks increased across every age group since the spring of 2020, but the group that saw the biggest increase isn't who you might think... The relative increase in heart attack-associated deaths among 25-44-year-olds was a staggering 30%... Experts are still working to figure out why young people are so impacted."

#10 Our soil and water are already heavily saturated with microplastics, and now we are being told that this crisis <u>is</u> <u>getting "exponentially" worse</u>...

NOT EVEN THE Arctic Ocean is immune to <u>the incessant growth</u> of <u>microplastic pollution</u>. In a new study that analyzed sediment core samples, researchers quantified how many of the particles have been deposited since the early 1930s. As scientists have shown elsewhere, the team found that microplastic contamination in the Arctic has been growing exponentially and in lockstep with the growth of plastic production—which is now up to a trillion pounds a year, with the global amount of plastic waste <u>projected to triple</u> by 2060. If you don't understand why microplastics are a very serious existential threat to our society, you really need to read <u>my most</u> <u>recent book</u>. Given enough time, microplastics would completely collapse our civilization even if none of the other very serious problems that we are currently dealing with existed.

Of course the same thing could be said about nuclear war, global famine, AI and a number of other cataclysmic threats that we are now facing.

We really are living in apocalyptic times, and the months and years ahead of us promise to be very "interesting" indeed.

RICKARDS: WHERE'S THE DARN RECESSION?

The system is flashing red...

Inflation is still too high (and the damage from past inflation will be with us permanently), but the dip has been undeniable. From 9.1% in June 2022 to 3.0% in June 2023, inflation (measured as CPI, year-over-year) has come far toward the Federal Reserve's goal of 2.0%.

Of course, the stock market has been on a tear and some major indexes are inching toward new all-time highs or already there. No wonder that Joe Biden has decided to base his campaign on "Bidenomics."

• STILL, THE NEGATIVE SIDE OF THE PICTURE IS IN PLAIN SIGHT.

U.S. industrial production has been declining for over a year. Some economists claim that manufacturing is a shrinking part of U.S. GDP and that services dominate economic growth.

That's true as a first approximation, but it ignores the fact that much demand for services comes from those who work in factories, mines and assembly lines.

If the factory is closed, no one laid off will be buying tickets to the Taylor Swift concert.

 ALSO, BANK LENDING IS CONTRACTING, AND CREDIT CONDITIONS ARE BEING TIGHTENED. THIS DOESN'T MEAN A FULL-SCALE CREDIT CRUNCH IS UPON US OR THAT THE ECONOMY IS FALLING OFF A CLIFF.

It does mean that a trend toward reduced liquidity is in place and will likely grow worse until it leads to business failures and bad debts.

What about the world beyond U.S. shores?

• THE EU IS ALREADY IN RECESSION AND JAPAN AND THE U.K. ARE CLOSE TO ZERO GROWTH AND HEADING TOWARD

RECESSION FAST. WITHIN THE EU, INDIVIDUAL RECESSIONS HAVE HIT IN GERMANY AND IRELAND, WITH ITALY AND FRANCE SHOWING GROWTH BARELY ABOVE ZERO.

The idea of a real recession in China may seem incomprehensible, but we may be witnessing one.

The "reopening" narrative following the end of the ridiculous Zero COVID policy was always a myth (and I said so last year) but Wall Street bought into it until the data made its failure undeniable.

• TODAY, CHINA IS NOT ONLY UNDERPERFORMING THE NARRATIVE, IT'S SLIPPING CLOSE TO CONTRACTION.

The point is with the EU, China, Japan, the U.K. and others in recession or close to it, how can the U.S. expect to remain afloat?

Globalization may be on the decline, but it's still the dominant path to global production. Aggregate world trade may be shrinking, but it's still a large part of global GDP on a country-bycountry basis.

How can the world shrink while the U.S. grows?

• THAT WON'T HAPPEN UNLESS U.S. GROWTH IS SO STRONG IT PULLS THE WORLD OUT OF A COLLECTIVE RUT. THERE'S NO EVIDENCE FOR THAT. SO THERE'S THE DILEMMA.

Ample signs of growth are surrounded by large and growing signs of an economic stall. The U.S. is showing relatively strong growth, while the rest of the world coasts to a halt.

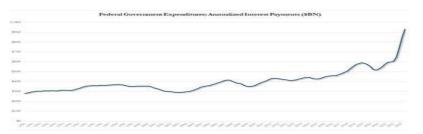

• TIME WILL CATCH UP TO THE U.S.

THIS IS WHY U.S. ECONOMIC ACTIVITY SEEMS SO "SLOW" THIS SUMMER August 1, 2023 by Michael

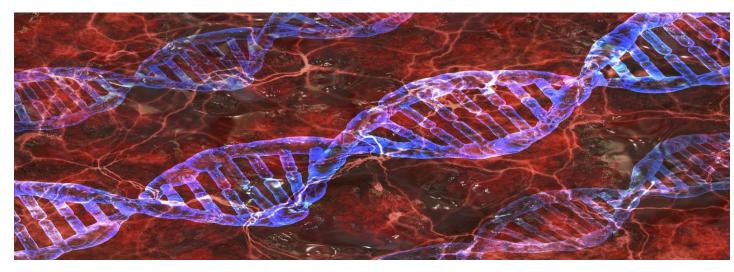

Do things seem "slow" to you this summer? If so, you are definitely not alone. In recent weeks, my wife and I have heard from so many people that are saying that activity at their businesses or organizations has been really slow lately. In other words, less money has been coming in than usual. This has caused a lot of confusion, because when these people turn on their televisions they are told that the U.S. economy is doing just fine. Of course that is <u>not actually true</u>, but these media reports are still causing a tremendous amount of confusion. A lot of people out there are just very frustrated because things are so slow for their businesses or organizations right now while the overall economy is supposedly buzzing along at a really good pace. <u>(Read More...)</u>

THE GROTESQUE EXPERIMENTS THAT MAD SCIENTISTS AROUND THE GLOBE ARE CONDUCTING ON HUMAN CELLS ARE ABSOLUTELY SICKENING July 26, 2023 by Michael

Just because we have the technology to do certain kinds of things does not mean that we should actually be doing them. In theory, science is supposed to be constrained by morality, but in our day and time just about all constraints have been removed. As a result, mad scientists all over the globe are running wild. In fact, some of them are now conducting extremely grotesque experiments on human cells that are absolutely sickening. For example, one team of scientists in Australia just received a giant pile of money so that they can continue to monkey around with ways of <u>"merging human brain</u> <u>cells with artificial intelligence"</u>... <u>(Read More...)</u>

THE RISE OF THE "SUPERBUGS" IS A CATASTROPHIC LONG-TERM HEALTH CRISIS THAT THREATENS TO KILL HUNDREDS OF MILLIONS OF PEOPLE_July 31, 2023 by Michael

The rise of the "superbugs" is here. The death toll is already in the millions each year, and it won't be too long before "superbugs" are killing tens of millions of people each year. In <u>my last book</u> I identified a number of long-term trends that threaten to collapse our society, and now you can add this one to the list. The clock really is ticking for humanity, but most people in the general population simply do not understand what we are facing. They just assume that life will go on as it always has, but that is simply not going to be possible. <u>(Read More...)</u>

WHY WAS A SECRET CHINESE LAB IN CALIFORNIA STOCKPILING NIGHTMARISH BIOLOGICAL PLAGUES? July 30, 2023 by Michael

It appears that <u>"an illegal, unlicensed laboratory full of lab mice,</u> <u>medical waste and hazardous materials</u>" that was owned by a shadowy Chinese company was doing some pretty crazy things. When authorities entered the facility, they discovered "thousands of vials" that contained all sorts of various infectious agents. In addition to malaria, they found "chlamydia, E. Coli, streptococcus pneumonia, hepatitis B and C, herpes 1 and 5 and rubella" in this secret lab. In addition, they also found 900 mice that were "genetically engineered to catch and carry the COVID-19 virus". So exactly what was going on here? (Read More...)

THE BEAT GOES ON: ANOTHER BANK HAS COLLAPSED,ANOTHER TRUCKING COMPANY HAS COLLAPSED, AND U.S.CONSUMERS ARE TAPPED OUTJuly 31, 2023 by Michael

Should we be surprised that we are witnessing so many failures all around us? After all, the mainstream media claims that the U.S. economy <u>is doing just great</u>. Of course the truth is that the economy is not in good shape at all. Those in positions of power have been desperately trying to prop up the system, but it continues to steadily fall apart. Earlier this year, we witnessed the second largest bank failure in U.S. history, the third largest bank failure in U.S. history, and the fourth largest bank failure in U.S. history. The Federal Reserve implemented extreme measures in an attempt to keep more banks from failing, but now another one has failed. Even though inflation is out of control, the commercial real estate market is in free fall, corporate bankruptcies are surging, and large businesses all over America <u>are conducting</u> <u>mass layoffs</u>, we are being told that everything is just peachy. Central bank digital currencies are feverishly being developed all over the globe, and this is something that should deeply alarm all of us. For a moment, I would like for you to imagine a world where the government instantly knows whenever you buy or sell something. No transaction would ever be truly private, not even your most personal or embarrassing ones. In addition, your money would not be truly your own under such a system. NEW BRICS CURRENCY BACKED BY GOLD MEANS THE END OF GLOBAL DOMINANCE FOR THE U.S. DOLLAR 7-25-23 by Michael

Is the global dominance of the U.S. dollar in danger? In recent weeks, there has been lots of speculation about the introduction of a new BRICS currency that would be backed by gold. In this article, my goal is to sort through what is true and what is not true. From August 22nd to August 24th, the 15th BRICS summit will be held in Johannesburg, South Africa. Back on July 5th, RT sparked a firestorm of rumors when it <u>reported</u> that a decision to introduce a new BRICS currency that would be backed by gold would be made prior to the upcoming summit in Johannesburg... <u>"WORLDCOIN" IS HERE: JUST GET YOUR EYES SCANNED BY</u> <u>"THE ORB", YOUR NEW "WORLD ID" WILL BE ISSUED</u> 7-24-23 by Michael

Have you had your eyes scanned by "The Orb" yet? All it takes is just one trip, and once your biometric data is in the database you will receive some free money and a new "digital identity" that you will be able to use all over the Internet. Doesn't that sound grand? As you will see below, hundreds of thousands of people in Europe have already signed up. Those that have created Worldcoin intend for it to be "a new identity and financial network" that is owned by everyone on the entire planet. The following comes directly <u>from the official Worldcoin website</u>... (Read More...)

MACLEOD: WHY THE DOLLAR IS FINISHED

LESSONS FROM THE GREAT DEPRESSION

The "preppers" have a point...

Some of the lessons are timeless:

1. Diversify - in the USA, people who held stocks and real estate were wiped out, while people who held Treasury bonds did great. In Germany, people who held government bonds were wiped out, while people who held real estate did great - especially if they had a mortgage. He relates the story of one American client who owned a piece of property in Germany with a \$5,000 mortgage, which he was able to pay off with US \$18 when hyperinflation hit Germany.

2. Have some cash - the biggest problem in general was lack of actual money - nobody had any, for anything. Over and over Roth laments having no cash to buy stock or real estate bargains in '32 and '33.

3. People never learn - In 1936, the Depression seems to be over and the stock market is booming. The same people who were

wiped out in the crash of '29 are investing like crazy again - the US stock market crashed 50% the next year, 1937.

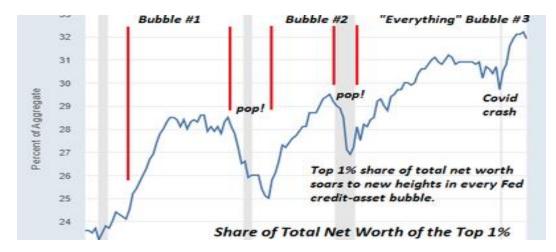

4. Timing the market is one of the best ways to go broke. Despite being a student of markets, and intelligent, Roth again and again is wrong in his market and US economy predictions.

5. Professions fared badly - there were weeks he made no money as a lawyer. People stopped seeing the dentist for anything but abscessed teeth that needed pulling. They couldn't pay the doctor - he relates that one week a doctor friend of his made a grand total of one dollar. My paternal grandfather was a livestock veterinarian during the Depression. He told me a grim fact - he was better off as a vet than an MD. If a child got sick and died and the parents couldn't afford a doctor's visit it was sad, but the family survived. If their cow got sick and died the whole family might starve - so he got paid.

6. Herd mentality is a thing. The runs on banks REALLY made the lack of cash situation worse. A lot of it was driven by irrational fear. Banks that would have survived if their clients had remained calm went under, wiping the banks and the clients out. Makes you glad we have the FDIC.

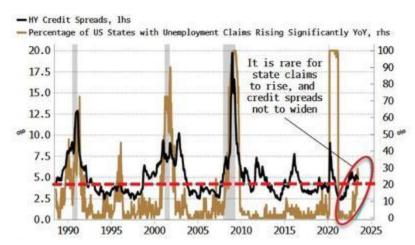

7. The "preppers" have a point - he *relates that local violent crime, including murders, reached unprecedented levels, and Youngstown isn't a particularly violent place.*

\$500 BILLION CORPORATE-DEBT STORM BUILDS OVER GLOBAL ECONOMY...

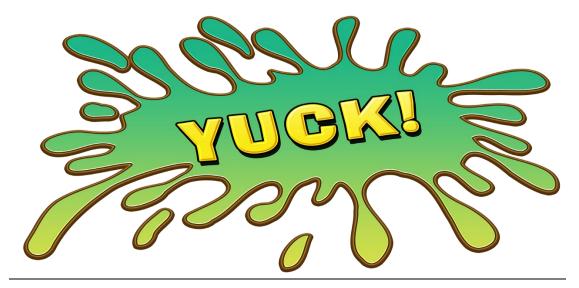

A WIDELY FOLLOWED MARKET INDICATOR IS BACK IN THE DANGER ZONE. HERE'S WHAT THAT USUALLY MEANS FOR STOCKS.

"When back-tested to 1870, the Shiller P/E ratio has averaged 17.04 over 153 years. But as of the closing bell on July 13, 2023, the S&P 500's Shiller P/E stood at 31.44, which is its highest reading in more than a year. But there is a limit to valuations on Wall Street, and the Shiller P/E ratio has, once again, found itself in the danger zone.Looking back to 1870, there have only been six instances where the S&P 500's Shiller P/E decisively crossed above 30. Aside from the current move, the other five instances eventually led to declines ranging from 20% on the low end for the S&P 500 in the fourth quarter of 2018, to 89% on the high-end for the Dow Jones Industrial Average during the Great Depression. Though a move of this magnitude is highly unlikely in today's market, the key takeaway is that when valuations become extended to the upside, a minimum decline of 20% has eventually followed."

LAB-GROWN BEEF AND CHICKEN WILL SOON BE IN YOUR LOCAL GROCERY STORE... July 18, 2023 by Michael

Would you like to eat a slab of "beef" or "chicken" that has been artificially "grown" inside a giant vat filled with disgusting goo? Personally, I will never eat any "beef" or "chicken" that scientists have cooked up in a lab somewhere. In fact, I would rather crawl on my belly for a mile on a gravel road filled with razor-sharp glass shards than eat a single bite of lab-grown "meat". I am sure many of you feel the same. It's coming anyway. CNN <u>is reporting</u> Americans will be able to try lab-grown chicken soon<u>(Read More...)</u>

THIS IS WHY THE GLOBAL FOOD CRISIS IS ABOUT TO GO TO A WHOLE NEW LEVEL...July 20, 2023 by Michael

Most people that live in the western world don't realize that global hunger has been absolutely exploding and has now become a major worldwide issue. According to the UN, <u>2.4</u> <u>billion people</u> do not have enough food to eat on a consistent basis, and <u>900 million of them</u> are facing severe food insecurity. Unfortunately, things are about to get a whole lot worse. The deal between Russia and Ukraine that had allowed so much grain to be shipped through the Black Sea has completely broken down, and now both sides are threatening to attack any transport ships that come through the area. <u>(Read</u> <u>More...)</u>

JESUS IS YOUR ONLY HOPE May 30, 2023 by Michael

Our society trains us not to think about the things that really matter. Instead, we are constantly directed to think about whatever is going to make us happy in the moment, and if we don't know what that is society certainly has a lot of suggestions for us. Of course all of the things that bring a bit of temporary happiness can never fill the deep hole of emptiness and pain that most people carry around with them. Surveys tell us that people have never been more depressed than they are right now, suicide rates have never been higher, and both legal and illegal drugs are being abused at levels that are absolutely unprecedented.Though we're literally surrounded by things that are supposed to make us happy, our society has never been unhappier than it is at this moment.(Read More...)

BUCKLE UP, WHAT YOU'RE ABOUT TO SEE ISN'T PRETTY

"The 'US is an emerging market' theme was on full display last week.

1) Many of the most important institutions in the U.S. now exhibit a level of corruption that is normal for banana republics. We now see these institutions doing everything from interfering in elections to arresting political opponents and more. The individuals who do this are not punished, if anything they given book deals and TV slots.

2) The U.S. no longer has a clear rule of law. Those with the correct political leanings and connections can avoid jail time for serious crimes, even treason. Meanwhile, those on the other side of the political spectrum are given lengthy sentences for minor transgressions.

3) The U.S. economy is no longer a manufacturing/ industrial leader. Decades of outsourcing have gutted the middle class resulting in the kind of wealth disparities you usually see in emerging markets. American children dream of becoming influencers or social media personalities instead of business owners or innovators.

Farmers in the U.S. and elsewhere have had to deal with seemingly endless drought, <u>unprecedented heat</u>, nightmarish flooding and horrifying outbreaks of disease. In fact, citrus greening disease is one of the primary reasons why the orange harvest in Florida is only going to be about half as large as it was last year. It has just been one thing after another for our farmers, but ravenous hordes of insects has been one plague that has been noticeably absent from the list. Unfortunately, that has now changed. VAST HORDES OF AMERICANS ARE FORCED OUT INTO STREETS AS THE MIDDLE CLASS DISINTEGRATES 7-13-23 by Michael

How many people will be sleeping in homeless shelters, on the streets or in their vehicles where you live tonight? That is the sort of question that not a lot of us like to think about. But the truth is that homelessness is growing at a very rapid pace all over the country right now. But if you have lots of money, life probably seems pretty good to you at the moment. You may eat at a different restaurant every night, and you may be one of the approximately 10 million Americans that currently own a second home. Our leaders made the wealthy even wealthier by pumping trillions of dollars into the system in recent years, but as the cost of living <u>has soared</u> the poor have gotten even poorer and the middle class has steadily disintegrated. So now the gap between the wealthy and the rest of the nation is larger than ever, and that is creating a tremendous amount of tension in our society. (Read More...)

ALLOWING THE CRIMINALS TO RUN WILD IN THE STREETS OF OUR MAJOR CITIES IS ONLY GOING TO MAKE THINGS WORSE... Michael

The chaos that we are witnessing in our streets is the direct consequence of the incredibly bad decisions that our leaders have been making for decades. Traditional morality has been banished from our public schools, gang members and drug dealers are constantly pouring across our wide open borders, and in many of our largest cities hardened criminals are let back out into the streets time and time again. As a result, property crime is out of control, violent crime has risen to very frightening levels, we are in the midst of the worst drug crisis in the history of our country, and sexual predators <u>are seemingly</u> <u>everywhere</u>. I wish that I could call what we are experiencing a "crime wave", but I can't because a "crime wave" is just temporary. Sadly, what we are enduring appears to be due to a permanent shift in our culture, and I believe that conditions are only going to get worse during the years ahead. <u>(Read More...)</u>

While everybody else is distracted, the globalists are making absolutely enormous moves. Previously, I have written about the UN's <u>new worldwide system for cracking down on</u> <u>"misinformation"</u> and about their desire to implement <u>a global</u> <u>system of digital identification</u> that is tied to our bank accounts. I realize that these things sound really wild, but they aren't being done in secret. In fact, the globalists are very proud of what they are doing. But only a small percentage of the population is even aware of this insidious agenda that they are pushing through, and so there is very little debate about it. (Read More...) STORE FOOD WHILE YOU STILL CAN, BECAUSE 2.4 BILLION PEOPLE ALREADY DO NOT HAVE ENOUGH FOOD AS THIS NEW GLOBAL FAMINE ACCELERATES July 16, 2023 by Michael

Global food supplies just keep getting even tighter, and global hunger has risen to extremely alarming levels. People on the other side of the world are literally starving to death as I write this article, but most of us in the western world simply do not care about the millions that are deeply suffering because the mainstream media hardly ever talks about what is happening. But the truth is that we are feeling the impact of this global food crisis too. As I warned my readers repeatedly, the primary way that this crisis would manifest itself in wealthy countries during the early stages would be through higher food prices, and that is precisely what we are witnessing. On Friday, I went to the grocery store and a small bag of chips that I could once buy on sale for 99 cents now has a regular price of 5.99 stamped on it. Throughout the store there were so many products that I refused to purchase because I thought that they had simply become way too expensive, but those prices are not going back down to where they once were. Food inflation is here to stay, and entire planet is going to suffer as a result. <u>(Read</u> <u>More...)</u>

"...In 1987, Plaintiff commenced an action alleging civil RICO violations in the U.S. District Court for the District of New Jersey to recover money owed to him by a Mr. Dilena. The case was assigned to District Judge Maryanne Trump Barry[2]. The thrust of his claim was that Mr. Dilena diverted funds owed to Plaintiff and comingled them with illicit drug profits that were then laundered through the Trump casinos. Contemporaneous to the 1987 RICO action, Plaintiff claims that he informed Assistant U.S. Attorney Jonathan Lacey of the RICO scheme and provided him with documents to support his theory. After no answer from Mr. Lacey for several months, Plaintiff learned Mr. Lacey was no longer with the U.S. Attorney's office and that his documents could not be found. Plaintiff delivered another package of the same documents several months later to U.S. Attorney Sam Alito.[3] After no contact for several months Plaintiff learned that Mr. Alito was no longer working in the U.S. Attorney's office and that his documents could not be located. Plaintiff then attempted to tell his story to agents of the FBI, but they were not receptive. As a result of deliberately slow proceedings in his 1987 RICO action, Plaintiff filed for (Chapter 11) bankruptcy in New Jersey in 1988. Later in 1988, he sought to recuse Judge Barry because she was the sister of Donald Trump, owner of the Trump Casinos involved in the RICO scheme. At this time Plaintiff met with then U.S. Bankruptcy Trustee Hugh Leonard to convince him to join Plaintiff's motion to recuse. Mr. Leonard declined. The 1987 RICO action was dismissed in 1989..."

ANOTHER ALARMING SOCIETAL TREND THAT WAS ACCELERATED BY THE LOCKDOWNS... June 26, 2023 by Michael

Looking back, we can see that the lockdowns did so much

damage. They greatly affected our mental health, the economy, and even <u>the education of our children</u>. But one thing that is not talked about a lot is the impact that the lockdowns had on church attendance in America. In 1958, a Gallup survey found that 49 percent of Americans had attended church within the past 7 days. That number started to decline during the ensuing years, and by 1972 only 40 percent of Americans said that they had attended church within the past 7 days. From 1972 all the way until 2012, church attendance within the past 7 days hovered right around that 40 percent figure. Unfortunately, over the past decade it has started to fall once again. Just prior to the pandemic, a Gallup survey found that 34 percent of Americans had been to church within the past 7 days, and now a new survey has it down to just 31%... (Read More...)

At this point, nobody can deny that we are a society in decline. In America today, you can buy a U.S. Senator <u>for 10,000</u> <u>dollars</u>, test scores for 13-year-olds have dropped to <u>alarmingly</u> <u>low levels</u>, and the CDC is telling us that more people than ever are getting depressed. Our streets are filled with crime, the ranks of the homeless are <u>absolutely surging</u>, and we are facing the worst drug crisis in the entire history of our nation. Meanwhile, corruption is seemingly everywhere. The guy in the White House and his son have made millions of dollars in an epic influence-peddling scheme that stretched over many years, and the mainstream media doesn't seem to care. Of course they know exactly what it is like to be bought and paid for, because the only reason the big news networks can survive is because of the millions of advertising dollars pharmaceutical industry continues to inject into their dying carcasses. ALL OF A SUDDEN, CHILD TRAFFICKING HAS BECOME ONE OF THE HOTTEST TOPICS IN AMERICA... July 9, 2023 by Michael

I am so glad that *"Sound of Freedom"* suddenly has people all over the country talking about the horrors of child trafficking. Most people tend to think of slavery as a thing of the past, but that is not true at all. In fact, human rights organizations tell us that more people are enslaved right now than ever before in all of human history. Approximately 50 million precious people are currently living in a state of slavery, and a significant percentage of those are enslaved for sexual purposes. There is no place in any civilized society for such a thing, but the experts are telling us that every year it gets even worse, and millions of children are involved. Approximately 20 percent of all sex trafficking victims are children, and approximately 80 percent of all child victims are girls. (Read More...)

ALL OVER AMERICA, PEOPLE ARE AFRAID TO LIVE THEIR NORMAL LIVES MAY 8, 2023 BY MICHAEL

Has our rapidly changing culture caused you to significantly alter the way that you live your life? If so, you are definitely not alone. Thanks to rapidly rising crime rates, <u>unchecked illegal</u> <u>immigration</u>, <u>record high mass shootings</u>, <u>rampant homelessness</u> and the worst drug crisis in U.S. history, millions of Americans are now scared to live their lives the way that they once did. Social decay is spreading like a very aggressive form of cancer all over the country, and to a lot of us it seems like a very substantial portion of the population has completely lost their minds. The thin veneer of civilization that we all depend upon on a daily basis is disappearing very quickly, and the outlook for the future of our society is extremely bleak. (Read More...) THEY WANT TO IMPLEMENT A GLOBAL SYSTEM OF DIGITAL IDENTIFICATION "FOR ALL" THAT WOULD BE CONNECTED TO OUR BANK ACCOUNTS June 22, 2023 by Michael

It doesn't take a genius to figure out where this could be heading. For a moment, I would like for you to imagine a rather chilling "fictional" scenario. Not too far in the future, all "global citizens" are required to possess proper "digital identification" or else they will not be permitted to access the new global digital financial system. Central banks all over the globe have rolled out their new "central bank digital currencies", but in order to use those currencies you must "prove that you are who you say you are", and the only way to do that is with the new global system of digital identification that has been introduced. As cash is phased out, those that resist being part of the new global system are increasingly pushed to the outer fringes of society. Hardly anyone is willing to employ them any longer, it has become virtually impossible for them to get loans, and they are looked down upon by much of the general population. And then after the vast majority of the global population has "willingly" signed up for the new global system of digital identification, it is announced that the system will now become mandatory. That means that anyone that does not submit will not be able to buy, sell, get a job or have a bank account. (Read More...)

<u>Vast Hordes Of Americans Are Being Forced Out Into The Streets</u> <u>As The Middle Class Disintegrates</u> <u>July 13, 2023 by Michael</u>

How many people will be sleeping in homeless shelters, on the streets or in their vehicles where you live tonight? That is the sort of question that not a lot of us like to think about. But the truth is that homelessness is growing at a very rapid pace all over the country right now. But if you have lots of money, life probably seems pretty good to you at the moment. You may eat at a different restaurant every night, and you may be one of the approximately 10 million Americans that currently own a second home. Our leaders made the wealthy even wealthier by pumping trillions of dollars into the system in recent years, but as the cost of living has soared the poor have gotten even poorer and the middle class has steadily disintegrated. So now the gap between the wealthy and the rest of the nation is larger than ever, and that is creating a tremendous amount of tension in our society. (Read More...)

JESUS IS YOUR ONLY HOPE May 30, 2023 by Michael

Our society trains us not to think about the things that really matter. Instead, we are constantly directed to think about whatever is going to make us happy in the moment, and if we don't know what that is society certainly has a lot of suggestions for us. Of course all of the things that bring a bit of temporary happiness can never fill the deep hole of emptiness and pain that most people carry around with them. Surveys tell us that people have never been more depressed than they are right now, suicide rates have never been higher, and both legal and illegal drugs are being abused at levels that are absolutely unprecedented. Even though we are literally surrounded by things that are supposed to make us happy, our society has never been unhappier than it is at this moment. (Read More...)

THE MAINSTREAM MEDIA IS NOT TELLING YOU THE TRUTH ABOUT INFLATION 7-12-23 by Michael

WE ARE STARTING TO EXPERIENCE THE APOCALYPTIC WEATHER OF THE END TIMES

Have you noticed that we are being hit by an endless series of weather emergencies? Here in the middle of 2023, farms in the Midwest are being devastated by a seemingly endless drought, massive dust storms are happening as far north as Illinois, residents of Vermont just experienced the worst flooding that they have seen in nearly 100 years, and the Southwest is being baked by unprecedented heat. I realize that this is a very sensitive topic. A large portion of the population insists that what we are witnessing is "normal", while another large portion of the population believes that we can fix the weather by changing our behavior. Unfortunately, both groups are wrong. What we are beginning to experience is the apocalyptic weather of the end times, and things are only going to get crazier during the months and years that are in front of us. (Read More...)

DO YOU KNOW ABOUT THE 3 ECLIPSES THAT WILL COMBINE TO CREATE A GIANT "ALEPH" OVER AMERICA?_July 7, 2023_by Michael

"I am about to share something with you that is truly remarkable. The paths of three eclipses will combine to form a giant "Aleph" over America, and hardly anyone knows about this. Of course the Aleph is the first letter in the Hebrew alphabet. The second letter in the Hebrew alphabet is Bet. Most people don't realize this, but our word "alphabet" originally came from a combination of Aleph and Bet. But is the fact that a giant "Aleph" will soon be completed over the United States significant? I believe that it is,I will explain why in this article." (Read More...)

WHAT IN THE WORLD IS HAPPENING IN RUSSIA? June 25, 2023 by <u>Michael</u>

The entire world has been stunned by the events of the past 48 hours. The leader of the Wagner Group, Yevgeny Prigozhin, was leading a convoy of heavily-armed troops to Moscow, and the mainstream media in the western world was salivating over the prospect of a Russian civil war. The "regime change" in Russia that western leaders have desperately been hoping for seemed like a realistic possibility, and that sparked a frenzy of speculation on social media. But just like that, it was over. All of a sudden Prigozhin was heading into exile in Belarus, and we were told that his troops would be heading back to the front lines in Ukraine. <u>(Read More...)</u>

THE UN HAS COME UP WITH A SHOCKINGLY INSIDIOUS PLANFOR GLOBAL DOMINATIONJuly 5, 2023 by Michael

Under a shocking new plan that is scheduled to be adopted two months before the U.S. presidential election in 2024, all it would take is some sort of a major "global shock" for the United Nations to literally take authority over the entire planet. I realize that this may sound like the plot to a really bad science fiction movie, but this is actually what is being proposed, and the Biden administration is fully behind this insidious plan. Mainstream media in the United States is not covering this at all, and so most people have no idea that this is going on. (Read More...)

IS BIZARRE ACTIVITY ON THE SUN CAUSING CATASTROPHIC DISASTERS ALL OVER THE GLOBE? July 13, 2023 by Michael

When you see a graphic that depicts the Sun as just about as large as the Earth, you should just chuckle. The truth is that we are a tiny little rock compared to the giant ball of fire that we revolve around. And whenever that giant ball of fire become more active, that greatly affects what is happening on our planet. This is not a revolutionary concept, but a lot of people out there just can't seem to grasp it. Yes, the Sun is a long distance away, without it none of us could survive for long, it is absolutely enormous <u>would be a massive understatement (Read</u> More...)

But the truth is that they can't. When you take a close look at the models they are using, you quickly discover that they are fundamentally flawed. Throughout human history, the climate has always been changing, and human activity has had very, very little to do with it. I hope that this Independence Day was the greatest Independence Day that you and your family have ever experienced. Personally, I had the opportunity to spend some time with family over the past several days, and that helped to rejuvenate me. We should be thankful for times like these, because we will not always have them. In fact, at the rate that America is falling we may not have too many July 4th celebrations left. Just about every major decision that our leaders make is self-destructive, and if we stay on the road that we are currently on our nation <u>is not going to survive</u>. MILLIONS OF AMERICANS ARE RELOCATING JUST PRIOR TO THE GREAT CHAOS THAT IS COMING July 6, 2023 by Michael

Summer is moving season for millions of Americans, and many will end up relocating to an entirely different state. In the old days, such long distance moves were often prompted by an employment change or by a desire to be closer to family. But now political and ideological considerations are motivating many Americans to search for greener pastures. Just about all of us can feel that something has gone horribly wrong in this country. All around us our society is literally coming apart at the seams, and it has become exceedingly clear that great chaos is **coming.** It has been said that birds of a feather tend to flock together, and that is especially true during challenging times. So now we are seeing an exodus of conservatives to red states and an exodus of liberals to blue states. The following comes from an article that was recently posted by PBS "Conservatives move to red states and liberals move to blue as the country grows more polarized"... (Read More...)

LET'S TALK ABOUT YEVGENY PRIGOZHIN... June 28, 2023 by Michael

When Yevgeny Prigozhin launched his short-lived rebellion, many in the western media were describing it as a "coup". But the truth is that Prigozhin did not intend to try to overthrow Vladimir Putin. He just wanted his seat at the table back. Being in Vladimir Putin's good graces had turned Prigozhin into an exceedingly wealthy man over the years, but now everything was changing. Prigozhin was in danger of losing everything that he had worked to build, and the final straw was a decision to break up the Wagner Group and absorb those troops into the Russian military. Prigozhin realized that he was being sidelined, and so in a desperate attempt to get some leverage he hatched an ill-fated plan to kidnap Defense Minister Sergei Shoigu and General Valery Gerasimov. Unfortunately for Prigozhin, they learned of his scheme in advance, and their travel plans were changed. When he realized that his scheme had failed, Prigozhin was willing to make a deal, because he didn't want to see his fighters slaughtered in a pointless conflict. (Read More...)

"FROM PROTOCELLS TO PEOPLE

Evolution is the result of millions of minute mutations over millions of years, but the evolutionary process that created us can bucketed into a few key categories.

1. PROTOCELLS AND EARLY MICROORGANISMS

The first life forms on Earth were simple, singlecelled <u>microorganisms</u> known as protocells. These precursor cells lacked a nucleus or other membrane-bound organelles, and they had simple genetic proteins called RNA.

Over time, RNA complexified into the more stable <u>DNA</u>. Protocells slowly developed specialized organelles, becoming more complex microbes that would eventually form eukaryotes – the complex, unicellular organisms that would birth a diverse array of life forms, from simple sponges to complex animals.

2. THE FIRST ANIMALS

Dickinsonia is the earliest example of an animal we know of. Though it was a simple, flat creature that lacked a mouth or digestive system, it symbolizes the first multicellular organism of substantial complexity.

Over time, the first sophisticated organ systems began to arise. Bilateral symmetry emerged, as well as early versions of the nervous and circulatory systems. Simple eyes, called <u>eyespots</u>, also appeared around the time that spinal cords and vertebrate creatures began to emerge.

3. FISH AND TETRAPODS

One of the most significant developments in the evolution of life was the transition from marine to terrestrial environments.

Up until 500 million years ago, all life was sequestered in the sea. Fish were the first vertebrates and introduced additional organs like stomachs, spleens, and body components like scales, teeth, blood, and more. Bony fish arose, and over time their development brought about sophisticated changes to the skeletal system, eventually producing "proto-limbs" that would enable organisms to walk on land.

Researchers are still unsure which specific organism might have first crawled on land, but candidates share these pre-limb characteristics. Tiktaalik is one popular candidate because it had specialized bones that suggest it could support its own weight while moving out of shallow waters.

These creatures eventually became the tetrapods ("four-footed"), and they had features like four-legs, a backbone, and lungs which could absorb oxygen from air. All the amphibians, reptiles, birds, and mammals that followed are descendants of the original tetrapods.

4. THE FIRST MAMMALS

Around 200 million years ago, the first mammals emerged. These early mammals were small, <u>shrew-like creatures</u> that lived alongside the dinosaurs. Over time, however, mammals evolved hair, specialized teeth, sweat glands to regulate body temperature, and a more efficient circulatory system. Mammals also brought about features like nocturnality, mammary glands, external genitalia, and a variety of other features that distinguished them from other living species at the time, like birds or reptiles.

5. THE GREAT APES AND FIRST HOMO SPECIES

Around 7 million years ago, the first great apes emerged in Africa. These apes, such as orangutans, gorillas, and chimpanzees, were highly intelligent and social creatures that lived in complex communities. Over time, one lineage of apes would give rise to the first members of the genus *Homo*, which includes our own species.

The main developmental changes during this time were the fulltime bipedalism of apes, increasing brain size, and advanced bone development that enabled dexterity for tool construction and hunting. Inventions like fire and clothing arose early in the *Homo* genus, and eventually complex language, hair loss, and dramatic facial changes would evolve.

Researchers struggle with resolving the exact progression of the *Homo* species. Many *Homo* species existed at the same time, and since many fossil records overlap, resolving which ones came first is an area of intense focus.

The Future of Human Evolution

As humans continue to evolve, we can expect to see significant changes in our physical and cognitive abilities over the next 10,000 years.

With the rise of technology and the increasing interconnectedness of the world, we may see a shift towards a more globalized and homogeneous human population, with less genetic diversity. This has been described as "The Great Averaging", where genetic diversity minimizes and we start to become more alike.

Other theories suggest that we might develop features like a taller, lighter build, with smaller brains and a less aggressive personality.

However, as with all evolution, these changes will be shaped by a complex interplay of genetic, environmental, and cultural factors. It is impossible to predict exactly how humans will evolve over the next 10,000 years, but one thing is certain: the future of human evolution will be shaped by the choices we make today."

It wants us to buy into the fantasy that we are living the dream, when in fact, we are trapped in an endless nightmare of servitude and oppression. [THIS IS, OF COURSE, ABSOLUTELY TRUE! HAVING THE INNATE ABILITY AND INCLINATION TO GET TO THE "BOTTOM LINE OF THINGS", from direct observation and experience I found IT'S UNEQUIVOCALLY TRUE *AB INITIO* THAT AMERICA IS BAD AND IS UNMISTAKABLY BAD NEWS!]

BUY THE LIE! WELCOME TO AMERICA AMERICA'S MAGICAL THINKING Elizabeth Cronise McLaughlin "...But it's not just that about which we are in denial. It's also about the death of American mythology. We've been lied to so long in America it's hard sometimes to know truth from fiction. I was born in 1971, and I was raised with history lessons in school that included things like Manifest Destiny (used to justify indigenous genocide, land theft, and the use of Chinese slave labor to build railroads), the "discovery" of America by Columbus (to justify violent colonialism), and the end of the enslavement of Black Americans as a distant historical event (as though the repercussions of it don't live on to this day given that slavery was the foundation of American capitalism and white supremacy). Even as recently as the past few years, many of us have fallen for the lie that this is a real democracy*. Democracy, though, requires real representation and rule by the people, under the theory that the people have the right to rule. Democracy is supposed to be in direct opposition to autocracy, where power of the few (whether monarchs or oligarchs) is lorded over the many through extreme wealth disparity, abuse of power, and control of the many to benefit those in power. I ask you: which one sounds like more like America today? As but one example, over the past few days I've seen polling that indicates that more than 88% of Americans favor background checks on gun sales, and more than 67% favor an assault weapons ban. The likelihood that any such legislation will pass, though, is literally nil absent reform of the filibuster, the end to which lies in the hands of a tiny, tiny number of people. Some of us have known for a long time that America was a lie. Some of us are just waking up to it. How do you grieve the promise of a nation that never was?.."

DICTATORS BENT ON BUILDING MILITARY EMPIRES: THE COST OF THE NATION'S ENDLESS WARS

... it's time for the U.S. government to stop "policing" [fleecing] the globe...

DEATH OF A MYTH Americans need to wake up to the realities of a post-unipolar world before it's too late...

Time to put 'law in america' in its proper perspective. Specifically, much as would be so in an exclusively maximum security prison environment for convicts of the most serious crimes, the notion of laws, rules of law is preposterous. Beyond the propaganda, obfuscation, etc., lies the greatest fraud, certainly of the 20th and 21st centuries; viz., america. Anthropologically speaking, america is unequivocally a total, unmitigated evolutionary disaster.

WORLD THE TELEGRAPH <u>PUTIN'S RUSSIA IS HEADED FOR A</u> <u>MILITARY DICTATORSHIP – AND TOTAL COLLAPSE</u>

The last vestiges of democracy in Russia are burning in the fields of the Donbas. Young men are being sent to the slaughter, their post-war tanks proving no match for modern Western kit or the motivation of Ukrainian soldiers defending their homes. Putin knows his only hope of victory – and of prolonging his tenure as the last great Tsar – is the total militarisation of Russia. This is an outcome that suits him well.

BIDEN'S GENIUS DÉTENTE HAS COST AMERICA THE OLD BALLGAME BY philbutler

"For it's 1, 2, 3 strikes you're out in the old, ball, game."

President Joe Biden's benefactors have lost the world, whether Russia wins or loses in Ukraine. This was a poignant message delivered by Fox News's Tucker Carlson the other day. Forcing the Russians to act, and pushing them into unbreakable alliances with China, India, and Iran, Biden and Co. have almost overnight turned the United States into one great big meaningless banana republic....This leaves us with only two possible answers as to "why" our leadership has burst out with godlike omnipotence. Either they are crazy as hell, as Tucker Carlson suggested, or the plan is to destroy what is left of the American dream for a cause! But, what could that cause be? Could it have anything to do with Hunter Biden and the "Big Guy?" Do the Chinese and the Ukrainians have that much dirt on America's 1st family? Or, is the profit for the western elites so immense if America fails, they consider destroying us a safe bet? Lunacy or Machiavellian scheming, at the end of the day we are already done.

We cannot nuke the world and win. We cannot engage in a conventional war with both China and Russia at once. And our 100 trillion dollars in debt economy cannot be pitted against Russia, the BRICS, Asia, and African business people sick unto death with our nasty omnipotence. If Biden does not back out of Ukraine now, it will be he and Justin Trudeau versus just about everybody on the planet pretty soon. Let's face it, Biden blew up Germany's and Europe's last cubic foot of camaraderie when the US Navy Seals set off explosives to end German industrialization.

Yep. We lost. It's only the 9th inning, and the game's not technically over, but Biden and Co. have two outs, and two strikes on the batter in the bottom of the inning in what will certainly be a stunning loss. This is pitiful, but maybe my countrymen could use a big dose of reality and humility.

"For it's 1, 2, 3 strikes you're out in the old, ball, game."

SUISSE BAILOUT? REGIONALS PRESSURED BIGGEST BANKS RACE TO RESCUE GOLDMAN BOOSTS RECESSION ODDS

THE PROBABILITY OF A RECESSION HAPPENING IN THE NEXT 12 MONTHS IS THE HIGHEST IN MORE THAN 40 YEARS! May 15, 2023 by <u>Michael</u>

If they are actually telling us that a recession is coming this time around, how bad is it going to be? In 2008, officials kept assuring us over and over again that there wouldn't be a recession, and then we plunged into the greatest economic downturn since the Great Depression of the 1930s. But here in 2023, what is coming is so obvious that nobody can deny what is happening. The economy is already starting to come apart at the seams all around us, and the "experts" at the Federal Reserve openly acknowledge that they are making things even worse by hiking interest rates. Pretty much everyone agrees that rougher times are ahead of us, and "a probability model from the New York Federal Reserve" is now projecting that there is a 68.2 percent chance that there will be a recession <u>within the next 12</u> <u>months... (Read More...)</u>

IT ISN'T JUST THE ECONOMY THAT IS ON THE VERGE OF COLLAPSE... <u>5-31-23</u> by <u>Michael</u>

We are in far more trouble than most people realize. In recent months, our rapidly growing economic problems have gotten a lot of attention, and without a doubt our economy is heading into really hard times. The greatest debt bubble in the history of the world <u>has started to implode</u>, and the end of this <u>"mega-cycle"</u> is going to cause an immense amount of pain. But if every other element of our society was strong, we could survive that. It may surprise a lot of you to hear me say that, but it is true. If all that we were facing was an economic collapse, it would cause an enormous amount of turmoil in this country but we would make it through. (Read More...)

THIS IS THE END OF A MEGA-CYCLE May 30, 2023 by Michael

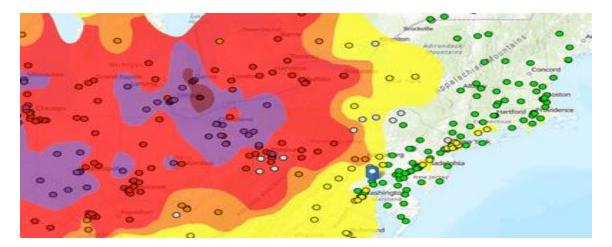

Have we finally reached the end of the road? When it comes to the economy, most of us focus on short-term cycles. In recent years there have been times when the economy has been growing and there have been times when the economy has been shrinking, but all of those short-term fluctuations have happened in the context of a long-term trend of debt-fueled "growth". We have been relentlessly stealing from the future in order to make the present more pleasant, and most of us pretend that the piper will never have to be paid. But of course the truth is that a day of reckoning is fast approaching, and is going to be immensely painful. (Read More...)

ALL OF A SUDDEN, OUTBREAKS OF MALARIA, H5N1, SWINE FLU AND MONKEYPOX ARE ALL IN THE NEWS... June 27, 2023 by Michael

After a bit of a lull, it appears that pestilences are going to start making headline news once again. Of course that is the last thing that many of us want to hear. Many Americans are finally getting their lives back to normal after the last pandemic, and a lot of people are hoping that we won't have to go through another for a long time to come. Unfortunately, the truth is that we have entered <u>a period of history</u> when major outbreaks will be quite common. In secret labs all over the planet, mad scientists are monkeying around with some of the deadliest bugs ever known to humanity, and as we have seen, it is way too easy for an "accident" to happen. NOW THEY ARE ACTUALLY WORKING ON A PLAN TO BLOCK OUT THE SUN June 28, 2023 by Michael

What are they thinking? Without enough sunlight, life on this planet would not be able to survive for long. So when global leaders start talking about blocking out the sun or "reengineering the atmosphere", we should all get really, really nervous. Plants need sunlight in order go grow. So less sunlight would mean less food for all of us. And considering the fact that we are already in the early stages of <u>a horrifying global food</u> <u>crisis</u>, growing enough food should be a very high priority. Unfortunately, the globalists see things very differently. They are apparently willing to implement extremely risky measures in a desperate attempt to get temperatures back into a range that they consider to be "normal". Following comes from a Bloomberg article entitled <u>"EU Looks Into Blocking Out</u> the Sun as Climate Efforts Falter" (Read More...)

Beach goers take a dip in the Atlantic Ocean at Hollywood Beach, Monday, July 10, 2023, in Hollywood, Fla. The world's oceans are already record hot, especially the Atlantic, water surrounding much of Florida is in the 90s, hitting 96 degrees Fahrenheit around the keys. Why is the Atlantic Ocean becoming dangerously warm? This is a question that a lot of marine scientists are thinking about right now. Temperatures in some areas of the Atlantic have risen to levels that we have literally never seen before, and everyone agrees that this could not have happened by chance. So what is going to happen to marine life in the Atlantic if temperatures keep going up? And what will hurricane season look like with such elevated water temperatures? According <u>to CNN</u>, there are certain areas of the Atlantic Ocean where water temperatures have actually been 9 degrees warmer than normal... (<u>Read</u> <u>More...)</u>

<u>SCHOOLS ARE NOW ALLOWING CHILDREN TO IDENTIFY AS</u> <u>CATS, HORSES, DINOSAURS AND ALL SORTS OF OTHER THINGS</u>

June 20, 2023 by Michael

I seriously should have thought of this when I was a kid. If I could have answered every question a teacher asked by meowing like a cat or roaring like a dinosaur, there is no way they could have ever accused me of getting an answer wrong. And when it was time for a quiz or a test, I could have just responded to every question with a paw print. Of course nobody would have actually been able to get away with such a thing decades ago. When I was a kid, anyone that tried to pull this kind of a stunt would have been marched down to the principal's office. But now we live at a time we are supposed to allow people to identify as anything that they want. (Read More)

QUESTION: WHO IS PAYING TO BAIL OUT THE FAILED BANKS? -ANSWER: YOU ARE MARCH 13, 2023 BY MICHAEL

Don't listen to the load of malarkey that Joe Biden is trying to sell you. We are being told that it won't cost taxpayers a single dime to bail out the second and third largest bank failures in the history of the United States. Every single depositor is going to get all of their money back, and plenty of liquidity will be made available to other banks that may be on the verge of failing. All of this is going to cost billions and billions of dollars, but somehow we get a free pass. In fact, during his public remarks on Monday, Joe Biden explicitly pledged that <u>"no losses will be borne by the taxpayers"</u>... (Read More...)

Breaking: The TRUTH About Nord Stream And Who Was REALLY Behind It...by Paradigm Press

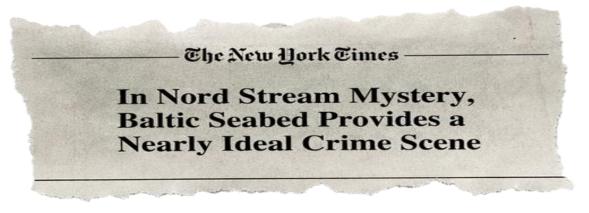

When Russia's Nord Stream pipeline was decimated in September of last year, it had all the markings of a coordinated attack.

But no one claimed responsibility for it.

And the story was quickly swept under the rug by the mainstream media.

The New York Times simply called it a "mystery" and moved on.

But today, <u>there's startling evidence</u> about what really happened – and <u>who was *really* behind the whole operation.</u> Here's what we know for sure...

1. President Biden has ALWAYS opposed the Nord Stream pipeline, considering it a direct threat to U.S. energy exports to Europe

- 2. Three weeks BEFORE Russia invaded Ukraine, Biden told reporters, "If Russia invades Ukraine... there will no longer be a Nord Stream 2."
- 3. Russia invades Ukraine on Feb. 24th, 2022
- 4. Eight months later, the Nord Stream pipeline is crippled by 4 massive explosions, 240 feet below the Baltic Sea.
- 5. U.S. energy exports to Europe surge to record highs in order to meet demand, just in time for winter

And that's only the beginning...

In <u>this new presentation</u>, one ex-CIA insider pulls back the curtain on what *really* happened to Nord Stream... And provides shocking evidence that shows President Biden's connection to it."

It is always hot in the summer, but this summer is unlike anything we have ever seen before. To many, the summer of 2023 kind of feels like someone has thrown our planet into an extremely hot oven and won't let us out. Record high temperature after record high temperature is being set all over the globe, and experts are scrambling to explain what is happening to us. But it isn't actually a mystery. When the sun becomes more active, temperatures tend to rise, and it is being reported that the number of sunspots that are currently being produced exceeds anything that we witnessed during the last solar cycle... BUCKLE UP, WHAT YOU'RE ABOUT TO SEE ISN'T PRETTY

"The 'US is an emerging market' theme was on full display last week.

1) Many of the most important institutions in the U.S. now exhibit a level of corruption that is normal for banana republics. We now see these institutions doing everything from interfering in elections to arresting political opponents and more. The individuals who do this are not punished, if anything they given book deals and TV slots.

2) The U.S. no longer has a clear rule of law. Those with the correct political leanings and connections can avoid jail time for serious crimes, even treason. Meanwhile, those on the other side of the political spectrum are given lengthy sentences for minor transgressions.

3) The U.S. economy is no longer a manufacturing/ industrial leader. Decades of outsourcing have gutted the middle class

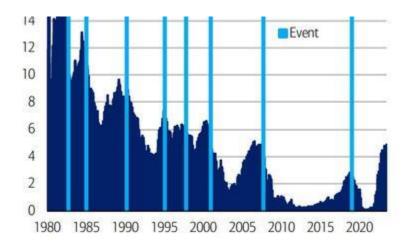

resulting in the kind of wealth disparities you usually see in emerging markets. American children dream of becoming influencers or social media personalities instead of business owners or innovators.

IT'S ENOUGH TO MAKE YOU SICK."

Aside from the current move, the other five instances eventually led to declines ranging from 20% on the low end for the S&P 500 in the fourth quarter of 2018, to 89% on the high-end for the Dow Jones Industrial Average during the Great Depression. Though a move of this magnitude is highly unlikely in today's market, the key takeaway is that when valuations become extended to the upside, a minimum decline of 20% has eventually followed."

If you are trying to sell your home right now, I feel so sorry for you. Thanks to the Federal Reserve, mortgage rates have risen to very alarming levels, and this has scared millions of potential homebuyers out of the market. Compared to two years ago, the average potential homebuyer is facing mortgage payments that are close to \$1,000 per month higher. I don't know about you, but I certainly wouldn't want to pay \$1,000 more each month for the exact same house.Potential homebuyers are staying out of the market until interest rates come down;that could be a while, because officials at Fed do not plan to reduce rates for foreseeable future. MORE THAN 105 MILLION WORKING AGE AMERICANS DO NOT HAVE A JOB RIGHT NOW JULY 4, 2023 BY MICHAEL

Our long slide toward economic oblivion continues, and survey after survey has shown that most Americans are deeply unsatisfied with the current state of the U.S. economy. DON'T LOOK NOW, BUT UTTER CHAOS IS BEING UNLEASHED

ALL OVER THE WORLD JULY 5, 2023 BY MICHAEL

The relative peace and tranquility that we had been enjoying for several months has been shattered. All of a sudden, chaos is erupting all over the globe. Rioters are setting fires in cities all over France, the IDF just conducted the largest military operation in the West Bank since 2002, and the Russians and the Ukrainians are both accusing one another of wanting to attack the Zaporizhzhia Nuclear Power Plant. If that facility is bombed, it could potentially cause a nuclear disaster far worse than the one that we witnessed at Chernobyl in 1986. Unfortunately, I believe that global instability will be the norm throughout the remainder of 2023 and beyond. Much more civil unrest and war are ahead, and that has very serious implications for every man, woman, child on entire planet. (Read More...)

NOW THEY ARE ACTUALLY WORKING ON A PLAN TO BLOCK OUT THE SUN June 28, 2023 by Michael

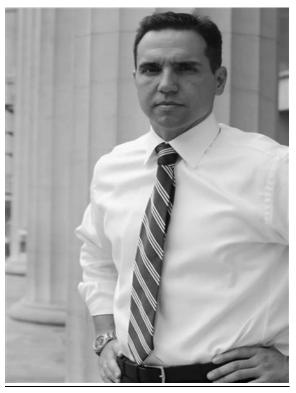

What are they thinking? Without enough sunlight, life on this planet would not be able to survive for long. So when global leaders start talking about blocking out the sun or "reengineering the atmosphere", we should all get really, really nervous. Plants need sunlight in order go grow. So less sunlight would mean less food for all of us. And considering the fact that we are already in the early stages of a horrifying global food crisis, growing enough food should be a very high priority... THEY WANT TO IMPLEMENT A GLOBAL SYSTEM OF DIGITAL IDENTIFICATION "FOR ALL" THAT WOULD BE CONNECTED TO OUR BANK ACCOUNTS June 22, 2023 by Michael

It doesn't take a genius to figure out where this could be heading. For a moment, I would like for you to imagine a rather chilling "fictional" scenario. Not too far in the future, all "global citizens" are required to possess proper "digital identification" or else they will not be permitted to access the new global digital financial system. Central banks all over the globe have rolled out their new "central bank digital currencies", but in order to use those currencies you must "prove that you are who you say you are", and the only way to do that is with the new global system of digital identification that has been introduced. As cash is phased out, those that resist being part of the new global system are increasingly pushed to the outer fringes of society. Hardly anyone is willing to employ them any longer, it has become virtually impossible for them to get loans, and they are looked down upon by much of the general population. And then after the vast majority of the global population has "willingly" signed up for the new global system of digital identification, it is announced that the system will now become mandatory. That means that anyone that does not submit will not be able to buy, sell, get a job or have a bank account. (Read More...)

<u>"GO WOKE, GO BROKE" IS A REALITY, AND HERE ARE THE</u> RECEIPTS... August 2, 2023 by Michael

A pattern has emerged that is undeniable. Companies that choose to "go woke" are going broke. In fact, this is even happening to some of the largest and most famous corporations in the entire country. There is a certain portion of the population that absolutely hates having "woke" propaganda shoved down their throats and the throats of their children, and in 2023 we are seeing economic boycotts on a scale that we have never seen before. This is a good thing, because the only way these companies are going to willingly change their behavior is if they see that pushing a radical social agenda dramatically affects the bottom line. The future is here, and if you enjoy being dominated by control freaks you are going to love it. "Digital identification" is one of the primary areas the globalists are focusing on right now, and as you will see below, the radical changes that are now being proposed are extremely scary. But most Americans have no idea that any of this is happening. Instead, many of them are obsessing over the relatively meaningless dramas that our corporate news outlets are constantly pushing. Meanwhile, the globalists are achieving their goals at lightning speed, and there is hardly any resistance at all. The following are 8 signs that the futuristic control freak agenda of the globalists is rapidly moving forward... (Read More...)

CAN YOU EXPLAIN WHAT HAS GONE WRONG WITH AMERICA? June 25, 2023 by Michael

AT THIS POINT, NOBODY CAN DENY THAT WE ARE A SOCIETY IN DECLINE. In America today, you can buy a U.S. Senator for 10,000 dollars, test scores for 13-year-olds have dropped to alarmingly low levels, and the CDC is telling us that more people than ever are getting depressed. Our streets are filled with crime, the ranks of the homeless are absolutely surging, and we are facing the worst drug crisis in the entire history of our nation. Meanwhile, corruption is seemingly everywhere. The guy in the White House and his son have made millions of dollars in an epic influence-peddling scheme that stretched over many years, and the mainstream media doesn't seem to care. They know exactly what it is like to be bought and paid for, because the only reason the big news networks can survive is because of millions of advertising dollars the pharmaceutical industry continues to inject into their dying carcasses. THE NUMBER OF AMERICANS LIVING ON THE STREETS "HAS BROADLY RISEN THIS YEAR" June 19, 2023 by Michael

Joe Biden and the mainstream media keep telling us that the economy is in good shape, but we continue to get more evidence that directly contradicts that assertion. Over the past few years, the cost of living has been rising much more rapidly than paychecks have, and this has absolutely eviscerated the middle class. So many families that were once thriving financially are now deeply struggling, and so many that were once deeply struggling to make ends meet are now living on the streets. According to a comprehensive analysis just conducted by the Wall Street Journal, the number of homeless people in the US <u>"has broadly risen this year" (Read More...)</u>

Are you deeply struggling right now? If so, I want you to know that you are not alone. The things that I am about to share with you are not meant to be depressing. Rather, I hope that you will be encouraged to see that there are countless others in the exact same boat. Over the past few years, the cost of living has been rising much faster than paychecks have, and this has put enormous financial pressure on millions of American families. In some cases, families are dealing with extreme financial stress even though both parents are working good jobs. Virtually everything has become substantially more expensive, and so our money is not going nearly as far as it once did. (Read More...)

10 Signs That We Really Are Living In Apocalyptic Times

Time is running out for humanity. Our world becomes a little bit more like a really bad science fiction movie with each passing day, and our self-destructive tendencies are slowly but surely transforming our society into a living nightmare. Given enough time, we would destroy ourselves and everything around us. On a very basic level, most people can feel that global events are starting to spiral out of control. Evil is growing all around us, and just about everything that our leaders do to solve our rapidly growing problems seems to make them even worse. The pace of change just keeps getting faster and faster, and many fear that this will soon lead to widespread chaos all over the globe. The following are 10 signs that we really are living in apocalyptic times...

#1 Leaders all over the world seem to be catching "war fever", and the Biden administration just made a military conflict with China even more likely by announcing a 345 million dollar weapons package <u>for Taiwan</u>...

The Biden regime is sending \$345 million in weapons to Taiwan as they look to create another proxy war against China similar to the proxy war they have set up in Ukraine with Russia.

The U.S. made the announcement on Saturday. In response to the news, China has made it clear they will not be backing down.

"No matter how much of the ordinary people's taxpayer money the ... Taiwanese separatist forces spend, no matter how many U.S. weapons, it will not shake our resolve to solve the Taiwan problem. Or shake our firm will to realize the reunification of our motherland," said Chen Binhua, a spokesperson for the Taiwan Affairs Office of China.

#2 Both sides just continue to escalate the war in Ukraine, and now the Russians are openly warning that they could potentially use <u>nuclear weapons</u>... The Kremlin today bluntly threatened use of nuclear weapons in the wake of the Ukrainian drone strike on Moscow's skyscraper zone.

Three drones struck an elite office building and residential skyscraper in Moscow early Sunday morning in what Russia's Defence Ministry has branded an 'attempted terrorist attack by the Kyiv regime'.

Dmitry Medvedev, a former Russian president and Putin ally, has warned there is 'simply no other way out' and said that Kyiv should 'pray to our warriors' that they do not 'allow the global nuclear fire to flare up'.

#3 According to the United Nations, 2.4 billion people already do not have enough food to eat. And now that the Black Sea grain deal has broken down and India has placed severe restrictions on rice exports, we are being warned that global food prices <u>could</u> <u>soon go much higher</u>...

Helen Dickinson, chief executive of the British Retail Consortium (BRC), said the price of bread and breakfast cereals were most likely to increase given <u>Ukraine</u>'s role as one of the breadmakers of the world.

Rice supplies are now also under pressure after India restricted most exports, which the World Bank warned on Monday (July 31) would cause "considerable increases in world prices and induce price volatility".

#4 Pestilences are raging all over the globe, and many old diseases are now making stunning comebacks. For example, Florida has now become the epicenter for <u>an outbreak of leprosy</u> <u>in the United States</u>... Health officials say that cases of leprosy, also known as Hansen's disease, are surging in Central Florida.

In a research letter, the Centers for Disease Control and Prevention (CDC) said that Central Florida has accounted for 81 percent of reported cases in the state and almost one-fifth of reported cases nationwide.

#5 Global weather patterns have gone completely nuts. For example, Phoenix just had a streak where the high temperature reached at least 110 degrees <u>for 31 days in a row</u>...

Phoenix sizzled through its 31st consecutive day of at least 110 degrees Fahrenheit and other parts of the country grappled Sunday with record temperatures after a week that saw significant portions of the U.S. population subject to extreme heat.

#6 Men are getting pregnant and giving birth to babies...

A 22-year-old transgender man has given birth to twins after going through six rounds of artificial insemination in a bid to get pregnant.

Aaden Darr, a Starbucks barista from Charleston, West Virginia, was born biologically female but came out as transgender at 16 years old after identifying as a lesbian for several years and started a course of testosterone.

However, he soon came to realize that it was his dream to have a biological child – so he put a stop to his hormonal treatment and visited his local family planning clinic in order to begin the process of having a baby.

#7 Technology continues to increase at a pace that is absolutely breathtaking. In fact, it is being reported that scientists have

developed a "breakthrough" treatment which <u>"appears to</u> <u>annihilate all solid tumors"</u>...

Scientists have developed what may be a "holy grail" molecule that eradicates all solid cancer tumors while leaving other cells unaffected. The breakthrough was achieved by the team at the City of Hope Hospital, one of the largest cancer research and treatment organizations in the United States, and targets the proliferating cell nuclear antigen (PCNA) protein.

A mutated form of PCNA assists cancers in their repair and growth. The team has developed a molecule, AOH1996, that targets and eradicates the mutated PCNA. Previously, PCNA was considered too challenging to be a target for therapy, but AOH1996 appears to annihilate all solid tumors in preclinical research.

#8 Scientists are bringing ancient species back to life. For instance, it is being reported that one team of researchers was recently able to "reanimate" worms that had been frozen <u>for thousands of years</u>...

Scientists have managed to reanimate worms that were frozen for an estimated 46,000 years.

Thought to have lived in the late Pleistocene era, a small group of the worms found 40 metres deep in the Siberian permafrost have been thawed out and revived.

#9 Deaths from heart attacks have been surging dramatically <u>in</u> <u>every age group in the United States</u>...

NBC's the *Today* show reported, "A national study from Cedars Sinai hospital shows the deaths related to heart attacks increased across every age group since the spring of 2020, but the group that saw the biggest increase isn't who you might think... The relative increase in heart attack-associated deaths among 25-44-year-olds was a staggering 30%... Experts are still working to figure out why young people are so impacted."

#10 Our soil and water are already heavily saturated with microplastics, and now we are being told that this crisis <u>is</u> <u>getting "exponentially" worse</u>...

NOT EVEN THE Arctic Ocean is immune to <u>the incessant growth</u> of <u>microplastic pollution</u>. In a new study that analyzed sediment core samples, researchers quantified how many of the particles have been deposited since the early 1930s. As scientists have shown elsewhere, the team found that microplastic contamination in the Arctic has been growing exponentially and in lockstep with the growth of plastic production—which is now up to a trillion pounds a year, with the global amount of plastic waste <u>projected to triple</u> by 2060.

If you don't understand why microplastics are a very serious existential threat to our society, you really need to read <u>my most</u> <u>recent book</u>. Given enough time, microplastics would completely collapse our civilization even if none of the other very serious problems that we are currently dealing with existed.

Of course the same thing could be said about nuclear war, global famine, AI and a number of other cataclysmic threats that we are now facing.

We really are living in apocalyptic times, and the months and years ahead of us promise to be very "interesting" indeed.

WHAT ARE THEY GOING TO DO WHEN THEY ARE EXTREMELY HUNGRY & THERE ISN'T ENOUGH FOOD TO GO AROUND? 8-6-23 MIKE

I am so concerned about America's young people. Police are telling us that a YouTuber named Kai Cenat sparked a "full-on riot" on Friday when he announced that he would be giving away PlayStation 5 consoles and various video game accessories in New York City's Union Square. Thousands upon thousands of young people showed up, and the crowd quickly turned extremely violent. If our young people are going to riot over a few video game consoles, how are they going to behave when economic conditions in this country become extremely harsh? And what in the world is going to happen when they are extremely hungry and there isn't enough food to go around someday? (Read More...)

THE WAR IN UKRAINE IS NOT GOING VERY WELL FOR THE BIDEN ADMINISTRATION July 19, 2023 by Michael

Joe Biden has repeatedly stated that the U.S. is going to be involved in the war in Ukraine <u>"for as long as it takes"</u>, and our leaders just keep pouring <u>billions upon billions of dollars</u> into the conflict. But the truth is that the war is not going very well for Ukraine. After sending them lots of shiny new vehicles and enormous mountains of military equipment in recent months, U.S. officials pressured the Ukrainians to launch an ill-advised "counter-offensive" so that the public could see that some "progress" was being made. Unfortunately for the Ukrainians, the Russian defensive positions are extremely well prepared at this stage, and thousands upon thousands of young Ukrainians have been needlessly slaughtered. An Irish volunteer that recently returned home <u>told Sky News</u> what life is really like on the front lines at this point... (Read More...)

RUSSIA PREPARES TO USE TACTICAL NUKES, MILLIONS OF YOU DON'T REALIZE YOU ARE GOING TO DIE IN A 3rd WORLD WAR June 15, 2023 by <u>Michael</u>

What is it going to take to wake people up? Russia is deploying tactical nuclear weapons to Belarus, and there is lots of talk in the Russian media about using such weapons to bring a quick end to the war in Ukraine. The theory is that once the Russians show that they are willing to use tactical nukes, the U.S. and the other western powers will back off. But that won't be what happens. Instead of backing off, the Biden administration will respond by using U.S. tactical nuclear weapons against Russian targets in Ukraine. And once both sides have used tactical nukes, it is just a matter of time before the big nukes get used. (Read More...)
